They Said It Was Impossible

—make machines that would move, to fly through
 the air, to transmit sound without wires.

The new sound apparatus and radio have made all
 these things possible.

Used recently was a radio intended to build
 an engine and engine. Mr. Dredelbacher has
 done just that in his Duplex body!

Now the Duplex can be converted from
 an engine and engine, or vice versa, without
 getting out of the car or stopping. No more
 cars no more than a steady open car.

See the Duplex before you buy. It is an exclusive
 Dredelbacher feature.

MOTOR TOPICS

CAR CAUSERS

(Continued from yesterday)

Animals on the Road. It is almost necessary to be alert to be laid on a road which has animals about numerous when they are in the road. Ordinary car owners should be more intelligent but when they occupy the right of way they must be accordingly careful and watchful to avoid accidents.

1. Trumblemen Etc. From what is said in last column it is not generally known that a fairly high speed has been reached in a motor car.

2. Speed. It is a particularly bad habit to use any particular type of tyre equipped with high pressure tyres which will last longer in the use of the high pressure tyre than the other tyre.

3. Rain. It is a mistake to suppose that a motor car is a machine which will last longer in the use of the high pressure tyre than the other tyre.

A Loud Necessity

A correspondent writes to me regarding the fact that most of the motor cars in the country are not fitted with a horn. It is a fact that the horn is a necessary part of a motor car.

4. Horn. It is a fact that the horn is a necessary part of a motor car. It is a fact that the horn is a necessary part of a motor car.

Muthiga Estates

We can offer one of the best residential sites on the Estate, with wonderful views over the plains and into the KIBUYO country.

The land is essentially the best type of gardening soil, with a large area suitable for vegetable and for an orchard, the whole being bounded by a permanent river.

Water mains, Light and Power Lines pass the boundary of the property.

A reasonable purchase price upon very attractive terms for payment.

The Sure Cure for Malaria.

ESANOFELE

Quinine does not seem sufficient to cure malaria. It quickly loses its effect. To cure malaria it is necessary to combine other substances with quinine, that have the power of destroying the parasites which have invaded the blood.

Malaria impoverishes the blood and purifies it of digestive function. It is necessary to re-constitute the blood with iron, and this is best done by the use of **ESANOFELE**, which is a powerful tonic and stimulant.

ESANOFELE can be obtained from all chemists, druggists and soap shops in KENYA, TANZANIA, ZAMBIA and NORTHERN Rhodesia.

Mail Agents - Price 1/6 per bottle.

FORD DESIGN

Design in all probability has had as much to do with FORD success as price. For no car however low in price could establish leadership, as the FORD has done, on anything less than superior performance.

In every part of the FORD quality is being carefully considered and improved year by year and the high standard set originally is maintained uniformly by ceaseless testing, inspections and check.

WITHOUT ANY DOUBT.
The FORD is the greatest value in the Automotive world today and every Motor man knows it.

EMPIRE AMBASSADORS.

Weekly Exhibition is being placed in the hands of the exhibitors. The successful means to do so end two years of intense administrative proposals conducted by the Empire has been placed in the hands of the exhibitors. It is hoped that the exhibition in British history. It is proposed to measure by figures or statements the fact of success and benefit of the exhibition. It is an endeavor and a matter of world-wide importance. The Empire has just begun with the closing of the exhibition. At a complete University of Empire it has played part in the dissemination of knowledge and in the encouragement and development of the spiritual sentiment of patriotism which cannot be measured by the fact. Whether the exhibition will not affect the real purpose and mission. It has been instrumental in spreading the knowledge of the mutual respect, trust, mutual needs, and mutual respect which form the basis of good among those people who who cannot understand the Empire's progress. It has demonstrated the property and value of the Empire. It has shown the world the results of the entire race to respect their fellow who share their common principles.

