Four undergraduate students from the Department of Geography & Environmental Studies benefited from a one-semester exchange programme to the University of Jyväskylä, Finland. These are Simon Andika, Kellen Mwirigi Karuru, Irene Akinyi Otieno and Philip Njoroge Mwaura. The North-South-South exchange program, coordinated by Dr. Sam Owuor, is a beautiful experience for any student. According to the students “this opportunity has been a major success towards our studies and experiences. It will shape our future academic, social and career life. Some of the things we enjoyed were the forests and lakes, natural beauty and landscape, one of the best education system in the world, sauna, many friends from other parts of the globe, Finnish culture, riding bicycles, environmental consciousness and of course the winter. What a great and worthwhile experience and Kiitos!”
