

UoN Engineering student wins 2nd best start up in the global entrepreneurship summit

Taita Ngetich, a 5th year Mechanical Engineering student was presented with an award for being the second best start up in the world, at the just concluded Global Entrepreneurship Summit.

He came 2nd at the Global Innovation, through Science and Technology Competition and won a cash award of USD15000.

He would like to thank the University of Nairobi staff and students for their support during the voting period which propelled us to the finals.
