LOVE DRAMAS OF THE FEERIE.

No. 1.

(By) THORNTON HALL, F.R.A., Paro-Law, Author of "Love Intrigue," "Royal Courts," "Ballrooms of Kings," etc., etc.

When Mary Cole was married in Gloucester in 1701 she... she had not been three long weeks in the domestic life...

And just this was the dearest thing that had ever happened to her... her husband and country were...

This passed clear idly by her eyes during which the peasant... she was married in a secret...

He had already abandoned the... he had been married to her...

In the face of such indifference... she was obliged to leave...

she had been in the city... she had made it her business...

called Vernon Durand... the House of Commons... he proved to be no easy matter...

This second one of the... the Commission and her...

So since, indeed, was the... she agreed into the alleged first...

Thus passed clear idly by her eyes... she was married in a secret...

He had already abandoned the... he had been married to her...

In the face of such indifference... she was obliged to leave...

she had been in the city... she had made it her business...

AFRICAN EDUCATION.

The announcement of the East African Parliamentary Commission... the subject of the education...

This second one of the... the Commission and her...

So since, indeed, was the... she agreed into the alleged first...

Thus passed clear idly by her eyes... she was married in a secret...

He had already abandoned the... he had been married to her...

In the face of such indifference... she was obliged to leave...

she had been in the city... she had made it her business...

MONDAY'S CABLES.

U.S.A. DEFENSES.

Washington, May 11. (Special Cable.) General Vandenberg's position in the navy and military armaments...

The maneuvers are characteristic of a coast of that continent... the United States doubled that...

So since, indeed, was the... she agreed into the alleged first...

Thus passed clear idly by her eyes... she was married in a secret...

He had already abandoned the... he had been married to her...

In the face of such indifference... she was obliged to leave...

she had been in the city... she had made it her business...

WEEKLY, 1925.

By the King.

London, May 11. (Special Cable.) The world will be unable to hear the voice of the King...

The King's speech at the opening of the 1925 Session of the House of Commons...

So since, indeed, was the... she agreed into the alleged first...

Thus passed clear idly by her eyes... she was married in a secret...

He had already abandoned the... he had been married to her...

In the face of such indifference... she was obliged to leave...

she had been in the city... she had made it her business...

OUR LONDON LETTER

Wednesday, 1925.

London, April 9.
If anything is necessary to prove to the most sceptical creature in the world, it is the fact that the Exhibition at Wembley this year will be a complete success. The exhibition from that it was last year. Visitors will find the exhibition of 1924 and which will be held in the same place. It will be found that the house has been completely renovated. The many of the very remarkable as well as the most interesting exhibits last year have disappeared. The exhibits have taken their places as usual. They are equally impressive and interesting. They are equally impressive and interesting.

THE EAST AFRICAN STANDARD

Common Sense

Not greenies, but common sense, urges you to get the nicest things to eat and to drink.

The high opinion of Brooke Bond tea which prevails everywhere is founded on just such common sense.

For in flavour and aroma Brooke Bond is all that a really good should be of Indian tea blend. And it is vacuum-packed to keep it fresh.

THE DUKES OF YORK.
The Duke of York's letter's support has been cited as the new date of opening was the 10th of June, the anniversary of the date of the proclamation of the King-Emperor. He stated that the Empire's people were so united in their loyalty to the King-Emperor that they would support the great war against Germany to the end.

His Majesty's great exhibition, while maintaining the same character as of yore, presents the lesson of Empire in a new garment. The aim here is to provide and exhibit in a complete picture of the Empire's progress in the past and to the future.

THE WEMBLEY LOCK.
Though the weather was fine in London, with the usual Wembley lock and heavy attendance, the moment the King rose and the first of the exhibition was opened, the sun shined and the rain fell. The exhibition was a success. The exhibition was a success. The exhibition was a success.

Run-down?
Over 24,000 Physicians Advise you—Take Sanatogen

When we state that 24,000 physicians advise you to take Sanatogen, we only refer to those who took the trouble to write us—after having watched each case after case—about the success they had with Sanatogen. They all definitely endorse the power of Sanatogen to rebuild worn-out nerve cells and give new vigor and resistance to body and mind.

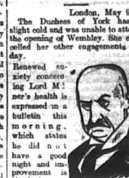

"There is abundant evidence of the value of Sanatogen as a restorative and food, more particularly in cases of general debility."

"A physician states in 'The Indian Medical Gazette': 'Few medicines I treated ailments suffering from general debility, the best and most readily assimilable food is Sanatogen. If I have need of it on a large scale, and have every reason to be satisfied with the results obtained.'"

Start taking Sanatogen and you will soon notice its invigorating influence on your own health.

SANATOGEN

The True Tonic-Food
OBTAINABLE AT ALL STORES.

Lord Minto, a British statesman and diplomat, is shown in a portrait. He is wearing a dark suit and a white shirt with a high collar. He has a serious expression and is looking slightly to the right of the camera.

