Mr D. is sending an official report
the 70 on the result of the Conf
the bill, so doubt be sent in 2 wks,
we can then compliment him & the other
delegates & also Lord Chalmers.
I understand that our proposals have
been accepted subject to the following
modifications:-

- (1) Limit of 22 lbs for tusks instead
of our proposed limit of 30 lbs
- (2) The foreign delegates refused
article 9 of Art. Annex in 70.

(throwing the onus of proof on the person & poss^{ly} of the wrong or harms, as being contrary to all the principles of the legal systems.

3) The farmers made their signature of the protocol conditional on an assurance from the other powers that they will take up their Arms proposals later on. I understand that the Fr. convinced the farmers by asking why they had not yet forward a volume for a review only & not for a review

I have told about the ²⁰⁰ and a claim for release in the approved form. Mr. Butler referred to a last para. in the same order of the Indian show. It is order to instruct in his way at 2 of Africa.

Mr. Seal.

The conference is

practically finished

I am afraid will

be signed until

middle of the coming

week as the Germans have

to send to Berlin for

instruction to sign the original

documents without their scheme

for arms & ammunition in ivory & rhinoceros
 being included. The only except such as are
 French delegates have returned under a license
 to Paris but will return it remains to be
 to sign the Protocol ~~and whether~~ the several
 it is ready. ~~and whether~~ will accept this & also

I think I may say the minister the laws but
 conference has been ~~was~~ at any rate a beginning
 successful & I am both very great advance
 surprised & pleased at ~~it~~ ~~conclusion~~

result, which is bringing a good deal out of
 a minimum weight ~~out~~ over the general
 22 lbs for the whole of ~~the~~ ~~of~~ the conference, as
 & the prohibition of ~~all~~ ~~are~~ now been three ~~of~~ ~~of~~ ~~of~~
~~arrangements~~ from Wales to

London over the arrangements
of the conference since I am
I was obliged to put up in an
during the conference as I was
not at that time stay with
& it was also more convenient
meeting the delegates.

I did not intend to attempt
recover any expenses under
conference, actually I am
so I am perfectly interested
in its object to speak a word
amount on them. I must
the circumstances do not
think it would be possible
legitimate for me to rec
some of the main items
so should I write finally
the Under Sec: of State.

I am trying to arrange the
the 7.0 to visit Mr. Butler at
Sudbury & I am afraid the 11.0
some is the first I have called
any way.
yours sincerely
A. D. Mack
