My Lord,

In continuation of my telegram No. 129 of this day's date, I have the honour to submit a rough draft of the Programme I would suggest for the visit of the Right Honourable Mr. Winston Churchill.

2. The time at Mr. Winston Churchill's disposal will not allow of any extended tour away from the line of rail except in the direction of Fort Hall, and this is only possible owing to that Station being now accessible by carriage. The Kenya Forest is 48 miles beyond Fort Hall, mules would have to be employed for the journey and it is doubtful whether it could be accomplished without the sacrifice of time which would be better employed elsewhere. A general idea of the Protectorate Forests can be obtained while travelling

My Lord,

In continuation of my telegram No. 129 of this day's date, I have the honour to submit a rough draft of the Programme I would suggest for the visit of the Right Honourable Mr. Winston Churchill.

2. The time at Mr. Winston Churchill's disposal will not allow of any extended tour away from the line of rail except in the direction of Port Hall, and this is only possible owing to that Station being now accessible by carriage. The Kenya Forest is 45 miles beyond Fort Hall, mules would have to be employed for the journey and it is doubtful whether it could be accomplished without the sacrifice of time which would be better employed elsewhere. from Nairobi to the Lake and a halt can be made at any interesting place. The draft itinerary is however only a rough one and can be altered in any way to suit Mr. Winston Churchill's convenience.

The visit to Malindi will only occupy one day and two nights. I attach importance to it as Malindi is becoming a centre of white planters and I am anxious that Mr. Winston Churchill should see something of the fertile coast area, to which much attention is now being paid.

May I be favoured with telegraphic instructions as to Mr. Winston Churchill's wishes with regard to the Programme.

I have the honour to be,

With the highest respect,

My Lord,

Your Lordship's most obedient,

Humble servant,

Frederick