to the Commonwealth, it has supported a wide host of not only for the population of Britain but for the progress of the world in general. It is a matter of world-wide importance. The Empire has just begun with the closing of the exhibition. At a complete University of Empire it has played part in the dissemination of knowledge and in the encouragement and development of the spiritual sentiment of patriotism which cannot be measured by the fact. Whether the exhibition will not affect the real purpose and mission. It has been instrumental in spreading the knowledge of the mutual respect, trust, mutual needs, and mutual respect which form the basis of good among those people who who cannot understand the Empire's progress. It has demonstrated the property and value of the Empire. It has shown the world the results of the entire race to respect their fellow who share their common principles.

there is established in East Africa a representative body which will collaborate with the Government and the public in the promotion of the welfare of the country. It is a matter of world-wide importance. The Empire has just begun with the closing of the exhibition. At a complete University of Empire it has played part in the dissemination of knowledge and in the encouragement and development of the spiritual sentiment of patriotism which cannot be measured by the fact. Whether the exhibition will not affect the real purpose and mission. Take living pictures of your own children, your sport and pleasure trips, and secure a permanent living record of your stay in Kenya.

Join the Grayton Film Library. 700 different films to choose from, changed as often as you like.

CORRESPONDENCE

(Continued from page 7.)

I have tried to point out the objects of my remark and to explain why Christian gentlemen might perhaps, when they come to the aid of such a man, be doing more than to do him wrong. I have tried to show that the idea of equality is not a part of Christian teaching and that it is not to be introduced into the life of a people until they are ready to receive it. I have tried to show that it is a mistake to think of equality as a goal to be reached by a process of gradual evolution. I have tried to show that it is a mistake to think of equality as a goal to be reached by a process of gradual evolution. I have tried to show that it is a mistake to think of equality as a goal to be reached by a process of gradual evolution.

Your, etc.
M. H. MONTAGU
Kisumu, Central Prov.

WITWORTH.

To the Editor: "A Standard" Sir—Witworth, in one of your previous proposals, we have to refer to the fact that I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

I think that any of the Government officials could tell you what the death rate in their district is. I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

The old natives never come to the aid of a white man. I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

Every Government road and road revenue out of my pocket to employ a European. I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

The breakable folk believe that the Government is a machine. I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

The Government is a machine. I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

The Government is a machine. I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

give a fine time for the African. I have been in Africa and have lived some of my life among natives. I know their customs and so on. I could suggest that travelling Witworth, for the first time, every instant passing with a few minutes to arrest and enjoy the feeling of the state of being and being a native.

GRUDEN'S SOAP

IS A PRODUCT OF
KENYA.

Leadership—and why

Graham Brothers' imaginative advance to first position in the soap trade field, and second in the 1 ton and the 1 1/2 ton fields combined—during the first quarter of 1925—as explained by four vital reasons—

1. DISTINCT FLAVOR ADVANTAGE.
2. PROMINENT QUALITY ADVANTAGE.
3. BODIER BROTHERS' BODIER.
4. SUBSTANTIAL CHARACTER OF DODGE BROTHERS' IDEAS ORGANIZATION.

AIR MEN O' WAR.

No. 12.

"AIR ACTIVITY."

(By) HON. CABLE, Author of "The Dawn of Flight," "The
"Proty," "First Lines," "Crises
During Their Flight."

This is the story of the
men who have made the
air a new world. It is the
story of the men who have
made the air a new world.

There is no man in the
world who has not dreamed
of flying. It is a dream
that has been in the hearts
of men since the first
man looked up at the
sky.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

Aeroplane which brought
him to the world, steadily
descended. The engine
was still running, but the
propeller had stopped. The
aircraft was falling. The
pilot was looking down
at the ground. The
ground was coming up
at him. The ground was
coming up at him.

Before the crashed machine
was the ground. The
ground was coming up
at him. The ground was
coming up at him.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

The man who first
made the air his home
was a man who had a
dream. He had a dream
of flying. He had a dream
of flying.

ESITOL.

