Survey

Mongolia and Tana River Concession

Transmits maps of river on behalf of  
Mongolia, Lt showing results of his Survey. Any obj<sup>n</sup>  
to giving a copy of the maps to Royal Geogr. Society

(Minutes)

Mr. Read  
Reply that there is no objection

But we might ask  
Major Clarke to look at these  
maps to see what he thinks  
of their value.

This will  
be done at  
the next  
meeting of  
the Survey  
Com. & then  
take the  
maps a) &

The Under Secretary of State  
Colonial Office  
S.W.

Sir,  
On behalf of Messrs. L.D. I  
have the honor to forward you  
two maps of the Red Sea  
drawing the results of my survey as  
plotted (1/2 to a mile) & so corrected  
for magnetic variation (1/5 to a mile)  
I may say that the plotted  
survey agrees with my astro-  
nomical observations very closely

everywhere it is probably correct to  
within 1/2 mile throughout the  
whole length of the traverse.

It is my desire to give a  
copy of this map to the Royal  
Geographical Society & I shall  
be glad to know if you have any  
objection to such a step.

Yours faithfully  
D. W. Barber
