Report on Forests

Substantiated proof with maps & photographs

Mr. Mitchell

Mr. Mitchell says that he is satisfied with his Report, now so that we may hope that it is all right. But my wife then seems to be very anxious for it. I have spoken to Mr. Roosevelt & we agree that it is out of the question to ask the Attorney General to put the report into law, as desired by Mr. H. There is no reason, as near as I can see, why the report should be a law, & Mr. H. had better prepare himself with regard to the photographs. We shall have to get special authority for their reproduction & enlargement & perhaps we had better get an estimate in the first place. Mr. H. appears to attach importance to their being published.

Mitchell says to me 1/19/05

Mr. Martonley

If Mr. D. S. Hutchins is still accessible will you ascertain from him whether the Appendix II, referred to on page 99 of [Cd. 4723] herewith was ever printed? Enquiries have been made by the Stationery Office, and I have no record of any such Appendix being printed - certainly not as a Parliamentary Paper.

E. D. R.

28 May, 1914.

Dear Sir

Have you anything to show whether Mr. D. S. Hutchins, late Chief Commissioner of Prisons in East, is in this country?

Sir,

I have forwarded your letter
regards my husband's report on
the forest of N. G. Africa
(ref 4923) thru in Australia
by this week's mail.

Yours truly
Richard B. Ketchum

H. J. Head Esq

GOVERNMENT HOUSE
CYPRUS10th March/09

My dear Head,

I am sending, in the High
 Commission bag, my corrected proof
 of the report on the forests of
 British East Africa. I grieve
 that it has been so long in reaching
 you, but I should not have got
 off now, if they had not very
 kindly allowed me a few days when
 I am satisfied with
 the work which I was not before. The
 map

now added is a particular
-prominent. It now contains all
we know about these valuable
forests or are likely to know for
some years to come, and will
feel confident be of constant
for reference. I suggest it being
put into book form about half
foolscap size, and indeed for
reference. I should like to see
final proof as mentioned in my
official letter forwarding it.
I am charmed with Cyprus
tree and people — the tree

of old Cypriote friends, and the people
friends whom I hope never to
lose sight of. Forestry has
since made left this
is an exceptionally good forest
here. Howell.

I shall hope to see you ~~about the~~
~~at~~ early in April

Sincerely yours

534

Hutchins

P.S. I heard before leaving Beirut
that the Goldman people
are most anxious to go on with
their grants and are seeking
instructions in what they have to
spend. If so may I ask that

REC'D
REC' 20 MAR 09

Nicosia (Cyprus)

28.th February, 1909.(Despatched 10th March)

The Under Secretary of State for the Colonies.

Sir,

I have the honour to submit the revised proof of my report on the Forests of British East Africa. The corrections and additions to this report, following my further exploration of the Kenia Forest, have now been made, in accordance with instructions.

This has necessitated considerable alteration and if it be thought desirable that I should see the final proof I shall be happy to do so on my arrival in England in April next.

The collection of Forest Photographs now submitted are much improved by the addition of those taken by Mr. Ross. The collection now possesses a unique value, and I trust that as many as possible of the photographs will be enlarged and reproduced in view of the importance of advertising the forest wealth of British East Africa and thus attracting the capital required for working the forests. This, as I have pointed out, is the policy being followed with regard to the best of the Australian forests, a policy which has already given the best results in attracting capital to the Jarrah forests of West Australia.

My special Kenia report (Colonial Report Misc No. 41 of June 1907) now requires revision. D.K.

This can be done on the receipt of Mr. Re. s. (ina-
Kenia plan. His preliminary plan did not
reach me until the eve of my departure from Mem-
bassa. I propose submitting the revised Kenia
report together with Appendix 2 "Indigenous tim-
bers" at a later date.

I have the Honour to be

Sir,

Your most Obedient Servant,

Chitambar

Chief Conservator of Forests
British East Africa.

MINUTE.

