The letter of 2/3 of referred to herein authorized the printing of 50 copies with respect to of the plan is with an article.

I don't think we want to distribute them broadcast, I should say 5 copies to Mr. Williams

certain to increase in importance 75
The water supply is very bad, & he
recommends that £18000 should be expen-
ded ^{the year} on its improvement by deepening
the water carrying flume now
lying idle at Nureki, & also by
creating it there.

We have not really any money to
spare but if this could be done out
of savings it would appear to be a
very desirable object.

I think we might say so much in
sending the report to the Prot.
and also recommend to the Gov's notice
what is said on p 18 as to the
appointment of a Select Committee
for looking out Nairasha & Nairure
as places for the improvement of
concerning something matters before
creating sites for building
in that of other towns.

It would be well to send a copy of our
