

UoN-KNH SPINE SURGERY PROJECT JUNE 2015

The NuVasive Spine Foundation (NSF)-surgeons will hold a spine Surgery project in June 2015 at Kenyatta National Hospital (KNH) in Nairobi, Kenya

The mission trip will focus on surgeon training and deformity correction.

To further develop a sustainable spine program at KNH, the U.S. surgical team will also do a multidisciplinary-course training for local surgeons and nurses. Surgeon training ensures that quality spine care continues to advance in communities around the globe.