- Mr. Harper 2/6/14
- Mr. Bottomley 2/6/14
- Mr. G. Piddex 2
- Sir H. Just.
- Sir J. Anderson.
- Lord Emmott.
- Mr. Harcourt.

Sir,

with reference to your Report on the Forests of Br. East Africa [Cd. 4723] published in 1909 I am re to ask you to be good enough to state whether Appendix II, indigenous trees, reference to which is made on pages 99 and 138 of the report, has ever been seen printed.

for answer

2. / 204

No subsequent Report
has been published
by the Secretary of the Institution
in which such an
Appendix could have
been contained.

He observes

from your letter of the 28th of February
is possible that the
1909 Report of the Fisheries Commission
reference may have had
been made to

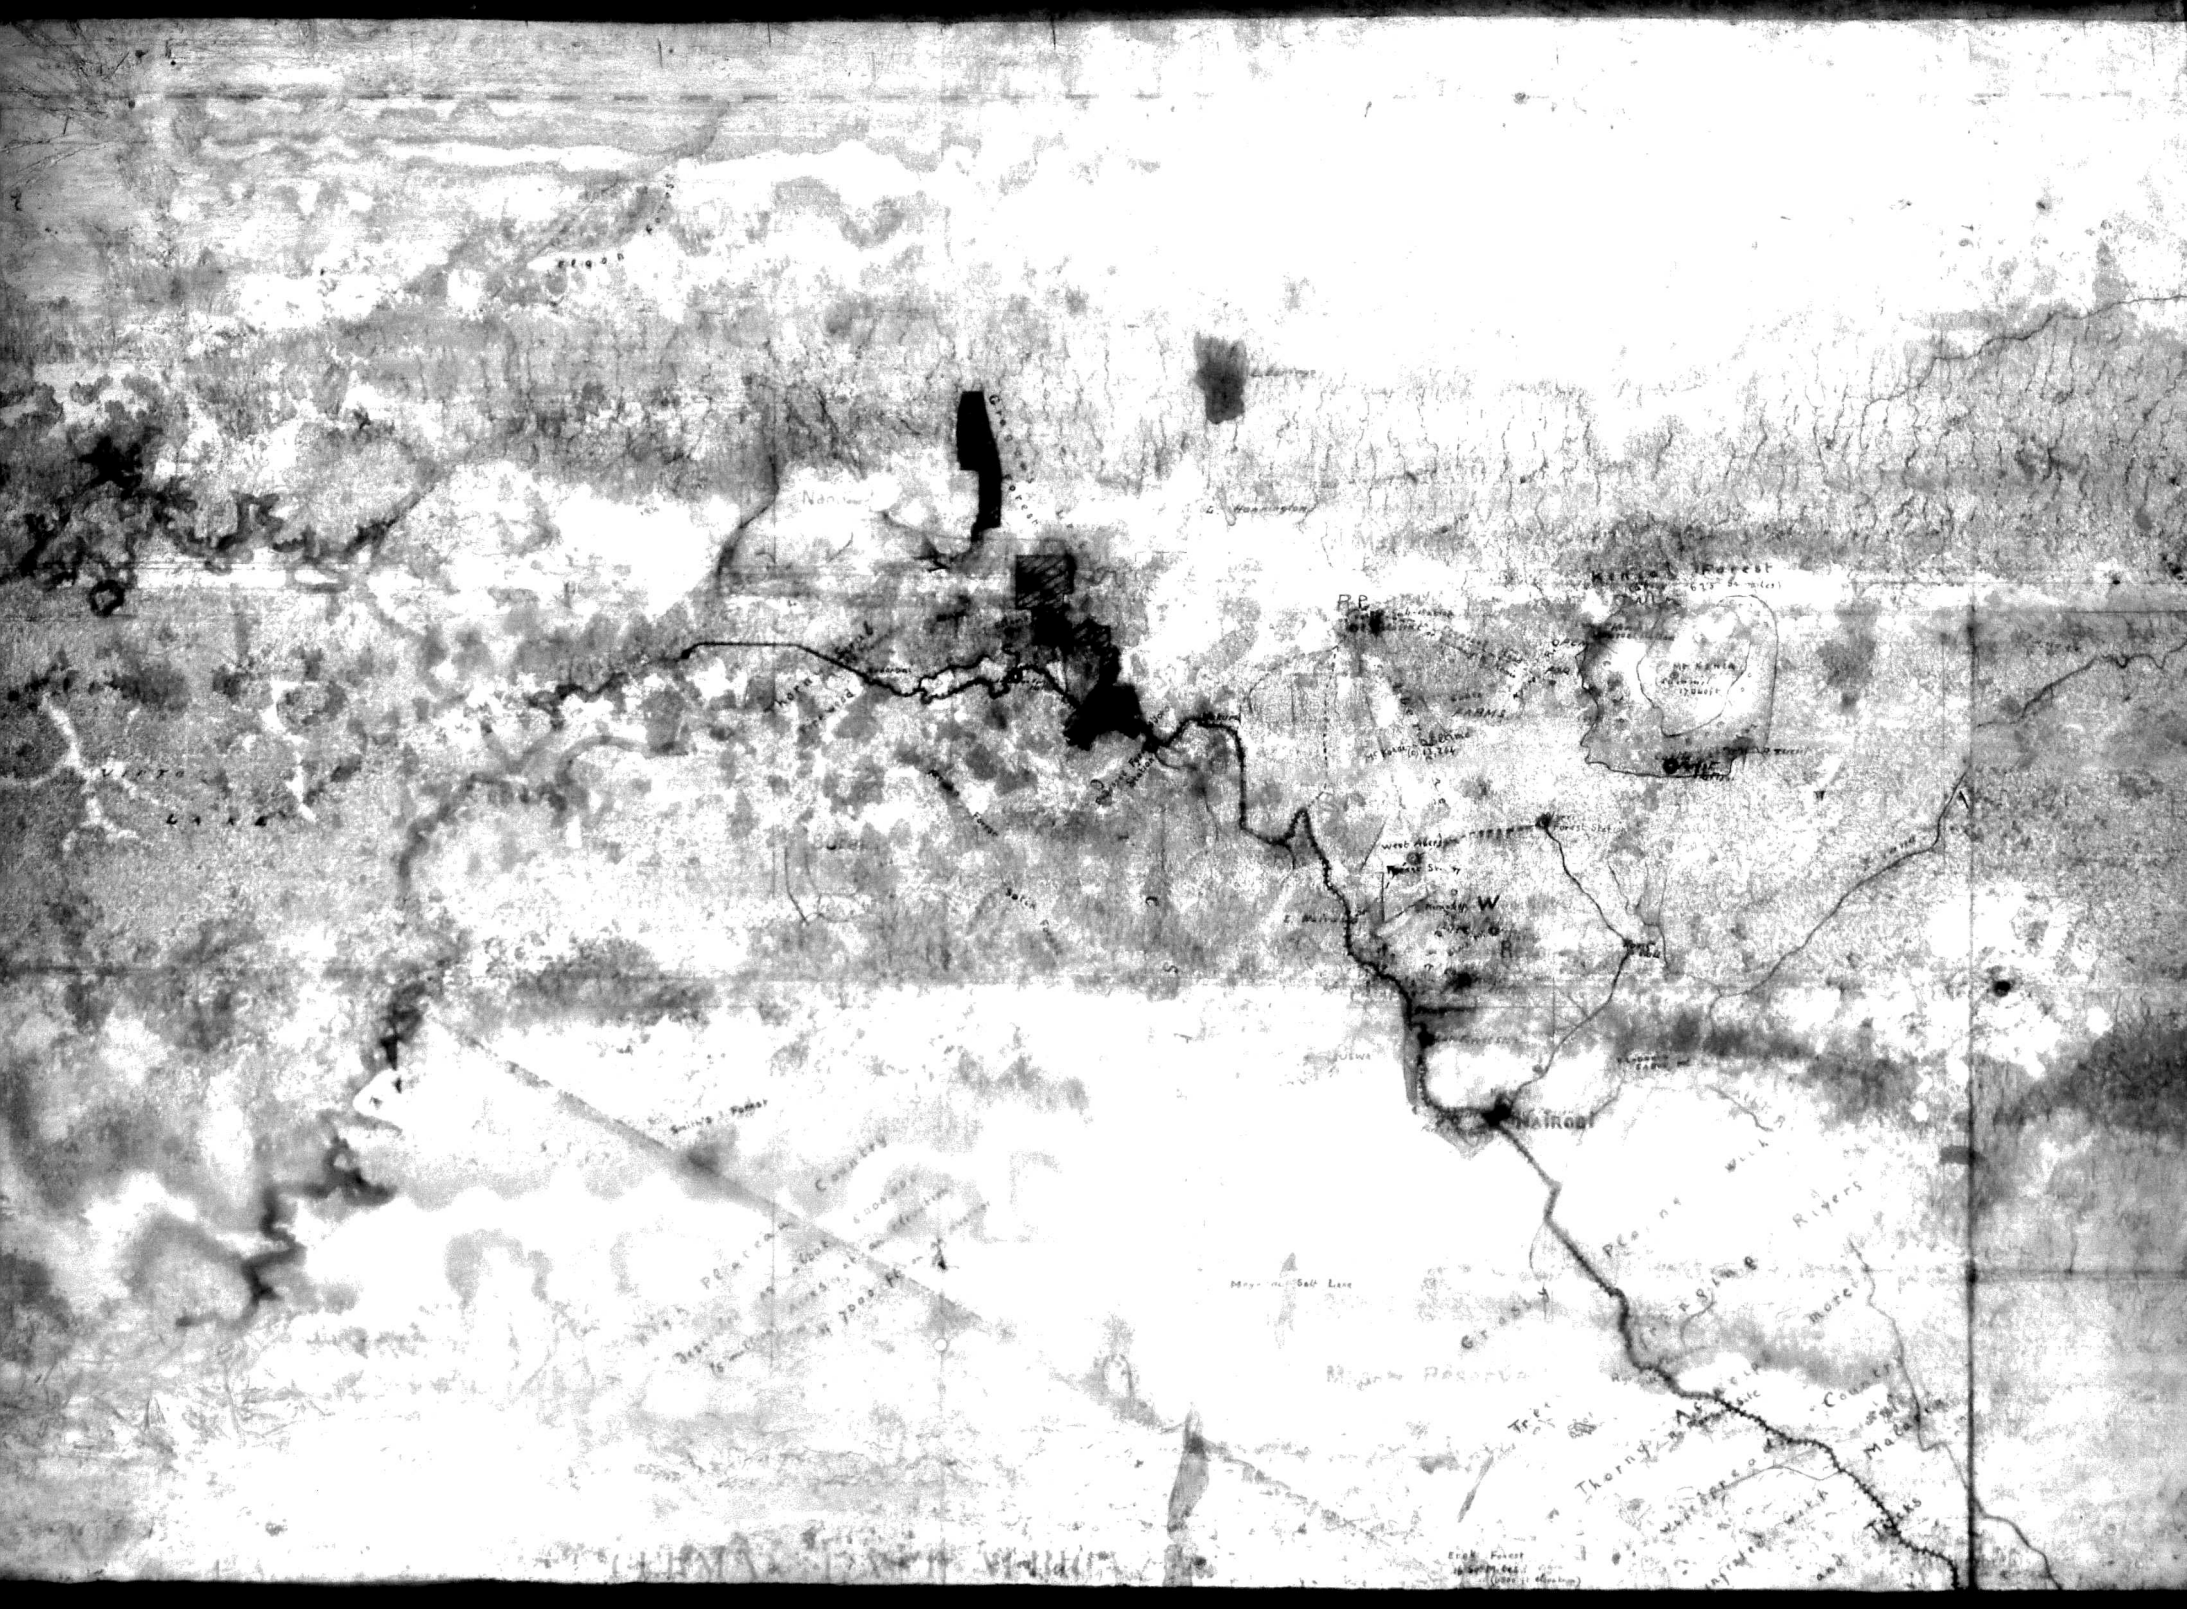

submit the appended etc. later date,
the "Annual Report of the
- No. 41, [ca. 3561]" which

