

The STAKE project is an exciting partnership between the Wangari Maathai Institute, the Green Belt Movement (GBM), Kenya Forest Research Institute (KEFRI) and the University of Copenhagen, Denmark. It is expected to contribute to stability in Kenya by understanding and targeting the underlying factors that lead to conflicts over forest related resources. This 3-year project funded by the Danish Development Agency (DANIDA) will also contribute to Kenya's long-term development by mentoring and training the next generation of talented, young academics through provision of scholarships for Masters and PhD training.
