Police Inspectorships

Transmits Statement of qualifications of
Inspectors app'td locally. Ask that three vacancies
now existing be filled from home at early date. Seaton-
Winton dismissed. Inspec. should be subject to leave rules
(copy enclosed).

(Minutes.)

Mr. Read.

Heureux & names in this list, but
Seaton Winton has been dismissed &
Madden & Reilly have been app'td
from here. Thus, as the establishment
stands at 12, the O.M. is in a right
position putting the vacancies at home three.

He is also very right, I think, in
asking that they may be filled from home,
and we should make a point of getting

men who have either home or of
substantial experience {Hebecht, Brown (30675)}
has no experience

We may have difficulty with the
R.I.C. in getting men on the subordinate
grade conditions after having app'td
Madden & Reilly on the more favourable
terms, but I believe the P.S. has found
it difficult to find suitable candidates.

Mr. Fenton the American Minister also
called on me the other day complained
of the good deal of the inefficiency of the
Indian military, such as was
the case at Moolson

But one must remember that the
force has a good many different duties
besides the duty of keeping in view
the policy of the inhabitants of Moolson
& the Karabent while commencing
round Moolson, it has to support
the H. A. R. in franchising before
for the majority of the inhabitants
where that act no troops. They may
even, as result in the necessary utility

partial expedition, need. According
to it may well be that many
of the jobs may most usefully be
filled by men with experience of
fighting in P. B. irregular forces:
the one a two officers of more
Indian experience, one however
at Moolson & Karabent

R. I. C. men would no doubt be
useful if we were sure of
getting their good specimens,
but we are not sure of this I am
afraid.

I am inclined to answer by despatch
referring to our despatch of 28 Sept.
in which we said we desired
a report from the new Inspector
General on the conditions of office
& relieving the various
functions which the force has to
perform which has the Inspector
to say what stamp of men he
thinks to be required for the
several duties, which whether Messrs
Madden & Smith of the R. I. C.
men are satisfied with, & if not

EAST AFRICA PROTECTORATE.

No. 524.

September 30th 1905.

Sir,

I have had the honour to receive your despatch No. 307 of July 19th regarding the appointment of Inspectors in the Police Department of this Protectorate, and I have noted your instructions with regard to future local appointments. I regret, however, to state that before the receipt of this despatch Sir D. Stewart had, as already reported, appointed Messrs. R. Anderson and C. S. Long-Innes.

2. I have the honour to transmit herewith a statement of the qualifications of the Inspectors appointed locally. With one exception, that of Mr. Tulloch, all the Inspectors have had either police or military training. Mr. Tulloch's principal qualification is a good knowledge of Swahili and Hindustani which is not possessed by most of the others.

3. I have no hesitation in saying that it would be preferable to have Inspectors of Police drafted from the Royal Irish Constabulary, but as great difficulty has hitherto existed in inducing good men to join on one hundred and fifty pounds or one hundred and eighty pounds a year, we have considered it advisable to fill the vacancies locally rather than wait.

4. As I have found it necessary to dismiss Mr. Seaton-Winton for drunkenness and other offences, there now remain three vacancies, and I should be grateful if they could be filled from home at an early date.

5. With reference to the last paragraph of your despatch No. 523 of July 28th, I have the honour to report that Inspectors of Police should be subject to the leave rules and regulations of the Subordinate Staff (copy of which is enclosed herewith for your information.) No agreement as to length of service is necessary, as paragraph 3 of the Indian Police Act, lays down that no Police officer may without special leave resign or retire from office.

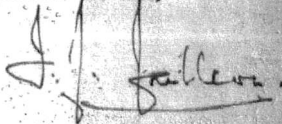

office unless he gives two months notice in writing of
his intention of doing so.

I have the honour to be

Sir,

Your most obedient,

humble servant,
