

College of Education Extra Mural Center and Sub-centers receive computers and reliable internet connection.

In line with the University of Nairobi's mission "To provide quality university education and training and to embody the aspirations of the Kenyan people and the global community through creation, preservation, integration, transmission and utilization of knowledge" the College of Education and External Studies has acquired computers and internet/SMIS connection for 1 Extra Mural Center and 8 Extra Mural sub-centers spread across the country.

Spurred by the expansion of the University of Nairobi in many major towns in the country, the University has put in resources to improve the ICT infrastructure to meet the ever increasing demand for internet access and quality computers.

Kitale Extra Mural Sub-center received 5 additional Computers and an Internet router.

Bungoma, Isiolo and Embu Extra Mural Sub-centers received 2 additional new computers and an internet/SMIS router each.

Busia, Eldoret, Kitui and Mwingi Extra Mural Sub Centers received an internet router each.

Thika Extra Mural Center also received 1 internet router

The Chief ICT officer, CEES Mr. Renison Kiteta visited each center to deliver the computers and connect them to the internet. During the visit he trained staff on how to use the Internet router for direct internet connection and through Wi-Fi demonstrated how students can use internet to register for courses online and installed required software and configured all the machines. The computers will be used by the staff and students in the centers.

As center for academic and research activities, the College of Education and External Studies plans to equip all the Extra Mural Centers with quality computers and reliable internet connectivity in due course.
