What Happened in Kenya Colony.

An exceedingly critical community whose existence depends on reliable and economical transport has tried and tested in Kenya Colony all kinds of motor cars and motor lorries that are just as good and nearly as low priced etc. as the FORD

Many of these have had their day of popularity and in turn have made way for some new favorite, but through it all, and in spite of all competition, the FORD has maintained its prestige and still is first favourite throughout East Africa.

One of the most reliable features in this year's trials is the number of car owners who have tried this as their alternative to the Ford but now are buying FORDS again.

The SURE CURE for Malaria

Quinine alone is not sufficient to cure malaria. It simply arrests the fever. The cure material is necessary to combine other substances with quinine, that have the power of destroying the parasites, which have invaded the blood. Malaria impoverishes the blood and paralyzes the digestive function, therefore the remedy must be a tonic which will build up the system. The ideal remedy is BRANFOLDF which has caused for the last ten years and stood the test under all climatic conditions. BRANFOLDF can be obtained from all the leading chemists and drug stores in Kenya, Tanganyika and Uganda. Price 9/6 postage extra.

 How the Frack of Unemployment has Extended to One of the Most Venerable Holiday Institutions.

**BY STEPHEN LAMCOCK.**  
 One night I was sitting up late, very early in the morning—think I was getting near bed. And, like everybody else, I was thinking of the Christmas Ghost. It had taken its place in the calendar as a matter of course. It had become a fixture of the Christmas season, and I was thinking of the Christmas Ghost in the same way that one would think of the ghost of a departed ancestor.

And I was thinking of the Christmas Ghost in the same way that one would think of the ghost of a departed ancestor. I was thinking of the Christmas Ghost in the same way that one would think of the ghost of a departed ancestor.
