

Dental amalgam separator donation

School of Dental Sciences receives Dental Amalgam Separator from International Association of Dental Manufacturers through East Africa Dental Amalgam Project. The East Africa Amalgam Project team members were drawn from the University of Nairobi Dental School (Dr. B K Kisumbi and Prof. L. W. Gathece), Ministry of Health, Ministry of Environment, members from Uganda, Tanzania, FDI, UNEP, WHO, KDA and ILIMA.

The Dental Amalgam Separator once installed in the School will go along way in dental mercury waste management.