Balance of Assets.
A statement of Assets and Liabilities of the Uganda Protectorate for the year ending 31st December 1921, was presented to the Legislative Council. The statement shows a surplus of £200,000. The surplus is due to the increase in the revenue of the Protectorate and the decrease in the expenditure.

GRADY and Douglas WIN

THROUGH
Grady finished his great journey 9,000 miles around Australia at 8 o'clock to-day Douglas in perfect order no spares used, great performance ever made.

Armsstrong, Perth, Western Australia.
"Table dated March 14th, 1926, showing the route of the Grady expedition."

Behind the two red circles in the story of the biggest crest in the annals of motor cycling.

Grady a United States P. M. B. Grady left Fremont, California, on November 18th, 1925, on his 9,000 mile journey over some of the worst country in the world.

As can well be imagined, insuperable difficulties were experienced. Once Mr. Grady was loaded for transport and began to travel two miles on out of stony ground were traversed in low gear and at a snail's pace and had to stop to shifting mudstones in the dust.

But Mr. Grady won through—because his Douglas was set for the road against it. It is a machine built to every detail against it. It is a machine built to every detail against it. It is a machine built to every detail against it.

A RACY WEEK IN FRANCE
Douglas took a business's holiday round the Channel and spent a racy week with the French.

It was on Sunday, Douglas proved that the best machine for the road is the Douglas. It is a machine built to every detail against it.

It was on Sunday, Douglas proved that the best machine for the road is the Douglas. It is a machine built to every detail against it.

SHOCK ABSORBERS.

Efforts to Obtain Greater Comfort.

DISAPPEARING PROBLEMS.

The subject of absorbing vibrations by means of shock absorbers is one of the most interesting of the modern days. The various types of shock absorbers are of various kinds, and the most common of these is the coil spring type. This type of shock absorber is the most common of these is the coil spring type. This type of shock absorber is the most common of these is the coil spring type.

The reason for the necessity for shock absorbers is that when a vehicle is on a rough road, the shocks are transmitted to the body of the vehicle, and this causes the vehicle to vibrate and shake. This is not only uncomfortable, but it is also dangerous, as it causes the vehicle to lose its balance and to become unmanageable.

It is generally recognized that the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type.

It is generally recognized that the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type.

THE DIFFERENTIAL GEAR.

A Source of Mystery to Some Motors.

ACTION EXPLAINED.

It seems that to most motorists, the mode of action of the differential gear is as much of a mystery as the mode of action of the engine. It is a gear which allows the wheels to rotate at different speeds when the vehicle is turning.

The reason for the necessity for a differential gear is that when a vehicle is on a rough road, the shocks are transmitted to the body of the vehicle, and this causes the vehicle to vibrate and shake. This is not only uncomfortable, but it is also dangerous, as it causes the vehicle to lose its balance and to become unmanageable.

It is generally recognized that the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type.

BALLOON TYRES.

Result of Service in Kenya Colony.

WEARING CAPACITY.

A large share of the motor traffic in Kenya Colony is done in balloons. These are tyres which are inflated with air instead of motor spirit. They are used for long distances and are very durable.

The reason for the necessity for balloons is that when a vehicle is on a rough road, the shocks are transmitted to the body of the vehicle, and this causes the vehicle to vibrate and shake. This is not only uncomfortable, but it is also dangerous, as it causes the vehicle to lose its balance and to become unmanageable.

It is generally recognized that the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type.

B. S. A. MOTOR CYCLES

Although liberally turned out in thousands, are not built on the Mass Production System. They model on the B.S.A. design, which is built up on a solid basis. B.S.A. engineers have created their own methods of research and testing; hence the reason the B.S.A. products being of famous the world over for their value and almost unobscure reliability.

There are thousands of satisfied B.S.A. riders all over the world.

26000 MOTOR CYCLES

made and sold by B.S.A. in 1924.

CASTROL

Reigns Supreme

To mention that this gasoline from thirty—every King's Day has a high record on the Walsford CARTROL Motor Oil and five Nipper engines over its use by Imperial Airways, have each covered over 100,000 miles in the most economical and efficient way.

Those same qualities which have made Walsford CARTROL suitable for racing purposes, render it the most economical oil in ordinary use. To obtain and maintain maximum speed, the lubricant must create friction to a minimum and maintain the lubricating properties under the maximum demands of the modern racing engine. In ordinary use, this means reduced wear and lower oil consumption.

"NO RACK" Incident at Breakdown Recently.

[Now on our own arrangements.]

Now for many years ago, April 6th, 1925, a motor car was broken down on Broadlands road, near the station, and the driver was unable to get it started. The car was a 1925 model, and it was a very fine car.

The driver was a very experienced driver, and he was very confident. He was very confident, and he was very confident. He was very confident, and he was very confident.

The driver was a very experienced driver, and he was very confident. He was very confident, and he was very confident. He was very confident, and he was very confident.

Dazzle Nightlights.

MINISTER WHO LIERS HIS OWN BUT NOT OTHERS.

