

Continuous professional development

[Dr. C.K Onyambu](#), a senior lecturer in the department of Diagnostic Imaging and Radiation Medicine, is a recipient of the CARTA (Consortium for Advanced Research Training in Africa) PhD fellowship 2015 and is currently registering for the PhD program.

She has just completed the first joint advanced seminar (JAS 1) held at the Safari Park Hotel in Nairobi in March 2015 on undertaking a study on public health problems related to water fluoride levels and its effects on the musculoskeletal system.
