Mr. Read.

Mr. Hammer came to office after considerable service in Hongkong, his appl. dating from 1 Aug. 1907. The M.A. asks for a month's extension please also generally tone of the report is at variance with that of the other medical officers. At any rate Sir P. Mansel appears to take no notice of the local officers' warnings as to the "safety" soundness of physically "mentally" sound, the question of re-employment arises in the light of the fact of the former's services, from which it appears that O.A.G. relying not only on the medical report but also on the conf. report of the Pres. Judge (9 June) is disinclined to re-employ J. A. Hammer as D.V. Registrar of the
