## FOR CIRCULATION:-

Mr. Bottomley  
Mr.  
Mr.  
Asst. U.S. of S.

## SUBJECT

538

Draft Railway  
Estimates.Lands memo. by  
General Manager,  
with observations

## Previous Paper

See  
49557

## MINUTES

The Draft Estimates were discussed  
in the Bottomley's room on 22.10.23.  
Mr. Bottomley, yourself, myself were  
present.

Generally, the chief features  
which we remarked in the Estimates  
were (a). The all round economies  
which have been effected, enabling  
an increased mileage to be worked  
at considerably less cost.

(b). The greatly increased  
contributions which it is anticipated  
will be forthcoming for the  
Renewals & the Betterments  
funds. (These two funds are  
now to be divided v.p 65% of the lib.)

S/1461

(c) The frequent substitution  
of African clerks etc for  
Asiatics - cf. p. 31, C. 1-6) 17-20.

So far as I know there has been  
no protest from India as to this.

(d) It is now clear from the  
despatch & the Ent. what  
add'l. & ad'l. retrenchment  
of European Officers is  
contemplated.

From however p. 5 of a memo  
by Mr Felling on 4/6/27/23 it is  
clear that the above happens  
after Mr Hartnell (to whom  
Dept.) gave Mr Ford (Comptn.  
Manager) a "the locomotive  
car is always a Dept." &  
therefore p. 5 says in the same  
line as 2nd line in his despatch  
"in no p. case taken  
now only as a result that of  
on their scale  
workshops manager". Mr Hartnell  
will shortly be returning from  
India & Mr Felling is then  
to decide which must go. As  
Mr Ford will probably be  
in this country he will  
probably go. But ~~we~~  
we ought to wait for

There may be,

Abstract B. 1(a). (2) The first of

Actual Traffic Manager is  
to be abolished. In limitation of  
this was given in the last genera-  
lent. on 35/857/23. The next to

of traffic constraint was  
included in the scheme on 55703/23  
but since approval for the  
scheme has not been given.

Abstract. E. IV-(a) (1). The  
establishment of Comptn. dev.  
on the Railways is reduced from  
5 to 4. but owing to the retirement  
for medical reasons of Mr Comptn.  
Garnett, no retirement &  
recruiting (See No 76 of file 854/23)

The S.P.C.'s opinion on the  
question of reductions of staff  
was set forth in para 8 (g) of  
the Conf'. despatch 19 June on  
24399/23. (Print beneath).  
Ques? It will however be

as well to remind the Governor  
that definite approval is  
required before a European  
Officer can be got rid of - & refer  
to para 8(3) of draft of 19th June  
as to procedure.

para 3 of Governor's Despatch.

(1) Salary of Chief Storekeeper.

(Art. G 1 (a) 1) ? There is nothing

to McFellie's proposal, in para  
is of the memo on 35/63/25, to the  
increase of salary (from £800 to £900).

But we might point out that  
in that memo, it was recommended

that the maximum should  
be increased to £900, & that

the reference in the despatch was

under consideration to do so

"incremental scale"; but

Say it is agreed that on further

consideration it is decided to  
leave the volume of the Ch. Storekeeper  
at £900 fixed

(2) Salary of the Secretary to  
the G.M. & the M.L. (Financial Secretary)

No objection was preferred  
to this, but we should remark  
that in 35/63/25 it was proposed  
that the salary should be  
£400 - £600, but that it is

£600

x i.e. of £395 + £120.

+? suggests that  
it might be preferable to  
provide £600 - £600  
+ £120 under  
D I (1) what  
will have this  
year £600 + £120.  
all.

\* In now Dr. Min  
govt. have been £500  
(sic) all

now shown as £500 - £25 - £600  
in the draft Estimate. D II. 6(6).

Paras (5) - (6). Of the gov't's despatch  
No comment on these paras

appeared necessary at this  
stage.

510

Art. G Relates to the C. Secy  
not the Despatch

~~Revised Despatch again~~

Appendix II. of the Draft Est.

(Page 65) is rather puzzling. It  
will be necessary to ask how the

Then

A further point on which

it appears to be necessary to

make enquiry was in connection

with the Estimate of Interest

and Banking Fund Charges, 1934,

appended to the memo. by  
Melling enclosed with the  
despatch.

