I have much pleasure in bearing my testimony to the assiduity and care with which Dr. W. R. V. JAMES performed the duties of Assistant and House Surgeon to the Polar Cold Fields Medical Establishment and Hospital for the period of twelve months, during which time he was employed as "locum tenens".

As many as thirteen cold waves were felt in this District, which has a population of about 30,000 inhabitants, and it is needless to point out that cases of all sorts, surgical and medical, receive attention in the course of a year with the greatest satisfaction that I quote that Dr. James availed himself to the full of the opportunities which the practice afforded, and it has not been my lot to meet with a more willing, painstaking and hard-working colleague.

Doctor W. JAMES was my Assistant during the year
1905. Socially he was gentlemanly and courteous,
professionally he was all that could be wished, kind
to his patients and true to the interests of his employer.
My practice was well varied, and in all the details
Medical, Surgical, and ~~...~~, he gave me every
satisfaction.
