

## ABSTRACT

The Mathematical Modeling and Analysis in natural sciences conference is being held in the school of Mathematics. The two day conference is in preparation for the CIMPA School to be held in July. 2015. The Director School of Mathematics Prof Patrick Weke welcomed the participants to the school. He challenged the participants to network, and borrow from the best practices among each other. He also thanked Prof. Jacek Banasiak of University of KwaZulu-Natal, Durban, South Africa for accepting to be part of the conference .
