School of Computing and Informatics Inducts Students joining Master of Science in Distributed Systems and MSC in Information Technology

College of Biological and Physical Sciences Principal, Prof. Aduda (standing) with School of Computing Director, Prof. W. Okello (second-left) and members of staff of the School during the induction of Master of Science students.

At least 80 students will now be the new face of School of Computing and Informatics as they join the prestigious University of Nairobi to undertake their studies in the world class University renowned to emit the best students in Science and Technology.

The 80 students were oriented as they began their two-year journey towards Master of Science in Information Technology and Master of Science Distributed Systems.

Speaking during the third intake orientation for 2014/2015 on Monday May 11,2015, Prof. Bernard Aduda, Principal College of Biological and Physical Sciences, welcomed the Master of Science students.
