Mr J. E. Lokenan

applied for employment

minutes

Mr Lokenan

Mr Lokenan called to see me this morning, to
ask for reemployment

He has been two years in Australia, trying horse breeding,
has not made a success of it & has just come back.

I got hold of his previous papers & read his letter of our
previous interview (24/1/09), & of what I told him at it.

He was inclined to dispute what I said & told me
he had understood that he was put off because there

was no immediate vacancy, but that he had a chance
on the occurrence of suitable vacancies he was to be
re-employed.

I repeated that I thought there was no hope of
reemployment, & when he asked me if there
was anything against him I declined to answer.