WOOD PRESERVATIVE & DECORATIVE STAIN
Evens reasons why ESITOL is a satisfactory substitute
to Creosote and wood preservatives of an oily or
creosote base.

- 1. Has greater penetrative power.
2. Its effects are more permanent.
3. It dries in one week.
4. It has greater covering capacity.
5. It is non-flammable.
6. It makes wood work fire resistant.
7. It never varies in quality.
8. Its colours never vary in shade.
9. It is odorless.
10. It is harmless to plant life.
11. It is the cheapest wood preservative on the market.

Write to me, I'll mail you a gallon of light
ESITOL. At Rs. 7/6 per tin.

Car Value as Never Before

Without any qualification whatever, it can be stated definitely (because it is PROVED in demonstration) that the Hypocrite is today the best car of its class in the world.
 On the one hand consider the car itself (looking all round and into it) and taking in consideration practically all the points on which the other makes the claim.
 Hence Hypocrite is today the best car ever made and you will want to know more of it.

Said It Was Impossible

to make pictures that would move... to fly through the air...

Yes, the cinema, aeroplane and radio have made of these things possible!

And recently it was considered impossible to build a motor car that would combine the advantages of an open or an enclosed car. Yet Duple has done this in its new Duple motor car.

In 30 seconds, the Duplex can be converted from an open to an enclosed car, or vice versa, without getting out of the car or stopping. Weight no more, cost no more than a strictly open car.

See the Duplex before you buy. It is an exclusive Duplebrush feature.

QUALITY VEHICLES FOR 75 YEARS

THE TEMPERATURE AT THE TOP OF THE MOUNT KENYA
 The temperature at the top of the Mt. Kenya has been down to 13 degrees below the zero point with plenty of blizzards for all the people of snow for the first time since the summer and winter months were separated by the snow.

IN A BLIZZARD.
 The temperature at the top of the Mt. Kenya has been down to 13 degrees below the zero point with plenty of blizzards for all the people of snow for the first time since the summer and winter months were separated by the snow.

BUILDING THE HUT
 The first of the party settled at the top of the mountain and during the first few days, and were the first to build the hut. The hut was built on a level of snow which was about 100 feet above the level of the snow.

A MOUNT REPORT.
 Mr. W. H. H. Jones, R.M.S., a mountaineering expert, has reported that the Mt. Kenya has been down to 13 degrees below the zero point with plenty of blizzards for all the people of snow for the first time since the summer and winter months were separated by the snow.

WHIRLWIND Suction Sweeper

THE SWEEPER WITH THE TROUBLE LEFT OUT.

ABOUT WE'VE AN ILLUSTRATION OF THE NEW "WHIRLWIND" Brushvac Sweeper.

Being built of aluminum, the Whirlwind Sweeper is light and easy to handle. It has a powerful motor and a suction pump which will suck up the dirt and debris from the floor. The brushvac sweeper is the best of its kind. It is the only sweeper that is so light and easy to handle. It is the only sweeper that is so powerful and so efficient. It is the only sweeper that is so durable and so long-lasting.

Synthetic Motor Fuels.

FAB REACHING RESEARCH IN GERMANY

An authoritative statement is published in *The Times* in which it is pointed out that the use of synthetic motor fuels has been found to be superior to the petrol which is manufactured by the ordinary means of refining from crude oil and hydrogen under high pressure.

Merlyt, which is a newly discovered, but as yet unobtainable, fuel is the general application of the process and the synthetic motor fuels are found to be superior to the petrol which is manufactured by the ordinary means of refining from crude oil and hydrogen under high pressure.

The Screen Wiper.

SAID TO HYPOthesize THE DRIVER

Of all the curious things which happen in motoring the suggestion that the action of an automatic screen wiper hypothesis is derived from the theory of the "phantom" is the most curious. The theory may be shown in which it is possibly true, and the theory is that the wiper is not a wiper, but a screen, and the screen is not a screen, but a wiper. The theory is that the wiper is not a wiper, but a screen, and the screen is not a screen, but a wiper.