The provision for interest

on the Railway's portion of the  
£5,000,000 loan<sup>\*</sup> only takes  
into account the share actually  
received by the Railway, &  
no provision is made for a  
~~fraction~~ interest ~~expenditure~~

on the portion of the loan earmarked  
for "cost of issue". We should  
point out that such provision  
is necessary. There is an  
Mr Bottomley pointed out, a  
way in which would meet  
this in the difference between

the £189,980 actually  
referred to in his Schedule,  
and the "say £200,000" which  
is carried to the Net Revenue  
Account.)

<sup>K</sup>  
+ also of the  
now £3,000,000  
from ? and

CONFIDENTIAL.

50079

GOVERNMENT HOUSE,

NAIROBI,

KENYA.

RE  
13 OCTOBER

15th September, 1923.

543

My Lord Duke,

*40559  
25790  
11-9-23.*  
With reference to my Confidential despatch No. 508 of the 14th instant and telegram No. 269 of same date, I have the honour to transmit for Your Grace's consideration an explanatory memorandum by the General Manager on the subject of the draft Railway Estimates for 1924.

2. In the enclosed memorandum Mr. Felling has explained the change in form of the Estimates which has been adopted in order to meet the conditions consequent on reorganization and to allocate more appropriately the items of direct and indirect expenditure.

3. With regard to alterations in the rates of salary appearing in the Estimates, the following have already received Your Grace's approval:-

Abstract A I (a) (1) Chief Engineer vide Colonial Office telegram of 22nd May, 1923.

Abstract B I (a) (1) Purchasing Agent vide Your Grace's despatch No. 511 of 6 August, 1923.

The incremental scale suggested by the Agent or Colonial Storekeeper (Abstract J Item I (a) (1)), and the proposal of consolidating the salary to be paid to the Secretary, Inter Colonial Railway Council (Abstract D Item II (a) (1)) have been referred to Your Grace in paragraph 1<sup>o</sup> of the memorandum enclosed in Kenya despatch No. 967 of the 19th June.

A further despatch is being addressed to Your Grace

in  
THE DUE OF DEVONSHIRE, K.U., P.C., Q.C.H.Q., Q.C.W.O.,  
SECRETARY OF STATE FOR THE COLONIES,  
DOWNING STREET, LONDON, S.W.1.

in reference to the following proposed changes in rates of salary:-

- Abstract A, Item I (a)(2) Senior District Engineer  
 " D, " II (a)(3) Superintendent Administration  
 " D, " III(a)(2) Deputy Chief Accountant  
 " D, " III(c)(6) Travelling Inspectors of Accts  
 " G, " II (a)(1) Press Superintendent.

4. Mr. Felling's proposals for the appointment of a Railway Legal Adviser (Abstract F(4)) are still under consideration.

*See J.  
OKD/J*  
 5. It is to be observed that in the Net Revenue Account no provision has been made for Interest on Unallocated Stores and in this connection I would refer to correspondence terminating with my despatch No.359 of the 5th of March last. This question is being dealt with in connection with the outstanding financial adjustments between the Railway and the Colony and a despatch on the subject is now under preparation.

*143*  
 6. Details of expenditure from the Renewals and Betterment Funds are fully explained in Mr. Felling's memorandum. In regard to the Marine funds reference is invited to Kenya despatch No.897 of the 31st of June last and previous correspondence.

I have the honour to be,

My Lord Duke,

Your Grace's most devoted  
and most obedient servant,

*S.B. Graham*  
GOVERNOR.

11th September 3

E 659A

545

The Honourable the Colonial Secretary,  
Colony and Protectorate of Kenya,  
Nairobi.

Draft Estimates, 1924.

In conversation with Sir Charles Bowring I understood it to be the intention to transmit the draft estimates of the Uganda Railway for the year 1924 to the Secretary of State without delay.

2. To facilitate submission to the Secretary of State of an indication of the probable results for the current year I have prepared a revised estimate and a reconciliation statement, both of which I attach. I also give below full explanations in connection with the ~~estimates~~ for 1924 which may be of assistance.

As far as can be foreseen at the moment there will be a substantial shortfall in the revenue for 1923 compared with the estimate. This is due partly to the loss of the Magadi soda traffic, partly to the curtailment of expenditure in the Colony due to the difficult financial position, partly to reluctance to place orders overseas during the period of political uncertainty through which we have passed, but latterly mainly to dock trouble in England resulting in a serious failing off in import traffic.

