We know of this native newspaper already.

The gist of this well written letter is absolutely sound — it brings in the natives to supply all the needs of the Govt & the self dependencies in the way not only of manual labour, but of

I entirely agree H.J.R.

This letter should of course have come through the Govt. — but I agree that a friendly acknt. through the Govt. is desirable in this case.

? Subject to concurrence of Sir R Coryndon, to whom the letter might be shown when he calls, act as proposed by Mr Jeel — but suggest that Govt. should take the opportunity of explaining to the writer the recognised method for persons in a Col. to address the S of S — i.e. through the Gov.

Sir,

On Sunday the 25th inst., our Governor is leaving for London to discuss the question of granting equal rights to Indians and I, a native of Uganda, as editor of the "Sekanyolya," would ask you to consider the welfare of African Natives in any decision come to.

The general opinion in England is that Africa is a land of savages, but the natives of East Africa have made great

progress during the stay of the white man, as a proof I enclose you a copy of the "Sekanyolya" which is entirely edited, composed, printed and bound by natives. and as an example of what natives can do I would point out that in the different local firms and presses there are working native clerks, native compositors, linotype operators, machine men, book binders etc, and I am sure that if facilities were given to us, we (natives) would soon supply all the labour required in the country.

I have the honour to be,

Sir,

The general opinion in England is that Africa is a land of savages, but the natives of East Africa have made great progress during the

stay of the White man, as a proof I enclose you a copy of the "Sekanyolya" which is entirely edited, composed, printed and bound by natives; and as an example of what natives can do I would point out that in the different local firms and Presses there are working native Clerks, native Compositors, Linotype operators, machine men, book binders etc., and I am sure that if facilities were given to us, we (natives) would soon supply all the labour required in the Country.