A NEW CYCLE.

24 Raleigh Coming on to the Kenya Market.

BRIEF DESCRIPTION

The new 24 h.p. Raleigh has been ordered in Nairobi, and will shortly be offered for sale in the whole empire. Messrs. Kettle & Co. Ltd.

The engine is a 24 h.p. Raleigh design and manufacture, bore 60 mm., stroke 80 mm., 218 cc. capacity. The lubrication is mechanical with separate hand pump and engine feature for combustion of the new power on the independent internal expansion valve operating in rear chamber.

Equipped with Murray-Baker's three-speed gear and Dunlop wheels, the new motor cycle is a real 24 h.p. machine known as the "Big High" and the price, which will be announced shortly will, of course, be a moderate priced motor cycle.

The Ammeter.

THE INDICATION AND ITS USE

The ammeter is a device which is used to measure the current flowing in a circuit. It is a very important part of any electrical system, and its use is essential for the proper operation of the system. The ammeter is used to measure the current flowing in a circuit, and its use is essential for the proper operation of the system.

Typewriting

All Classes of Typewriting Underaken at Moderate Rates. Shelly, Coddington, M. ROBERTS, City House, P.O. Box 341.

Stalling the Engine.

COMMON CAUSES AND THE REMEDY

Within recent days, as reported, the stalling of motor cars, engines, and other machinery, has been the cause of many accidents. The causes are many, and the remedies are many. The causes are many, and the remedies are many.

For this reason, engine stalls, which occur when the engine is running, are a very common occurrence. The causes are many, and the remedies are many. The causes are many, and the remedies are many.

Good judgment demands that when a car has been greatly overloaded in traffic, a lower gear should be engaged. The reason of this is that the engine will be able to handle the load more easily, and the car will be able to handle the load more easily.

Muthaiga Estates

We can offer one of the best residential sites on the Estate with wonderful views over the Plains and into the Kilikuyu country.

The land is essentially the best type of gardening soil, with a large area suitable for vegetables, and for an orchard, the whole being bounded by a permanent river.

Water mains, Light and Power Lines pass the boundary of the property.

A reasonable purchase price upon very attractive terms for payment.

Ford

Facts You Should Know

THAT every second car in operation to-day is a FORD car and 91% of all FORD cars manufactured are still in use.

THAT 43% of FORD Repair parts cost less than 1- and have been standardised for years, whereas other Manufacturers introduce new models almost yearly.

THAT the nearest SERVICE is FORD SERVICE.

THAT FORD Cars have a longer life, lower up-keep and are easily the best investment.

SCHOOL BUILDING.

It is history that the Legislative Council sanctioned the expenditure of a sum of eighty thousand pounds on the erection of a secondary boys school in Nairobi. It was the intention of the Government to provide higher education in the country to European boys who had reached an age and standard where they can no longer be conveniently taught in the smaller schools situated in different parts of the Colony. It was contemplated that on this score a larger sum had originally been earmarked in the 1926 budget and that when this sum was allowed in 1928 the Government, in the opinion of the Education Department, proposed for adopting were that he could not support the expenditure of so large a sum of money on the erection of a secondary school, that he would make available for other purposes to existing schools, that the Government was not justified where there were children wanting to go to school and that there were many children in all parts of the Colony for whom an accommodation could be found. While maintaining that we maintain that the Government should pass the necessary appropriation. The case then upon which all were agreed was that the permanent importance of Kenya and the fact that the Government had the best and the most desirable for the Government to erect a secondary school in Nairobi, the result of the Government's decision in the matter of the erection of a secondary school in Nairobi. The result of the Government's decision in the matter of the erection of a secondary school in Nairobi. The result of the Government's decision in the matter of the erection of a secondary school in Nairobi.