4. It is impossible to say at the present stage to what extent there will be either recovery or further shortfall between this date and the end of the year, but the <sup>only</sup> estimate that can be given at this stage is a shortage in earnings of £53,775, and it is unfortunate that this shortage <sup>due to</sup> in import traffic should coincide with an extremely heavy export traffic. At the moment

11th September 3

545

The Honourable the Colonial Secretary,  
Colony and Protectorate of Kenya,  
Nairobi.

Draft Estimates, 1924.

In conversation with Sir Charles Bowring I understood it to be the intention to transmit the draft estimates of the Uganda Railway for the year 1924 to the Secretary of State without delay.

2. To facilitate submission to the Secretary of State of an indication of the probable results for the current year I have prepared a revised estimate and a reconciliation statement, both of which I attach. I also give below full explanations in connection with the estimates for 1924 which may be of assistance.

3. As far as can be foreseen at the moment there will be a substantial shortfall in the revenue for 1923 compared with the estimate. This is due partly to the loss of the Magadi soda traffic, partly to the curtailment of expenditure in the Owing to the difficult financial position, partly to reluctance to place orders overseas during the period of political uncertainty through which we have passed, but latterly mainly to dock trouble in England resulting in a serious falling off in import traffic.

4. It is impossible to say at the present stage to what extent there will be either recovery or further shortfall between this date and the end of the year, but the estimate that can be given at this stage is a shortage in earnings of £53,775, and it is unfortunate that this shortage <sup>due to</sup> in import traffic should coincide with an extremely heavy export traffic. At the moment

we are very hard-pressed in connection  
of export traffic to the Coast, and this increased work  
coincides with reduced earnings owing to the export traffic  
being carried at low rates.

526

5. On the expenditure side it will be observed that it  
is anticipated there will be a reduction in the estimated  
gross working expenditure of £223,743, but this is not a  
fair indication of the results which have been obtained in  
the matter of reductions in expenditure. To obtain a fair  
comparison it has been necessary to revise the estimates for  
1923, as presented to the Legislative Council at the end of  
1922, in the manner shown in the reconciliation statement  
attached.

6. It will be observed in that statement that allowance  
has been made for the difference in Asiatic rates of pay  
connection with the one-sixth cut, which did not make  
the difference due to arrear leave payments in accord  
with the decision of the Colonial Office; the credit for the  
on European local allowances; credits for stores previously  
charged out to working expenditure but during this year  
collected along the line and from the Workshops and  
to stock; credit for the non-payment of the interest  
Unallocated Stores; and debit for the loss on the  
of the value of coal and for the loss on the working  
Magadi branch line.

7. After allowing for these debits against the  
to the working expenditure figures it will be  
the statement attached that the actual expenditure  
the estimated expenditure for the rest of the year  
a decrease at the rate of £269,743, on the basis  
adopted in the estimates for the year 1923  
to the Legislative Council at the end of 1922.

IMITES FOR  
1934.

Revenue.

8. For the year 1934 the revenue is estimated to amount to £1,386,038. Provision has been made for the working of the Uasin Gishu Railway and earnings from that line, and, with the additional traffic expected from that railway, and other development in the two Colonies, the increase shown is regarded as a conservative estimate.

Working  
Expenditure

9. In calculating the probable working expenditure for the year 1934 it has been necessary to restore the provision for the existing rates of pay of Asiatics, and this, of course, results in a substantial increase in the estimated expenditure. In addition, it has been necessary to provide for an increase in open mileage of 19 per cent, representing the average open mileage of the Uasin Gishu Railway, which it is anticipated will be worked during 1934. Notwithstanding this 19 per cent additional mileage the working expenditure estimated for 1934 shows a decrease of £76,310.

Depreciation

10. Depreciation amounting to £14,571, or approximately 3 per cent of existing assets (including labour), has been provided for under the main account and Capital and Betterment Fund. In this figure is included £14,000 on account of carmen insurance and depreciation formerly provided under Abstract "F".

Net Revenue  
Account.

11. Net earnings are estimated to amount to £250,056. Under the Net Revenue Account interest and sinking fund charges have increased from £90,044 to £200,000. A statement showing how this figure is arrived at is attached. The estimated balance of Net Revenue Account is £50,056, which is carried to the Betterment Fund. The proposal is to transfer to the Betterment Fund any further balance of net revenue which may

- 4 -

accrue, and Abstract "I" is so worded.

