**If medals were given for value**

SUPPOSE for a moment that the idea of giving medals were approved from the field of sport to the field of commerce—that the granting of a record value were to earn the same regard as a record for the mile? Suppose, in fact, that some one were to institute an Order of Value in commerce—another O.B.E. (an Order of Business Enterprise as it were) then indeed would Whiteaways be comfortingly be medalled—and would proud show her medals—rows and rows of them all won in fair competition.

**"The Whiteaway's Way"**

The word 'value' sums up the whole policy of Whiteaways; and the making of records in value is their constant aim—in all parts of the world maintain an unceasing watch for new sources of supply which may permit still lower prices.

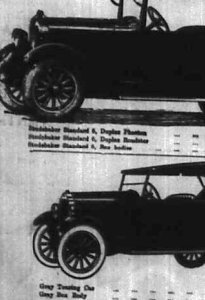

Make no mistake, this reputation for value is no layman's thing—it was not easily won and it is not lightly maintained—one lapse and it would be destroyed!

**A WAJAK-LAMU RACE.** At the recent session of the Legislative Council the Member for the Coast said whether, in view of the great importance of the Northern Frontier and the Coast provinces might be made for the maintenance of a road between Wajak and Lamu. The reply made on behalf of the Government was that no specific provision was being made to meet year's estimates for such a road, that inquiries were being made of the officers in charge of the work around the coast, and that the Government would be kept advised of the progress of the work. It was stated that the Government was not at present prepared to make any further provision for the road, but that it was possible that some provision might be made in the future.
