FORESTERS

States that it has been the custom to give annual increments usually amounting to £10 to Foresters whose services have been satisfactory. The necessary provision has been made in the Estimates each year. Requests formal sanction to scale of £100 by £10 to £200.

Mr. Boulton.

It is a matter of course that these matters are not formally settled.
The estimate for the year 1912-13 in connection of salary, which includes a lump sum ~~for~~ for Foresters.
Foresters are not to be regarded as an agreement association, but should in future see that the incremental scale of salary is definitely stated.

I am not sure that it is really necessary to do this, but I am sure about this as no definite intention of the salary appears to have been made.

With reference to paragraph 3 of your despatch No. 616 of the 24th October 1911 on the subject of the grant of increments to Foresters, I have the honour to inform you that whereas no mention of increments has been made in their letters of appointment yet it has been the custom to give annual increments usually amounting to £10 to Foresters whose services have been satisfactory and the necessary provision for such increases has been made in the estimates of the Forestry Department each year.