12. The form of the estimates for next year has been altered to meet the conditions consequent upon reorganization in so far as the Transportation Department now covers what were formerly the Traffic Department and the running branch of the Locomotive, Carriage and Wagon Department. For comparative purposes the relative figures of the 1923 estimates under Abstracts B & C and D have been divided as far as possible and shown against sub-heads of the new B & C abstracts.

13. The local Superintendents, Kampala and Jinja, and their staffs have also been transferred from General Charges to Transportation. In this connection there will probably be changes in organization, but it is impossible to forecast, at this stage, the new organization in Uganda.

14. Abstract G (Stores, Printing and Stationery) has been taken to indirect expenditure, provision having been made under stores and material votes and special sub-heads for printing and stationery under each abstract of the estimates to cover such expenditure in so far as it is chargeable to revenue working. Certain other items, e.g., Crown Agents' commission, Consulting Engineers' expenses, loss on stores, previously taken as direct debits to working expenditure have been transferred to indirect debit and will be charged to the various works and services to which they relate.

15. Recommendations in respect of new posts proposed and increases in scales of existing posts have already been sent forward, and explanations appear in the estimates themselves of minor increases and decreases and alterations from the previous form.

- 5 -  
RENEWALS &  
SETTLEMENT FUNDS

Railway 15. The estimated position of these funds as at the 31st December, 1933, is shown in Appendix II.

Under the Railway Section the amount estimated to be standing to the credit of the existing joint Renewals and Betterment Fund has been provisionally allocated in equal amounts to separate Renewals and Betterment Funds. With the additions of the estimated contributions during 1934 the amounts available for expenditure are Renewals £280,174 and Betterment £178,641.

Expenditure

17. Details of the proposed expenditure are set forth in Abstract "J". The main item is £383,414 for relaying the main line for the first section to Voi, which has been approved by the Secretary of State in his telegram dated the 14th July, 1933. It was at one time doubtful whether the whole of this money for relaying could be found from Renewals and Betterment Funds, and it was suggested that borrowing from loan funds might be necessary. The improved financial position has now, however, removed any such necessity, and it is anticipated that the programme of relaying can be carried forward continuously and met from these funds. Provision has been made for relaying the first section next year, but it must not be assumed that the whole of this work can or should be carried out within the year. The policy to be pursued will be to relay as steadily as material can be obtained and the maintenance staff can do the work economically and efficiently in advance of the construction of new branches. The expenditure under this estimate must, therefore, be taken as partly subject to progress on the Kitale and the Thika-Nyeri extensions.

18. Other works under this abstract are in the nature of renewals of old and dilapidated buildings, and extensions to give additional facilities at stations and yards.

19. Appliances for dealing with an outbreak of fire at the larger stations are either entirely non-existent or inadequate, and £3,500 has been allowed for improvements in this respect.

549

20. A sum of £5,000 has been allowed for further renewals of the permanent way on the Kisumu section. This section of the line was originally laid with inferior and short lengths of rails during the final period of construction and has given continual trouble for a number of years. The policy of relaying with new rails was commenced last year, and the sum provided is to allow for the continuance of this work.

21. It will be observed that the proposed expenditure chargeable to Betterment exceeds the funds available under this head. It is, however, doubtful, as explained above, whether the whole amount estimated will be spent ~~during~~ the year. It is also proposed to transfer the whole of the net balance, which may or may not be more than estimated, to the Betterment Fund. If the Betterment Fund should run short temporarily assistance would be available from the Renewals Fund.

RENEWALS,  
BETTERMENT &  
INSURANCE  
FUNDS.  
Marine  
section.

22. The sums estimated as standing to the credit of the Marine Insurance and Depreciation Funds (Lakes Victoria and Kioga) have been provisionally allocated between Renewals, Betterment and Insurance, as shown in Appendix II. Following on the Secretary of State's confidential despatch dated the 18th July, 1923, in which he agreed to the principle of retaining in the case of the Lake Victoria Marine Insurance and Depreciation Fund a sum of £80,000 as an Insurance Fund, a further £45,000 (of which £25,000 is proposed to be expended) has been added from the Lake

20  
24273

23

Kioga fund. There will, therefore, remain after the purchase of the proposed new steamer, £100,000 in the joint Insurance Fund which - accumulating at interest - will, it is anticipated, be sufficient to meet any expenditure likely to be met on account of total loss of vessels by wreck or other accident. Of the balance left for general renewals and betterment services proposals for the expenditure of £38,170 are put forward in Abstract "K".

