Having had the bad luck to draw no. 104 in the lottery, I
found myself out of the hunt, and unable to get what I hoped
for, namely,

- (A) A horse near to my friend's
(B) A horse in the Kenya district.

I have tried to get the leave of absence but have not yet been
successful. I would like to know how long it will take for the
leave to be granted on all the official forms, and also what
the cost of the leave will be. I am sure that the leave will be
granted for a long period, about 12 months, but I am not sure
one of the conditions of the leave is that the horse must be
brought back to the original district. I am sure that the horse
will be put at the disposal of the original district, but I am not
sure if not the horse will be put at the disposal of the original
district. I am sure that the horse will be put at the disposal
of the original district.
