Mr. Read

Mr. Baand has been mainly employed in the west district endeavoring to develop cotton growing etc., and as we hear very little about this part of the country is compared with the temperate regions round Nairobi. I asked Mr. Baand to submit a memorandum.

I am very much inclined to agree with Mr. Baand that the E.A.P. is likely to be at least for many years to come

a planter rather than a settler
country. It would indeed be diffi-
cult to suggest any reason why
women will not all prefer to
go to the U.S. rather than to
N. Zealand or Canada.

If the U.S.P. is to be a planter
country, the question of an adequate
native labour supply becomes of
paramount importance, as Mr
Brand points out.

He desires the efft of a Comm. Of. on the
for native affairs & the adoption of
of a regular native policy will
exist to "through the native or
work".

The main items of the policy
which he recommends are:

1. Native to be allotted definite &
bounded areas for their cultivation
& something on other lands to
be instituted.
2. Separate natives to be comfortably
left to work in their own
Taxes on passes for natives
to be abolished.
