The Utility Car & Truck

NOWHERE is the Ford more enjoyed and appreciated than in this country. It is known to the public as a universal carrier of goods and passengers, of farm life in isolated districts and of everything that is necessary to run a business. It is the advantage of being always ready for any work of its kind.

Its best quality material makes of every Ford in this region a real bargain. It is the perfect reason of its use in Africa.

Premier Garage, (H. W. POWELL)

NAIROBI, Hastings St.

Are You Trading With a Heavy Handicap?

These goods you are selling may be the best on the market and your accounting system may be the best work in efficiency, but nevertheless you are trading with a heavy handicap if your competitor is using

AVERY Weighing Machines and you are not.

MOTURING TOPICS

CAR CAUSERTY.

Reasons for Depreciation.

LEAKAGES AND THEIR PREVENTION

Some little time ago I was discussing the value of a second hand car and talking to a gentleman who says drivers were very keen on taking care of their cars. He said that he had a car which had been driven for some time and he was very particular about it. He said that he had a car which had been driven for some time and he was very particular about it. He said that he had a car which had been driven for some time and he was very particular about it.

Straining the Steering

When steering the car it is a strain on the vehicle to be used, due to pulling the bar back every on the running road. This is a strain on the steering mechanism for the increased pressure of the wheel against the frame of the car. It is a strain on the steering mechanism for the increased pressure of the wheel against the frame of the car.

Battery Care.

It is a mistake to suppose that a battery will last for ever. It is a mistake to suppose that a battery will last for ever. It is a mistake to suppose that a battery will last for ever. It is a mistake to suppose that a battery will last for ever.

Short Circuits.

A short circuit is a condition of an electric circuit in which the current flows through an unintended path. A short circuit is a condition of an electric circuit in which the current flows through an unintended path.

WORTHY CONSIDERATION.

To Die or Not to Die.

It is a matter of life and death to the driver of a motor car. It is a matter of life and death to the driver of a motor car. It is a matter of life and death to the driver of a motor car. It is a matter of life and death to the driver of a motor car.

Care of the Tyre.

The care of the tyre is a very important matter. The care of the tyre is a very important matter. The care of the tyre is a very important matter. The care of the tyre is a very important matter.

Flaking the Road.

Flaking the road is a condition of the road surface in which the surface material is broken up into small pieces. Flaking the road is a condition of the road surface in which the surface material is broken up into small pieces.

Small Leaks.

Small leaks are a common occurrence in motor cars. Small leaks are a common occurrence in motor cars. Small leaks are a common occurrence in motor cars. Small leaks are a common occurrence in motor cars.

Which Oil.

Which oil is the best for your motor car? Which oil is the best for your motor car? Which oil is the best for your motor car? Which oil is the best for your motor car.

The Oil Argument.

The oil argument is a common one. The oil argument is a common one. The oil argument is a common one. The oil argument is a common one.

Tyre Mileage beyond all expectations

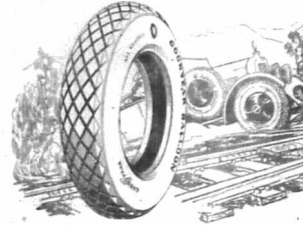

THE REMARKABLE SUCCESS of the new Goodyear "Supertwist" Tyres is without a parallel in the history of motoring.

When Goodyear announced to the world the discovery of the wonderful "C" material "SUPERTWIST" and the "Goodyear" rubber the motoring public saw the car manufacturers were prepared for the amazing mileage performance which followed.

With the new Goodyear, tyre mileage is beyond all expectations announced since. These big powerful tires were tough and rugged beyond all belief.

This performance has resulted in an overwhelming public approval and sales surpassing anything in the industry.

Try a set of Goodyear Supertwist next time. Their tremendous mileage performance will surprise you.

All Garages Supply Goodyears. They can be obtained at all sorts of Heavy Duty Bicycles and Special Heavy Duty Heavy Types

DISTRICT NOTES. NEW EDUCATION METHODS. Nanyuki. The Dalton Theory. CO-OPERATION NOT COMPETITION. (By L. G. B.)

Mr. Inspector of our boys put himself a very good try to Wager and Wager's system of 800 miles. It is said from London. The 200 miles a day. This is a very interesting experiment, but from Kenya to the Indian boundary there are 200 miles of land, some of the Northern Frontier District, which some of the members of the party considered as interesting to the point of amusement.

CAMEL-MADE BOATS. Owing to the loss of water on portions of the road—some 80 miles—consequently in order to save the only alternative is to use camels. Unfortunately camels are a lot of weight of the truck and making dogs the beasts of their own weight a source of constant bewilderment to the uninitiated.

600 B. ABOVE SEA LEVEL. Wager, which was only 500 ft. above sea level, has a clearance as low as the low water level of the sea to the top of the road. The road is 1,000 ft. between Nairobi and the Indian boundary, and the water in the road is 1,000 ft. between Nairobi and the Indian boundary.

A FLOURISHING TOWN. The Indians we reported to be very pleased with his work on the property, and the Government Commission was clearly expressed in their report that they had found a few dollars worth of work to be done.

POST OFFICE DEFECTS. Many people very much surprised to find that the Postmaster General in the past few months has been very busy in the past few months.

A SORDID EXHIBIT. Returned to Owner. A sordid exhibit was returned to the owner of the same.

NOTICE. The undersigned has taken over the business of the late Mr. J. H. Engelbrecht, and is now carrying on the same at the same premises.

DISTRICT NOTES. Nanyuki. A TRIP TO WAIVER. From the very commencement, Nanyuki has been a very good city to Waiver and has been so for many years.