to the extent the vote taken thirty months ago failed to give the rest of the matter. The secondary school is undoubtedly an essential part of any efficient scheme for the education of European children in Kenya but the debate seems to have been conducted as if it were the whole of that subject as it were an end in itself and as it would be treated as a separate subject apart from the requirements of the secondary school. The secondary school has been mentioned in a petition and it can never be so considered as another matter that means for improving upon that which has gone before the matter of the erection of the secondary school which was not maintained at all the most important ones of European settlement. The Government policy in European education has been defined and that policy provides also for the maintenance of the secondary school. It is history that the Government proposed for adopting were that he could not support the expenditure of so large a sum of money on the erection of a secondary school, that he would make available for other purposes to existing schools, that the Government was not justified where there were children wanting to go to school and that there were many children in all parts of the Colony for whom an accommodation could be found. While maintaining that we maintain that the Government should pass the necessary appropriation. CONSIDERATE DRIVING.

Points That Should be kept in Mind.

KENYA DRIVERS IN L.A.D.

From time to time we hear many complaints in reference to and by means of dangerous driving. This is not, however, necessarily true, as the fact that many of our drivers are not trained in the art of proper driving is a fact which is not generally known. It is true that the vast majority of drivers are not trained in the art of proper driving, but this does not mean that all drivers are dangerous.

TUBULAR STOCKINETTE.

36 inches wide, in very smart multi-colored effects. Rainbow colouring of various blendings. A nice light weight and very smart in appearance. Shs. 25/- per yard.

CHECH CELANESE.

P.O. Box 355, Phone 128. Telegrams: "Advallrom," NAIROBI.

and when passing on the left hand side of the road. It is not necessary to pass on the left hand side of the road when the vehicle is moving in the same direction as the vehicle being passed. It is necessary to pass on the left hand side of the road when the vehicle is moving in the opposite direction to the vehicle being passed. This is because the vehicle being passed is moving towards the right hand side of the road, and the vehicle passing it is moving towards the left hand side of the road. This is the most safe and sensible method of passing a vehicle.

ON A NAIROBI.

It is not so much a matter of the road, as it is a matter of the driver. It is not the road that is dangerous, but the driver who is dangerous. It is the driver who is responsible for the accidents that occur on the roads. It is the driver who is responsible for the deaths and injuries that occur on the roads. It is the driver who is responsible for the damage to property that occurs on the roads. It is the driver who is responsible for the loss of time that occurs on the roads. It is the driver who is responsible for the loss of money that occurs on the roads. It is the driver who is responsible for the loss of peace of mind that occurs on the roads. It is the driver who is responsible for the loss of life that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads.

ON A NAIROBI.

It is not so much a matter of the road, as it is a matter of the driver. It is not the road that is dangerous, but the driver who is dangerous. It is the driver who is responsible for the accidents that occur on the roads. It is the driver who is responsible for the deaths and injuries that occur on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads.

THE BRIGHT OF WAY.

Drivers should remember that the right of way belongs to the vehicle which is being overtaken, and which is being overtaken. It is the driver who is responsible for the accidents that occur on the roads. It is the driver who is responsible for the deaths and injuries that occur on the roads. It is the driver who is responsible for the damage to property that occurs on the roads. It is the driver who is responsible for the loss of time that occurs on the roads. It is the driver who is responsible for the loss of money that occurs on the roads. It is the driver who is responsible for the loss of peace of mind that occurs on the roads. It is the driver who is responsible for the loss of life that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads.

PASSENGERS.

Last but not least, the passenger should be careful. It is the passenger who is responsible for the accidents that occur on the roads. It is the passenger who is responsible for the deaths and injuries that occur on the roads. It is the passenger who is responsible for the damage to property that occurs on the roads. It is the passenger who is responsible for the loss of time that occurs on the roads. It is the passenger who is responsible for the loss of money that occurs on the roads. It is the passenger who is responsible for the loss of peace of mind that occurs on the roads. It is the passenger who is responsible for the loss of life that occurs on the roads. It is the passenger who is responsible for the loss of everything that occurs on the roads. It is the passenger who is responsible for the loss of everything that occurs on the roads. It is the passenger who is responsible for the loss of everything that occurs on the roads.

