A LEGISLATIVE SESSION

The legislative session of the Kenya Colony has opened today with the opening of the Legislative Council. The session is being held at the Government Offices in Nairobi. The Council is composed of the Governor, the Chief Justice, and 12 members. The session will last for three months. The first business of the Council will be to elect a Speaker. The Council will then proceed to discuss the Budget and other matters of importance. The session is expected to be a busy one.

The British Legation

The British Legation in Nairobi has received news from London that the Government has decided to send a mission to the East African States. The mission will consist of a number of officials and will be led by the British Consul-General. The mission's task will be to study the conditions in the East African States and to report back to the Government. The mission is expected to depart for the East African States in the near future.

ROYAL TYPEWRITERS

"COMPARE THE WORK"

"Compare the Work" is more than a slogan. It is a fair
 invitation and an appeal to the intelligence of the typewriter
 buyer and user. It is also an expression of confidence by the
 Royal Typewriter Company in their product.
 The Royal typewriter was designed and built to answer
 the last word in that office efficiency which aggressive business
 organizations must have.
 The most responsive elastic key action ever devised en-
 ables the typist to do better work with much less effort.
 The beautiful press-work has a distinction which makes our
 letter stand out among many. Royal clear-cut type
 impressions render the result getting power of business cor-
 respondence. Foreign quality is added in every letter signed.
 The twenty special Royal features illustrated and
 described in the booklet give graphically an insight of the master
 mechanical achievements which have given the Royal type-
 writer its world-wide reputation.

THE CAR SEWER.

How to Master Driving Technique.

COULD YOU BE A DRIVER?

It would, at first sight, seem hardly reasonable to ask for a license on driving and yet how many motorists are there who do not know how to drive the best possible way? It is a waste of a license paper to be a victim of bad habits and a liability for every accident.

Consequently, it is highly desirable that every driver should be a student of the art of driving. The modern way to do so is to take a course in the art of driving. The whole motorist's life is affected by the way in which he drives. It might be said to depend upon the way in which he drives on a straight open road and on a road with curves and hills. It is to be a good driver that you must be a good driver on a straight open road. Anything else is to be a good driver on a road with curves and hills. It is to be a good driver that you must be a good driver on a road with curves and hills.

It is to be a good driver that you must be a good driver on a road with curves and hills. It is to be a good driver that you must be a good driver on a road with curves and hills. It is to be a good driver that you must be a good driver on a road with curves and hills.

It is to be a good driver that you must be a good driver on a road with curves and hills. It is to be a good driver that you must be a good driver on a road with curves and hills. It is to be a good driver that you must be a good driver on a road with curves and hills.

JROR T. RACE

Revels of life of His Country.

Mr. W. H. Gardner, Secretary, of the Junior Tourist Club, who has been a member of the club since its formation in 1911, is the author of the book "The Life of His Country". It is a book which is highly interesting and which is highly recommended to all who are interested in the life of their country.

It is to be a good driver that you must be a good driver on a road with curves and hills. It is to be a good driver that you must be a good driver on a road with curves and hills. It is to be a good driver that you must be a good driver on a road with curves and hills.

A LONDON LETTER.

Talk of a Heat Wave.

MOTOR ACCIDENTS.

London, July 9. The weather is quite here indeed for a fortnight and the temperature in London and nearby is Nervatone. One was judging from the way people were talking and people who came from a distance rather at the confirmation of the word that some people seem to make. The fact that it is so hot is interesting some of them and I quote three of them and I quote three of them...

OFFSHORE WEATHER.

Of course, in this hot weather, the business of the theatre has been to blame, and one of the reasons is the performance of "The Merry Wives of Windsor" in the theatre. The performance of the "Merry Wives" in the theatre has been a success. The performance of the "Merry Wives" in the theatre has been a success. The performance of the "Merry Wives" in the theatre has been a success.

A BAD ACCIDENT.

Hicksville was here five or six miles really but the accident was not there. The accident was not there. The accident was not there. The accident was not there. The accident was not there.

THE DRIVER'S STORY.

All the passengers were pinned down to the floor and held fast. Two others survived only half an hour. The driver's story is that he was driving at 40 miles an hour when the accident occurred. He was driving at 40 miles an hour when the accident occurred. He was driving at 40 miles an hour when the accident occurred.
