\* 8. Mr. Dalton, — To ask the Secretary of State for the Colonies, whether his attention has been drawn to the statistics of Native employment in Kenya recently issued by the chief registrar of Natives in that colony, which show an average of 40 per cent of the able-bodied adult male population to be working outside the reserves, the proportion being as high as 72 per cent of the Lumbwa and 55 per cent of the Kikuyu; and whether, before any further encouragement is given to the Native population to go outside the reserves in such large numbers to work for Europeans, an impartial scientific estimate of the numbers of Natives required for their own productive purposes in the reserves will be made. (Westminster Times) 12/2/27