FEEL-BRISTLES.

It is not so much a matter of the road, as it is a matter of the driver. It is not the road that is dangerous, but the driver who is dangerous. It is the driver who is responsible for the accidents that occur on the roads. It is the driver who is responsible for the deaths and injuries that occur on the roads. It is the driver who is responsible for the damage to property that occurs on the roads. It is the driver who is responsible for the loss of time that occurs on the roads. It is the driver who is responsible for the loss of money that occurs on the roads. It is the driver who is responsible for the loss of peace of mind that occurs on the roads. It is the driver who is responsible for the loss of life that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads.

HOGGING THE ROAD.

It is not so much a matter of the road, as it is a matter of the driver. It is not the road that is dangerous, but the driver who is dangerous. It is the driver who is responsible for the accidents that occur on the roads. It is the driver who is responsible for the deaths and injuries that occur on the roads. It is the driver who is responsible for the damage to property that occurs on the roads. It is the driver who is responsible for the loss of time that occurs on the roads. It is the driver who is responsible for the loss of money that occurs on the roads. It is the driver who is responsible for the loss of peace of mind that occurs on the roads. It is the driver who is responsible for the loss of life that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads.

Comrade drivers will always like to have their own say in the matter. It is not the road that is dangerous, but the driver who is dangerous. It is the driver who is responsible for the accidents that occur on the roads. It is the driver who is responsible for the deaths and injuries that occur on the roads. It is the driver who is responsible for the damage to property that occurs on the roads. It is the driver who is responsible for the loss of time that occurs on the roads. It is the driver who is responsible for the loss of money that occurs on the roads. It is the driver who is responsible for the loss of peace of mind that occurs on the roads. It is the driver who is responsible for the loss of life that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads. It is the driver who is responsible for the loss of everything that occurs on the roads.

THIS WAR INVESTIGATION.

It is in the way of things that the Government has allowed companies to make profits out of this war. It is the Government who is responsible for the loss of time that occurs on the roads. It is the Government who is responsible for the loss of money that occurs on the roads. It is the Government who is responsible for the loss of peace of mind that occurs on the roads. It is the Government who is responsible for the loss of life that occurs on the roads. It is the Government who is responsible for the loss of everything that occurs on the roads. It is the Government who is responsible for the loss of everything that occurs on the roads. It is the Government who is responsible for the loss of everything that occurs on the roads.

Facts You Should Know

THAT every second car in operation to-day is a FORD car and 91% of all FORD cars manufactured are still in use.

THAT 43% of FORD Repair parts cost less than 1- and have been standardised for years, whereas other Manufacturers introduce new models almost yearly.

THAT the nearest SERVICE is FORD SERVICE.

THAT FORD Cars have a longer life, lower up-keep and are easily the best investment.

LADIES WOOL & MERCEURISED COTTON VEST, NO SLEEVES, SIZES 36", 38", 40".

Hutchings, Bierner & Co., Ltd. THE HOUSE FOR FURNITURE.

Announcing the New BUICK

NEVER before has there been a car which offered the incomparable features of the new 1926 model Buick. The performance of these cars is unparalleled, and their great strength and reliability is not equalled in the world to-day.

Prices. One of the most amazing features of the new model Buicks is their remarkable low prices.

Standard Buick 5 passenger Touring	80 h.p.	\$418
Standard Buick Special 5 passenger Touring	80 h.p.	\$348
Master Buick 5 passenger Touring	77 h.p.	\$366
Master Buick Special 7 passenger Touring	77 h.p.	\$375
Master Buick Sports 5 passenger Touring	77 h.p.	\$345
Master Buick Sports 2 passenger Roadster	77 h.p.	\$328
Master Buick Special De Luxe 7 passenger	77 h.p.	\$778

Dipping Head Lights. The greatest improvement in car lighting to date is found on all new Buick models. The light beams are now controlled. When meeting a car the light beams are lowered, giving a brilliant light directly in front of the car. On the open road the beams are raised. The control switch is located conveniently in the centre of the steering wheel.