NEW EDUCATION METHODS. The Dulon Theory. CO-OPERATION NOT COMPELITION. (By L. G. B.)

Camel-Made Breads. Only by the use of water in preparation of the bread, water is entirely omitted. It is made completely without salt, and is therefore very healthy.

Over 100 Above Sea Level. Water which is 100 feet above sea level is the best water for drinking. It is the only water which is pure and free from all impurities.

A Profit-Bearing Industry. The business of providing water for the people of Nanyuki is a very profitable one. It is a business which is growing rapidly.

As an illustration of the value of water, it is worth noting that the water of Nanyuki is the only water in the district which is pure and free from all impurities.

THE DULON THEORY. The Dulon Theory is a new method of education which is based on the principle of co-operation. It is a method which is growing rapidly.

A SORDID EXHIBIT. Returned to Owner. A sordid exhibit was found in the possession of a person who had been found guilty of a crime.

TEMPERATURES. Figures supplied by the Ministry of the Department of Agriculture. The following figures are given for the month of January.

Shs. 9-00 each

CAR CAUSERS

Reasons for Depreciation.

REPAIRS AND THEIR PREVENTION

(Continued from yesterday.)

Oil Leaks.

Oil leaks always have their bad penny. But generally speaking, most of the oil loss comes from the joints in the valve cover. From the two holes in the crankcase cover, the timing mechanism. To each these leaks originate in some disintegrating part. It is not an overstatement to say that the oil which is lost in this way is not lost for good. It is lost for the moment. It is lost for the moment because it is lost for the moment.

Transmission.

One of two points of possible leakage which should have been mentioned in the gear box and back axle. The latter is particularly important because the leaks are often neglected owing to the fact that the oil in the tank above the back axle usually is sealed in by bearings by ball bearings which can be got almost without the back axle and hub-bowling operation.

The Cooling System.

With regard to the water system, some preparation is to be made in the radiator in order to prevent the radiator from getting clogged with scale. It is important to have down any scale or sludge which may be present in the radiator. It is important to have down any scale or sludge which may be present in the radiator.

MOTURING TOPICS

German Motor Industry.

The necessity for a standard and complete regulation cannot be over-emphasized. The factory should be built for an engine which is to be used in a car. It is not sufficient to have an engine which is to be used in a car. It is not sufficient to have an engine which is to be used in a car. It is not sufficient to have an engine which is to be used in a car.

How to Start.

The battery should be examined every day when the car is started. The battery should be examined every day when the car is started. The battery should be examined every day when the car is started. The battery should be examined every day when the car is started.

Patrol Danvers.

CURIOUS CASE OF FIRE BY ELECTRICITY

Providence is given in a case of a fire being traced to a defective electric plug. The fire was caused by a defective electric plug. The fire was caused by a defective electric plug. The fire was caused by a defective electric plug.

Tyre Mileage beyond all expectations

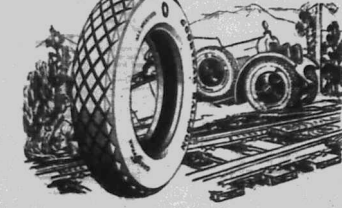

THE REMARKABLE SUCCESS of the new Goodyear "Supertwist" Tyres is without a parallel in the history of motoring.

When Goodyear introduced to the world the discoverer of the wonderful oil material "SUPERTWIST" and the extra miles of tyre life this new material would add to Goodyears, neither the motoring public nor the car manufacturers were prepared for the amazing mileage performance which followed.

With the new Goodyears, tyre mileages far beyond all expectations are now possible. These big powerful tyres were tough and rugged beyond all belief.

Their performance has resulted in an overwhelming public approval and sales success surpassing anything in the industry.

Try a set of Goodyear Supertwist next time. Their tremendous mileage performance will surprise you.

All Carages Supply Goodyears. They can be obtained in all sizes of Heavy Duty Bottom and Special Heavy Duty High Pressure Tyres.

COURT-TREAT EXPEDITION

Cape Town to Cairo

The wonderful success of this venture has naturally...

depended on a range of factors not only on the quantity...

of the motor oil used but also on the availability of...

supplies as an necessary point. The provision of...

supplies was made possible by the assistance of...

the "Shell" organisation and, on the score of quality...

it will be realised that only the very best was used...

when it is known that the cars have run on "Shell"

throughout the whole journey.

COURT-TREAT EXPEDITION

Cape Town to Cairo

The wonderful success of this venture has naturally depended to a large extent not only on the quality of the motor spirit used but also on the availability of supplies at all necessary points. The problem of securing that supplies would be available at every place through the vast country was a most difficult one to solve at first, but it has now been solved. It will be recalled that only the very best was used, and that the cars have run on "Shell" throughout the whole journey.

MAJOR COURT-TREAT SAYS THAT SHELL HAS WORKED PERFECTLY THROUGHOUT THE WHOLE OF HIS 8000 MILE JOURNEY THROUGH THE ABSOLUTE RELIABILITY AND UNIFORM GOOD QUALITY OF THIS MOTOR SPIRIT.

SOMETHING NEW

Viola Inamouth Table Jelly
 Vienna Inamouth Table Cream
 A Glass Mould supplied with Jelly, Cream and Honey Comb Mould.

Roys

 GOVERNMENT ROAD - NAIROBI. Phone 371

Car Value as Never Before!
 Without any qualification whatever, it can be established definitely (because in a FIVE-TO-SIX year period it is estimated that the average car is worth the least part of its value in this country). On the same basis, a car that has been in use for only one year and has not been used for any purpose, is worth more than a car that has been used for any purpose for a long period. See our advertisement in this issue for details, you will see how we do it.
