Incorporating Sustainability into the Interior Design Curriculum

Submitted by:
WANAKUTA HENRY MUKHWANA
B51/64558/2010

In partial fulfilment of the requirements for the award of the Degree of:

MASTER OF ARTS IN DESIGN
(INTERIOR DESIGN)

SUPERVISORS:

DR. WALTER ONYANGO
DIRECTOR, SCHOOL OF THE ARTS AND DESIGN
UNIVERSITY OF NAIROBI

DR. S.M. MWITURIA
UNIVERSITY OF NAIROBI
SCHOOL OF THE ARTS AND DESIGN
DECLARATION

This Thesis is my original work and has not been submitted for a degree to any other institution, college or university.

REG: B51/64558/2010

This Thesis has been submitted for review with approval as a University Supervisor.

Dr. W.H. ONYANGO

School of the Arts and Design,

University of Nairobi.

Supervisor: ______________________________ Date: ________________

Dr. S. M. MWITURIA

School of the Arts and Design,

University of Nairobi.

Supervisor: ______________________________ Date: ________________
ACKNOWLEDGEMENT

I would like to thank the Almighty God for the gift of life, strength and will to see me through this Thesis, my family for their encouragement and prayers, our lecturers and the entire School of Design University of Nairobi, for support and advice which has guided me through writing this Thesis.

I would also like to thank and dedicate this paper to my Supervisors for the valuable support and technical assistance in the process of realizing this Thesis.

• **VOC**: volatile organic compounds
ABSTRACT

This study addressed the current status of sustainability within interior design education and presented a model that could effectively incorporate it into the curriculum. To further that goal, this study explored the history of sustainability, reviewed its current influence upon the built environment, reviewed current sustainability practices, and evaluated current sustainability educational trends.

The methodology included desktop perusal of secondary sources and a survey of sixty four Interior Design Educators from the University of Nairobi and Maseno University.

Among the findings of this study are that the current status of Sustainability in the Interior Design Curriculum varies among Interior Design programs in different colleges, but there is sustainability content being taught. Sustainability education for educators also proved to be a vital issue to be addressed, apart from the obstacles that are to be overcome, to fully integrate Sustainable Design in the Interior Design curriculum.

The study is organized into six chapters. chapter 1 deals with introduction and background information, chapter 2 deals with literature review and theory, chapter 3 deals with the research methodology, chapter 4 quantitative data analysis, chapter 5 deals with analysis and synthesis of findings and finally chapter 6 has the conclusions and recommendations.
