Passports for Officers
proceeding to England

Suggest advisability of calling to foot
the necessity of the photograph of the holder
of such passport being attached to the
document before the officer leaves the port.

In Mr. St. Antony's W. Read.

We have told on Prot^s that passengers
for Marseilles from E.A. must bring pass-
ports visid by the French Consul. This
was since Mr. Eastwood left E.A.

But we have not specifically mentioned
the photograph. I see that the Eastern Cts,
Australia and N. Zealand have been inft
as to photographs by telegraph. (18972)

No doubt the French consul at Mombasa
would not visid a passport without a photo
but for safety we should ? telegraph to all
our Prot^s. "Regul of 28 Apr (1899) passports
should be accompanied by photograph
must bear photograph and description of holder"

(When I left, on the 7th inst.
neither the Secretariat or the French
Consul were aware of the necessity,
the British Consul at Marseilles
would not issue passports that did
not have a photograph, it was not
possible for everyone to be photographed
in time to catch the evening train
and some passengers lost the train
in consequence, had to remain at
Marseilles yours faithfully

The Crown Agents for the Colonies
Dear Sirs
I have just returned
from East Africa, and if they are
not already informed would
suggest the advisability of calling
to the Secretariat the necessity of
a photograph of the holder of
such passport being attached to
the document before the holder
