

FILTERS

Strong cased steel filters in a good grey mottled colour. These are absolutely unbreakable and therefore very suitable for Safaris, Bungles, Hotel or Club use. The vessels telescope into each other as illustrated on the right, giving the maximum of protection and occupying the minimum of space for travelling.

Ford
Simplicity of Operation

The Ford is remarkable in its simplicity. It starts automatically by the foot. The driver's hands are always free from the wheel. His eyes are always on the road. He can watch traffic and the road ahead. There is no possibility of failure to accomplish a gear shift. Ford gears being of the planetary type are always in mesh and every gear is positive and uniform.

The Ford is very easy to steer and requires to the right amount of effort to turn the wheel.

The short Ford wheelbase is a benefit in congested traffic. It gives easy access to the front door and enables you to park in crowded sections where a big car is hampered.
