LEGION OF FRONTIERSMEN

The Local organization has applied for an issue of Govt rifles and ammunition either free or if that is not possible at cost price but desires to be independent of Govt control except in time of disturbance. Asks for instructions as to what degree of official recognition may be extended to the Legion.

The answer must clearly be that no special recognition should be given and that the application should be refused.

No. 158

My Lord,

I have the honour to report that the local Organisation of the Legion of Frontiersmen has made application for an issue of Government rifles and ammunition either free or, if that is not possible, at cost price, and whilst making this application desires to be independent of Government control except in times of disturbance when the services of the members might be of value to the Government.

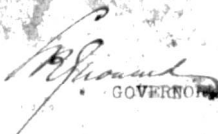

2. No official record has as yet been recorded in this regard in any Colony, and though the arrangement I have outlined above might in certain circumstances prove advantageous to the Government, it is to my mind not altogether desirable as it would tend to attract recruits to the Legion rather than to the Volunteer Reserve which is under Government control.

3. Similar applications have doubtless been made elsewhere and I should be glad to have Your Lordship's instructions as to what degree of official