23. It will be observed that an amount of £8,000 has been provided to cover alterations, additions and renewals to the s.s. "Clement Hill". There are serious complaints in connection with the accommodation on this vessel, and careful investigation has been made as to what it is possible to do in the way of improving the position. At this stage an accurate estimate of the cost of the alterations necessary, together with the cost of the general reconditioning of the vessel which is now about due, cannot be given, but it is anticipated that the £8,000 allowed will be sufficient to meet requirements.

A proposal to run this vessel twice a week is still under consideration.

24. For cargo services from Uganda ports the use of tugs and lighters has best found to be most satisfactory and economical, and to meet the increasing traffic and develop new ports four new lighters are required. For these a sum of £10,000 has been allowed.

25. For alterations and additions to piers a sum of £25,000 has been allowed. Several of the piers require very heavy renewals, while those at Bukakata, Kampala and Jinja require extending and strengthening to carry rails and cranes. Further facilities for the handling and storage of cargoes at these piers will considerably increase the

efficiency and capacity of the Lake flotilla.

551

See  
35143

26. On Lake Kienyeji a new steamer is required to replace the s.w. "Grant", which sank in 1917. This has been fully dealt with in His Excellency's despatch No. 897, dated the 8th June, 1923, and for this a sum of £25,000 has been allowed chargeable to the Insurance Fund.

27. The steamers on Lake Kienyeji are shallow draught vessels and have no hold space for cargo which is conveyed in lighters pushed by the steamers, and with an extra steamer extra lighters are necessary to give her the necessary cargo capacity. For this a sum of £8,000 has been allowed. A further sum of £4,170 has been provided to allow for improvements in the decking and hatches of existing lighters and also for the extensive reconditioning of one lighter which was lost in the sudd in 1918 and recently salvaged.

C.L.N. Felling,

General Manager,  
Uganda Railway.

2/10/23

2/10/23 (Recd. 25 Oct.)  
circulated herewith

I have etc. to acknowledge the  
receipt of your Conf'd. despatch  
No 510, of the 15<sup>th</sup> of September,  
on the subject of the draft  
Luganda Railway Estimates  
for 1924, and to invite  
reference to my telegram  
of the 25th October, intimating  
my general approval of the  
Anticipated Estimates.

2. The position as  
disclosed in the Draft Est.  
and in the memorandum by  
the General Manager enclosed  
with your despatch is a

matter for congratulation,  
and I desire to express my  
satisfaction at the reduction

in working expenses which  
the young Manager has now  
~~had to effect~~ <sup>62</sup> to help by the  
increased mileage & worked.

and also at the increased  
profit in which he <sup>21</sup> has seen  
from his mile to mile per

Renewals in a particular line.

### 3. Creditors

however, continue to

increase & the alarm must

be kept up to the last moment.

Therefore, I would like to

to point out, in my mind

the X of October, that

my approval of the draft

lets you a day off not

over any particular

retrenchment  
involving the termination  
~~of the appointments of~~ 557

European staff, which have  
not been specifically reported  
to me in accordance with  
the instructions contained  
in para 8(g) of my Conf<sup>r</sup>.

24/29/  
23.

despatch of the 19<sup>th</sup> June.

4. With regard to the  
Statement showing the approximate  
position of Renewals,  
Betterments, and Insurance  
Funds, (Appendix II to the  
Op. Estimates), the figure  
(or Estimates) in each case  
of £128,585 for the estimated  
Balances of the Rail way  
Renewals and Betterment  
Funds is not altogether  
clear to me, and I shall  
be glad to learn how  
the figure of £128,585, in

Cover any measures for  
reinforcement of European  
staff which may be intended  
unless these have been  
specifically arranged. 96  
Please return documents of  
reference attached in ~~order~~  
~~to you~~ to me at the earliest  
opportunity & I will  
immediately forward them  
should be forwarded  
as soon as possible.

~~for the 15th October~~  
depends on final decision to publicly do  
so in all manner  
I will do my best to do so.

4. 6/27/23 (Rec'd 25 Dept)  
circulated herewith

I have etc. to acknowledge the  
receipt of your Conf<sup>d</sup>. despatch  
No 510, of the 15<sup>th</sup> of September,  
on the subject of the draft  
~~European~~ Railway Estimates  
for 1924, and to invite  
reference to my telegram  
of the 25th of October, intimating  
my general approval of the  
Draft Estimates.

