

NOKIA HERE Maps presented a Mapping Forum Talk to Geospatial and Space Technology students

Mr. Wasike from NOKIA HERE Maps during the talk

Mr. Wasike, an alumni, demonstrated how NOKIA's HERE Maps allows the smartest way of travelling across town with fast, offline maps in over 135 countries, so that one can find their way even without a data connection.

He informed the students of the HERE Expert Community Program, that allows Campus Mapping Group of experts to collect, edit, save and sync this data with here.com. [View Photos](#)
