Retreat

The Department participated in the Faculty of Arts retreat at Maanzoni Hotel in Machakos. The objective of the retreat was to bring Heads of the Department together for discussion of key issues including:

- Examination supervision and marking
- Management of various committees in the Faculty
- Issues of publication and Department and Faculty level
- Revision of old courses
- Development of new courses in line with Vision 2030

It was agreed that the resolutions on each of the issues will be implemented as soon as possible.

Linkages

The department of history is jointly working on a conference on conservation with the University of London through Dr Ann-Marie. Details of the workshop will appear on our web by the end of June 2013.

The Department is also working with the Centre for Human Rights on joint conservation and human rights projects that are to be discussed in the Departmental meeting in July 2013.

Revision of course units

The process of revising course units in the Department has commenced. Committees have been set to initiate the process. The committees are to

give progress reports during the next departmental meeting. We intend to invite stake holders in the month of August for a discussion of the courses under Review.

Comment

Members are invited to comment on any of the issues.
