

Two new ASARECA sponsored snap bean projects to be launched

The Department of Plant Science and Crop Protection will hold a joint inception workshop for two ASARECA supported projects dealing with validation of snap bean varieties and snap bean integrated crop management technologies, respectively, on April 22-23, 2013 at the All Africa Conference of Churches, Bishop Desmond Tutu Conference Centre. The two one-year projects headed by University of Nairobi Principal Investigators (Prof. P. M. Kimani and Dr. George N. Chemining'wa) will be implemented by the University of Nairobi and Mount Kenya University (Kenya), Selian Agricultural Research Institute (Tanzania), National Agricultural Research Organization-National Crops Resources Research Institute (Uganda) and Rwanda Agriculture Board.
