MEDICAL OFFICER'S REPORT.

Nairobi Problems to be Solved

TOWN PLANNING.

Following is a further extract from the 1928 report prepared by Karim M.H. the first portion of which was published in the Standard of March 14.

During the year 1928 cases of infectious diseases were notified, of which 1,000 occurred in Nairobi and 197 in the adjoining districts and townships.

ANTHRAX. 21 cases were reported of which 10 occurred in Nairobi and 11 in the adjoining districts and townships.

With the exception of one case which occurred from the skin form of the disease, and in the majority of cases it was caused by coming in contact with an animal which was infected with the disease.

It is difficult to get accurate statistics as regards to the number of deaths and the return of the disease to the same source.

CHOLERA. 10 cases were reported during the year with 10 cases in 1927, in 1928 and 1929. In 1928 the cases occurred in Nairobi and the adjoining districts.

DIPHTHERIA. During the year this disease made considerable headway in Nairobi being reported in all the districts.

MEASLES. During the year 1928 cases of measles were reported, all of which occurred in Nairobi.

Smallpox. During the year 1928 cases of smallpox were reported, all of which occurred in Nairobi.

Scarlet fever. During the year 1928 cases of scarlet fever were reported, all of which occurred in Nairobi.

and particularly in the latter part of the year. The patients have derived no benefit from a special diet, most not only have many of the cases and symptoms of the disease been arrested, but the patients have been able to return to their normal state.

It has been decided to discontinue further treatment of a special diet, all active signs of the disease have been arrested.

It is considered that the patients should be kept on a special diet, the signs and symptoms of the disease have been arrested.

Advertisement for Tropical Debility featuring a circular logo with 'Break that Vicious Circle of Tropical Debility' and 'Ageing prematurely!' text.

Ageing prematurely! That is the result of the "toxins" which circulate in your body and make you feel like an old man.

A FAMOUS OLD AFRICAN WRITER'S maxim runs parallel to the use of medicine, and which tells that you can be a peasant and still be healthy.

And that is exactly where you can break the "toxins" cycle. Go to the source and strengthen the cells of your glands of your body and more particularly of your blood and nerve and Sarsatogen.

Your will mean the following: Increase of Sarsatogen will increase the quantity of your blood corpuscles and so that your cells are able to absorb oxygen, to digest, to excrete.

It will give you better health, more vigor, more health and energy.

SARSATOGEN The True Tonic-Food Sold by all Druggists.

### TESTS OF MOTOR CYCLES.

**Special Track for B.S.A.**  
LOCAL CONDITIONS  
INTRODUCED.

It is well known to the majority of people that all motor bicycles are sent out for a road test before being sold to the public, but in England, owing to the numerous motor of motor vehicles on the road, it is daily becoming a more serious problem for manufacturers to find suitable roads, in close proximity to their works, on which to test their machines, particularly if they are not local.

The Birmingham Road Trials Co., Ltd. have conceived this interesting and profitable project of building a special track for testing motor bicycles in the Midlands. The proposed track includes a length of about 1 1/2 miles, and at one point a sharp gradient of about 1 in 11 is necessary. The roads are required to cover 10 miles on each occasion.

The advantages of the private testing track are obvious. In the first place, it enables the machines to be tested more thoroughly than would be possible on the roads. In the second place, it enables the manufacturer to keep a more exact record of the performance of individual machines. In the third place, the majority of the works make it very difficult to test their machines in the country.

The thoroughness with which B.S.A. Motor Cycles are tested is but an indication of the extreme attention given to every machine before it leaves the works. These are the reasons why B.S.A.'s machines have maintained such a world-wide reputation for reliability and excellent workmanship.

### SUNDREAM ATTEMPT ON THE 18-MILE RECORD.

An attempt on the world's 18-mile track record is to be made shortly, by Messrs. J. H. Thompson, Co. The car which will be used is a 5-horse power Daimler. The car will be driven by Mr. J. H. Thompson and Mr. D. H. Thompson, with possibly a spare driver. The car will be driven for 18 miles, and the time taken to do so will be recorded. The car will be driven on the 18-mile track at Nairobi. The car will be driven on the 18-mile track at Nairobi. The car will be driven on the 18-mile track at Nairobi.

**A NOVEL COMBINATION.**  
It is now again possible to see traffic police who are appointed for duty in Nairobi, but it must be realized that they have on the whole proved a distinct success. They are now, more than ever, being used to their full capacity, and it is to be hoped that they will continue to do so for many years to come.

## Don Must Wear Bands

Men who are simply a boy... Bands of hair are probably worn in a lot of fashion, but they are a relic of a time when men were clean-shaven and had to keep their heads cool in the sun.

Many of us have had experience with it, but we do not have a pretty story of it. It was a relic of a time when men were clean-shaven and had to keep their heads cool in the sun.

A particularly amusing story... The story is that of a man who had a very long hair and was very popular. He had a very long hair and was very popular.

## Cooper's Milk Oil Fluid On The Farm.

For a number of years Cooper's Milk Oil Fluid has proved the best of the stockman's a destroyer of parasites infesting his animals it is unequalled. Further, by its invigorating action on the skin, it produces a fine, glossy coat, giving the animal a healthy appearance.

It is a splendid disinfectant. As a prevention against bleeding and as a dressing for cuts, wounds, etc., has no equal.

For the above reasons the farmer cannot afford to overlook the use of this wonderful preparation. It is equally valuable for calves and for children in that the young animals are kept.

A drum of it should always be at hand, not only for an emergency, but for the daily routine of cleansing and sweetening the young animals are kept.

It is non-corrosive, does not stain, and being made of the materials and free from useless ingredients, it may be employed for any purpose. It is a valuable addition to the stockman's store of a High Class Cattle Wash, Liquid Sheep Dip and General disinfectant and Deodoriser.
