Official Paper

946

Sir H. Beadon Sir J. Diddle

I received 946 in view of  
the fact I am inclined to think  
that provided my own interests  
can be safeguarded as indicated  
on that paper  
in my judgement it will be best  
to rest the whole matter.

I do not think that in four  
any too much time before  
April 1<sup>st</sup> to prepare to get through  
the necessary arrangements, and  
I should much rather have it  
settled in my mind about April 1<sup>st</sup>  
the first place.

But as the time available  
will be reduced if we take as I  
proposed on 946 I have felt that

Col. Quincy

I have discussed this & given into the  
Society, & have asked him to put up the 500 lbs.  
for the purchase - He may expect the help of the  
the table to the Reg. Club. I am not very  
sanguine but I will be a success, and I  
think that the board is in favor of operation, &  
possibly in the near future, I believe it  
will be done. I don't think that it is the  
practical to work through the necessary  
formality of "Capital". The main thing is to  
defrayed beyond in the interest, and if that  
is done we need hardly object to doing things &  
think that 3/8% is more reasonable thing.

2/1/20

I am sure that the work has been done  
the way & I think to my interest to make  
Wright & Howard - from the things to be done  
my only object is to get Congress passed  
on the legislative condition - I shall  
11/2 - be in order to April 1/20, & get  
the necessary things to be done - I shall  
try to get the things to be done in  
January or in later & in my own way

I scanned the book, the said that  
the legislation could do anything, it  
could be very convenient to give  
introduction effect, and that it could  
218  
be very complicated to have considered  
all the points which would have  
arisen in the interest. After  
speaking to the same I have passed  
the draft after getting it 80 or  
to carry out all things. record  
course.
