TELEGRAM from the Governor of Kenya to the Secretary of State for the Colonies.

Dated 20th November.

(Received Colonial Office 11.0 p.m. 27th November, 1921).

501. 26th November your telegram 14th November

Much regret that Government cannot guarantee repayment for nobther reason than that proposal is considered unsound in principle and undesirable precedent would be established. Consider that Bill of Sale on movable assets offers reasonable security for loan amounting to £10,000 and that security is again offered. There was reason to expect that loan of at least £10,000 would be advanced and some delay and failure to advance ~~operations~~ ^{operations} greatly embarrassed. ~~operations~~ ^{operations} and liquidation threatened almost immediately with results disastrous to individuals in this Colony. Regarding concluding enquiry paper No. 12 see my despatch 30th May No. 240. Would repeat that great difficulty experienced in raising loan on account of shortage money with banks and in private hands. Enquiry being made for raising loan privately. Am of opinion that members ~~Beadoc~~ ^{Beadoc} are now working well cost of management has been reduced greatly and stage now reached when revenue from various sources regularly accrues but financial assistance urgently required for discharge of debt and for developing bringing more land into cultivation which is essential success. Desire urge strongly balance of £0,000 should be remitted immediately. Have had opportunity of discussing matter with Sir Arthur Lawley who is a member Executive Association of Officers and from whom am sending telegram through you to General Lawrence.