2. The position as  
disclosed in the Draft 9/23  
and in the memorandum by  
the General Manager enclosed  
with your despatch is a

matter for congratulation,  
and I desire to express my

satisfaction at the reduction

in working expenses which  
the young Manager has had no  
hand in effecting in spite of the

62

increased number of men.

and I hope the increased

number of men will be

more than compensated for by

the reduced cost of the men.

and I hope you will be

able to get along with

the men you have now.

and I hope you will be

able to get along with

the men you have now.

and I hope you will be

able to get along with

the men you have now.

and I hope you will be

able to get along with

the men you have now.

557

involving the termination  
of the appointments of European staff, which have  
not been specifically reported  
to me in accordance with  
the instructions contained  
in para 8(g) of my Conf'.

24329/  
27.

4. With regard to the Statement showing the approximate position of Renewals, Settlements, and Insurance Funds, (Appendix II to the ~~or Estimates~~), the figure of £128,585 [for the estimated <sup>in each case</sup> Renewals and Settlement Funds] is not altogether clear to me, and I shall beg you to let me know how the figure of £128,585, in

each case, for the estimated

Balances of the Railway

Renewals and Betterment

Funds on the 31<sup>st</sup> of Dec<sup>r</sup>, 1923,

arrived at, as no data

appears ~~re~~available for

ascertainment of these appears

to be much ~~more~~ data which

are ~~not~~ available to me,

and I shall be glad to learn

how their figure is arrived at.

5. It is the ~~memorandum~~

of all of interest and

such kind and charges,

1924, appended to the

memo by Mr Telling enclosed

with your despatch. I

note that provision is made

for the payment of interest

on the Railway's share of

the £5,000,000 and

£3,000,000 Loans. No

(however) provision appears to have

been taken for the payment

of interest on a portion of that

part of either loan which bears

the cost of issue of either

loan. I shall be glad to

learn what ~~steps~~ ~~is~~

~~has~~ ~~been~~ ~~taken~~ to

arrangements are in

contemplation for making

such provision.

6. I would invite

your attention to the following

points ~~of~~ ~~in~~ ~~the~~ ~~dates~~

affecting members of the

European staff of the Railway.

(a) From the memorandum

by the General Manager enclosed

by Charles Bonwick

with Sir C. Ross to Northcote's

No. 466

Copy to  
Ldents of the 23<sup>rd</sup> of August,

46527/13

which is still under consideration.

I note that Mr Telling

considers ~~that~~ it horrible

that only one Mechanical

Engineer will be required  
at an early date in future.

You will no doubt furnish me  
with the earliest possible  
information as to the general

Manager's proposals regarding

M Hartnell and M Ford

(b) I ~~do~~ have no  
objection to the provision made

under Abstract 17(1)(a) II(c)(6)

for the retainer of the Secretary

to the Railways Council, viz

£395 per annum plus a retainer

of £100 per annum for the

period of one year.

however, in at para 19)

if the memo<sup>r</sup> enclosed with

Mr Charles Bowring's

Authorised Order No 967

of the 19<sup>th</sup> June, I was

informed that the scale

of salary for their post should

be £400 a year <sup>more</sup> £600,

35763/23

I did not  
put in the  
minutes  
what J Nelly  
meant -  
and

Whereas the scale now shown  
in the draft Estimates is  
✓ £500 - £25 - £600. It would  
appear to be ~~unreasonable~~  
~~unreasonable~~ to provide in  
agreement - to provide in

The Estimate for a scale  
of £200 ~~is~~ ~~not~~ ~~providing~~ in add<sup>n</sup>, to  
£400 ~~is~~ ~~not~~ ~~providing~~ which  
which an allow<sup>n</sup> of £120 p.a.  
would be found from the

rate from the Railways  
Council and Staff: ~~and~~

that  
~~the~~ ~~allow~~ the holder of the  
post ~~will~~ receive during 1924,  
£400 ~~per~~ year, plus the

allowance of £120 ~~per~~ year

Secretary to the Railways Council

(c) With regard to

The salary of the Chief Storekeeper,

✓ (Abstract G. 1(c).II), I note

✓ that in para 13(e) of

the memo<sup>r</sup> enclosed with

Mr Charles Bowring's  
Authorised Order No 967,

✓ 35763/23  
of the 19<sup>th</sup> June, M Bellis
