Dawning Street,

September, 1924.

Madam,

I have received your letter of the 1st August, enclosing a Memorandum on the education of native girls in Kenya Colony. I have read this Memorandum with the greatest interest, and I am very much obliged to you, and to all those who have contributed to it, for giving me your views and experience of this work.

As Dr. Garfield Williams will probably have explained to you, it is intended to use the information for a Memorandum on Education of African Girls, which will be submitted to the Advisory Committee on Native Education in Tropical Africa, and to Dr. Jesse Jones.

I have received a number of letters on female education from Roman Catholic Missions in Uganda and other Dependencies, and I do not think it necessary to ask the Roman Catholic Missions
