

Abstract:

Success means many things and different things to different people. For me success means finding real happiness and satisfaction from life, being able to do more for those who depend and believe in us and always thanking God for his goodness in all what we do. As a small girl the constant motivation I got from my parents who were both teachers gave a great desire to become a teacher myself. This paper looks at a number of ways in which people can discover the success in them through • Building confidence and destroying fear • Believing big and knowing that action cures • Believing in themselves. • Knowing that God works in different ways.
