African. No 773
Conditions of Service

Papers to be brought
up for next review

Mr. Butler.

See your minute of 21 oct. on file 2657 K.A.R.

I have slip printed to insert in African 775 & as 8 (a)

"No such deduction of pay during leave is made in the case of officers of the K.A.R. ~~Military officers~~ & ~~those~~ officers who hold appointments carrying duty pay."

As regards African 726, I feel some doubt if military officers can take 6 months leave after six months service. I suppose that they would not lose half pay for the last two months at the same time. If you give them full pay, there is no difft. between 6 months leave after six months & after 30 months.

alone, or in the case of a
Military officer taking leave
as above, the point cd be dealt
with when it arose. As
nearly all leave from Ny. is
on full pay, we had arisen
leave the duty all _____ also
alone _____ as present leave
rule in Ny. the [?] a [?] of
African 775 wd be nearly
inapplicable.

The slip, which I saw after it was printed, does not
contain the exception which occurs in the case of officers

of the Indian Contingents, who are on consolidated
rates of pay and who are mentioned at the end
of the memo enclosed in 55 41/07. (The foot
of the E.A.P. did not refer to this exception
presumably because there is no Indian Contingent
in this Protectorate).

There will be comparatively

I have spoken to Mr. Bottomley
about this Salaries of the K.A.R.
who are by the memo in C.O.

exempted from the deduction from
leave pay, are just as much on a
consolidated rate of pay as the officers
of the Indian contingent who are,
by the memo, still kept subject
to the deduction. This illogical distinction
was made I understand from
Mr. Bottomley because the officers of the
Indian contingent were thought to
be very highly paid already and
was not desirable to give them a
virtual increase of pay by relieving
them from the deduction from leave
pay. I had really nothing to do

with "consolidated pay."

The officers concerned will have no grievance if we maintain the distinction. But the parading of it in the general conditions of service will call special attention to it & we shall be rather hard put to it to explain it, unless we frankly take our stand on the —

on the whole (though I am very undecided) I think we had better

let pay slip amend as it is [illegible] [illegible] K.A.R. officers in a body we should be encouraging the civil officers the press for their exemption from the reduction. No such deduction of pay during leave is made in the case of officers of the King's African Rifles other than officers of the Indian contingents; or in the case of officers who hold appointments carrying duty pay.
