MOTURING TOPICS

BRAKE SHRIEK

In Causes and Suggested Cures.

FACTORS INVOLVED

A brake may be affected in two ways, the first of which is the most common. It is found that the brake shoes are worn on account of the fact that the brake drum is not round. The cause of this is the fact that the brake shoes are not adjusted properly. The second cause is the fact that the brake shoes are not adjusted properly.

THE COERS

There are two other ways in which a brake may be affected. The first is the fact that the brake shoes are not adjusted properly. The second is the fact that the brake shoes are not adjusted properly.

HOW THE SHRIEK ORIGINATES

This leading cause is the fact that the brake shoes are not adjusted properly. The second cause is the fact that the brake shoes are not adjusted properly.

BRAKE DEFECTS

Not the least cause is the fact that the brake shoes are not adjusted properly. The second cause is the fact that the brake shoes are not adjusted properly.

THE FROST SETTING IN THE BRAKE

The frost setting in the brake is a common cause of brake failure. It is caused by the fact that the brake shoes are not adjusted properly.

Acclaimed Everywhere As A Really Remarkable Car

The Oldsmobile-Six will romp along the road at 60 miles an hour. It will glide along in traffic in high gear at a snail's pace.

It will leap ahead with an acceleration which is nothing short of marvelous. It can be brought smoothly, silently and instantly to rest at a slight pressure of the brake pedal. The brakes are automatically compensated and require practically no attention.

The Oldsmobile-Six will run smoothly and comfortably over rough, rocky roads, its long springs absorbing all road shocks. On hills and steep grades this car has no equal. From every point of view and in any single point of performance the Oldsmobile stands unrivaled in its price class. It is truly an extraordinary car.

Acclaimed Everywhere As A Really Remarkable Car

The Oldsmobile-Six will romp along the road at 60 miles an hour. It will glide along in traffic in high gear at a snail's pace.

It will leap ahead with an acceleration which is nothing short of marvelous. It can be brought smoothly, silently and instantly to rest at a slight pressure of the break pedal. The brakes are automatically compensated and require practically no attention.

The Oldsmobile-Six will run smoothly and comfortably over rough, rocky roads, its long springs absorbing all road shocks. On hills and steep grades this car has no equal. From every point of view and in any single point of performance the Oldsmobile stands unrivalled in its price class.

It truly is an extraordinary car.

Acclaimed Everywhere As A Really Remarkable Car

The Oldsmobile-Six will romp along the road at 60 miles an hour. It will glide along in traffic in high gear at a snail's pace.

It will leap ahead with an acceleration which is nothing short of marvelous. It can be brought smoothly, silently and instantly to rest at a slight pressure of the brake pedal.

The Oldsmobile-Six will run smoothly and comfortably over rough, rocky roads, its long springs absorbing all road shocks. On hills and steep grades this car has no equal. From every point of view and in any single point of performance the Oldsmobile stands unrivalled in its price class. It is truly an extraordinary car.

ESTOL

WOOD PRESERVATIVE & DECORATIVE PAINT

Eleven reasons why ESTOL is infallibly superior to Crotonate and wood preservatives of any other crotonic base.

- 1. Has greater penetrative power. 2. Its effects are more permanent. 3. It dries in one fourth the time. 4. It has greater covering capacity. 5. It is non-inflammable. 6. It makes wood-work fire resisting. 7. It never varies in quality. 8. Its colours never vary in shade. 9. It is odorless. 10. It is harmless to plant life. 11. It is the cheapest wood preservative on the market.

Irrigation in Kenya

The subject of water permits is to be discussed in Kenya. Mr. McFarlane Wilson expressed his view that some revision of the present system of water permits was needed...

WELLS IN SOUTH AFRICA

In South Africa most of the farms are situated in the northern, eastern or the west coast districts. The water in such a well would be of the same quality as the water in the surface water.

The quantity of water supplied by a well is not so uniform as that of a stream. The water in a well is of the same quality as the water in the surface water.

CULTIVATION AND IRRIGATION

Added to the trouble of irrigating is the trouble of maintaining the water in the channels. The water in the channels is of the same quality as the water in the surface water.

Mr. Lewis continued by stating that the most practical method of irrigation is to be determined by the nature of the soil and the nature of the crops to be grown.

THE QUEEN OF SHEPHERDS

There are a number of many people who are interested in the work of the Queen of Shepherds. The Queen of Shepherds is a woman who is devoted to the care of the sick and the aged.

WATER PERMITS

Mr. Wilson, in reply to Mr. Harvey's query, said that the present system of water permits was not so uniform as that of a stream.

Car value as Never Before!

Without any qualification whatever, it can be stated definitely (because it is PROVED) in demonstration that the Hupmobile is the best car on wheels on the world. On the one hand, consider the low cost (including all road tax and ins) and the superior performance on the road, and on the other, consider the price.