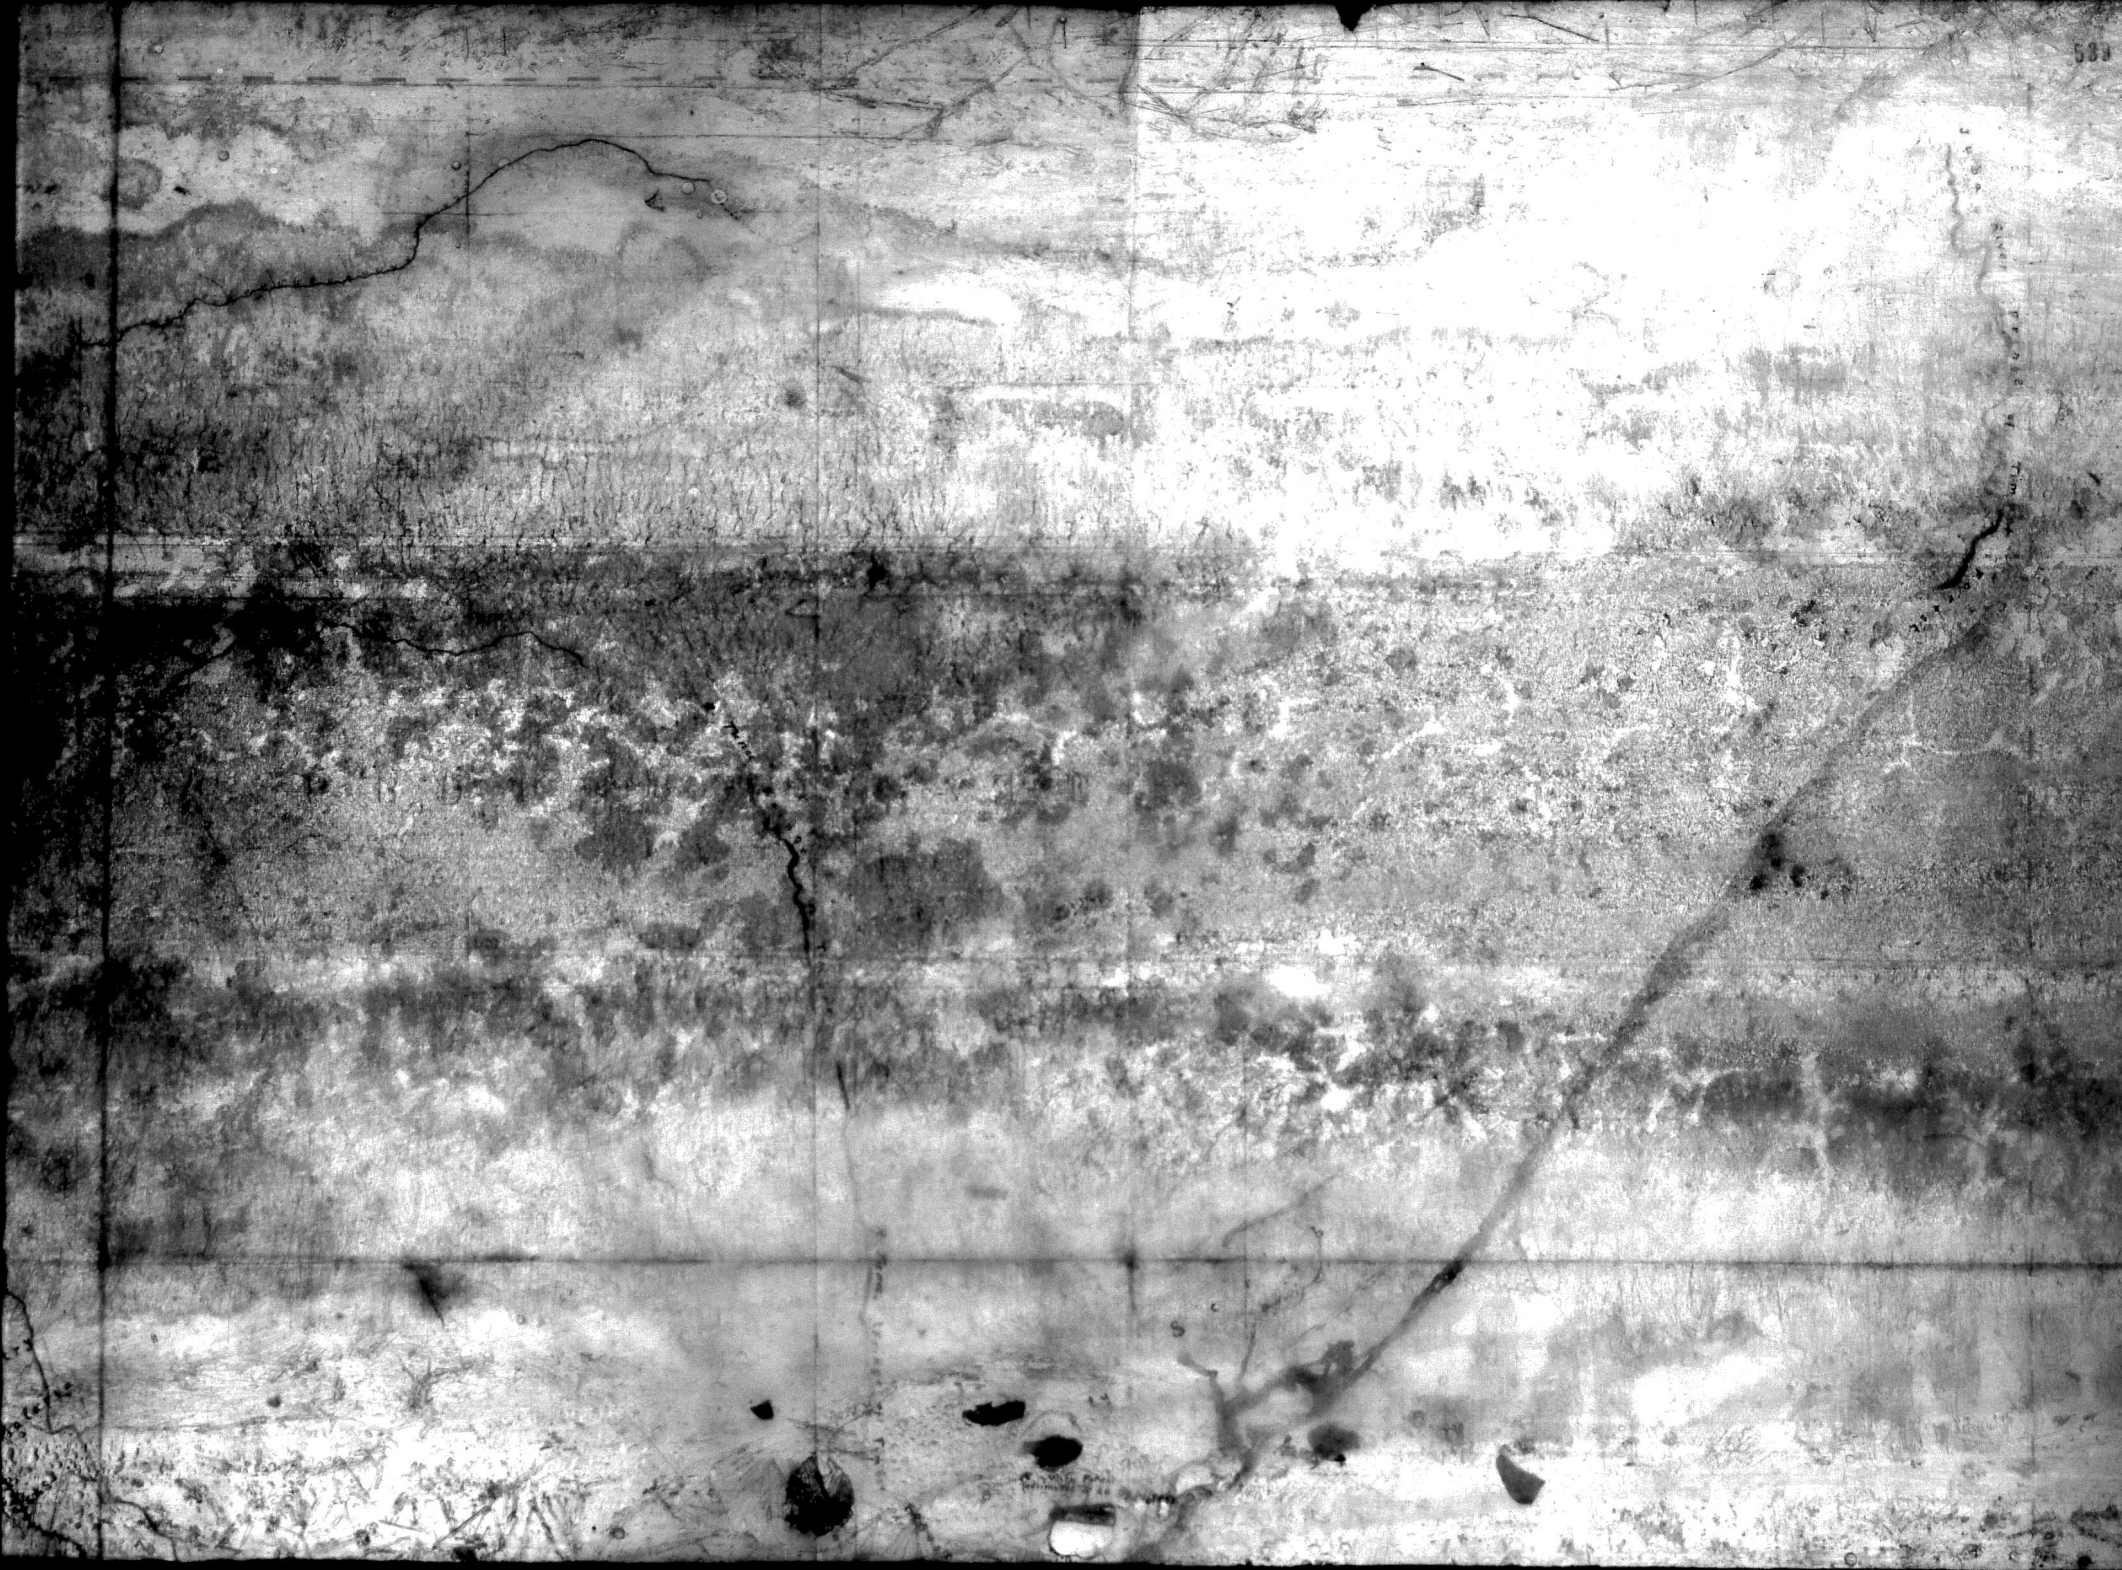

was, however, published two
years before the 1909 report.

Dr. Stewart would be glad
to be informed and is
your recollection in the matter.
