Dr. Dundas, age 20, high education
and ability, some other to be
for good and long, and he has a good
reputation of farming and he also enjoys
reference of several large estates, lately
he has gone through an extensive course of
every instruction. He has a good general
impression of his health and the rubber

His impression on the date of his
reference is very agreeable, he believed very that
the Director's certificate of land survey
and the survey of water, this very suitable.