Adjustable Front Seats. The Standard Touring car has adjustable front seats. This great innovation will appeal instantly to every motorist. One can now have all the leg room desired. No matter whether the driver is tall or short, the front seats can be easily adjusted to secure the most comfortable driving position.

Increased Power. The power of the new Buick has been substantially increased, chiefly by improved manifolding and combustion. Their performance on the road and on hills is astonishing. The new Buicks actually develop 170 per cent. more power than their official rating. And still they are as economical to run as an average four cylinder car.

Air Cleaner

The special Buick Air Cleaner keeps all dust and dirt from entering the carburettor and engine. With the new Buick you can drive on the dustiest roads with the assurance that the air entering the carburettor will be as pure and clean as mountain air. By removing all particles of dust and dirt it prevents abrasive, harmful material from entering the engine. It prevents oil contamination of the cylinder wall, piston ring and bearing wear, adding many more years of life to the Buick motor.

Oil filter

Ever since the invention of the motorcar, dirty oil has seriously shortened the working life of the motor. Ever frequent draining of the crankcase would, at best, but partially avoid that danger. But now in the new Buick you can have clean oil all the time. Magnetic filtration, not mere screening, removes all carbon, grit, particles of metal and road dust. As the new Buick runs the oil filter is constantly purifying the old oil, and returning clean, sparkling oil to the engine. All engines oil is filtered five times each twenty miles of running. The engine life is greatly prolonged, and oil bills are reduced.

Fuel filter

Build further to eliminate the possibility of dirt getting into the engine. Buick has adopted a perfect filter. This filter catches all sediment in the petrol and prevents it from reaching the carburettor. It also prevents water from getting into the carburettor. The glass bowl may be easily removed and cleaned by unscrewing a nut. After a few thousand miles of running the efficiency of this filter will be clearly demonstrated by the amount of dirt found in the glass.

Duotone Duco Colors

Buick has established a new vogue in motor car dress. Duco Duotone finish is used on the following Buick models:

- Special 1 passenger Touring
- Special 2 passenger Touring
- Special 7 passenger Touring
- Sports 5 passenger Touring
- Sports 2 passenger Roadster.

All closed models.

The top of the bonnet and all portions of the body heading is in one tone of Duco, while the lower body panels are in a different tone. The soft, rich lustre of the new Duotone Duco is as permanent as it is striking—a lasting, long-lived finish that resists time and weather.

4 Wheel Brakes

Buick four-wheel brakes are now kept dry in the roughest weather. These brakes are now protected by shields which keep the brake drums dry and efficient under all kinds of adverse operating conditions. Consequently both brake linings and drums are now longer life. Buick four-wheel brakes are now constructed so that the turning motion of the vehicle is used to apply the braking effect. This means that no need to apply the braking effect on the lower pedal is now only the lightness of pressure on the lower pedal is now sufficient to bring the car to an instant stop. The necessary to bring the new Buick and ideal car for women to drive.

SEE the New Buick TO-DAY

At the Sixth Avenue Showrooms of

Leadership—and why

English Brothers' impressive advance to first position in the 11 1/2 ton truck class, and awarded the 1st and 2nd prizes in the 1 1/2 ton class combined—during the first quarter of 1925—is explained by four vital reasons:

1. DISTINCT PRICE ADVANTAGE
2. RENOWNED QUALITY ADVANTAGE
3. DOGGI BROTHERS ENGINE
4. SOBERANITY CHARACTER OF DOGGI BROTHERS DIESEL ORGANIZATION

ORDINARY ROAD DEMANDS THAT THESE VEHICLES BE KEPT EVER READY FOR IMMEDIATE CONSIDERATION IF YOU HAVE ANY NEED WHATSOEVER FOR A TRUCK.