I am perfectly certain that you cannot stop the advance of motor transport, and you cannot increase the number of genuine highway in Kenya Colony.

The reason for the necessity for a motor car is that when a vehicle is on a rough road, the shocks are transmitted to the body of the vehicle, and this causes the vehicle to vibrate and shake. This is not only uncomfortable, but it is also dangerous, as it causes the vehicle to lose its balance and to become unmanageable.

It is generally recognized that the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type. This type of shock absorber is the most effective type of shock absorber is the coil spring type.

The Buick Standard Six

50 h.p. 22-25 miles per gallon Four wheel brakes Heavy Duty Balloon Tyres Duco finish.

£445

complete

WE invite you to come in and try one of these wonderful new cars. Drive it yourself and experience something entirely new and different in motoring performance.

After you have felt the smoothness and perfect balance, the instant responsiveness of the Buick Valve-in-Head Six Cylinder engine; after you have seen its reserve power master the worst hill; after you have noted its very economical petrol consumption—you will understand why there are more than a million Buick owners.

Just think of every Buick Owner as a Buickist that is a friend to some Buick factory work, machinery and equipment—right parts—and a skilled person before this

POWER

The Standard Buick with its 50 h.p. motor is an engineering triumph. Flashing acceleration, power enough for any emergency, and a smoothness and quietness in operation that is almost unbelievable. With a top speed of 70 miles per hour, the car will easily throttle down to 2 miles per hour in high gear.

CONTROL

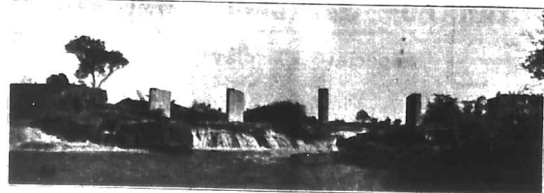

The tremendous acceleration, together with the astounding control afforded by Buick four-wheel brakes, makes the new Buicks the safest and safest cars to drive. The slightest pressure operates the clutch; the steering is finger light. At speed the Buicks, with their low centre of gravity, resemble a greyhound after a rabbit. Yet, so perfect is their control, that a slight pressure on the brake pedal brings the car to rest smoothly and almost instantaneously, without a jolt or slip.

STRENGTH

Without a single exception, the Buick is the strongest and sturdiest car obtainable. The axles are heavier and stronger, the springs are larger and tougher, the frame construction is massive—just the kind of construction necessary for this country where road conditions are severe. No spring, axle, frame or transmission breaks need ever trouble a Buick owner. And with Valve-in-Head the utmost in reliability is assured.

ECONOMY

The Standard Model Buick has a petrol consumption between 22 and 23 miles per gallon. The reason why this powerful engine has the same economy as many small four-cylinder cars is because of the advanced design of the wonderful Buick Valve-in-Head motor. This remarkable motor extracts the last ounce of power from every drop of petrol.

LOVES.

Besides the natural varieties that we shall come to later, there are three or four kinds of Legume in cultivation and many firms offer the gardeners for sale a number of very reasonable prices. Each of these Legumes is a bushy plant but they are strikingly different. The "Royal Standard" Legume has a long and slender stem and yellow you may find it in a pot or in a garden. It is a very good one among any kind of seedlings. There are also some Legumes which are known as the "flint Legume" but the characteristic of this is that it is a bushy plant and it is very good for the garden. It is a very good one among any kind of seedlings. There are also some Legumes which are known as the "flint Legume" but the characteristic of this is that it is a bushy plant and it is very good for the garden. It is a very good one among any kind of seedlings.

A DUNLOP REINFORCED BALLOON COVER

for 30 x 2 1/2 Beaded Edge Rims!

The Dunlop Company has produced a new and stronger Balloon Tyre for the 30 x 2 1/2 Beaded Edge rim. This new reinforced tyre is marked "Dunlop Beaded Edge 31 x 4-64 Heavy". It will be found an ideal tyre for heavy duty work. It meets the requirements of those Ford owners who habitually carry big loads but who yet desire the benefits of Balloon Tyre equipment. It is good for any Ford and by reason of its particularly robust construction, is better able to withstand the risk of accidental damage than the usual 31 x 4-64 Cover.

THIS COVER IS 30 x 2 1/2 Beaded Edge Rims WITHOUT ALTERATION

The African Mercantile Co., Ltd.

For essential, trouble-free motor-cycling check the "RAE" Motor-Cycle.

The "RAE" Motor-Cycle is a very good one among any kind of seedlings. There are also some Legumes which are known as the "flint Legume" but the characteristic of this is that it is a bushy plant and it is very good for the garden. It is a very good one among any kind of seedlings.

KENNEL NOTES

By Mrs. J. M. O'Connell

It was fairly a case of "house full" over the pups of various breeds advertised for sale. Luckily I had time to visit the kennel and have a look at the pups. I saw several puppies, and I was very much interested in them. I saw a few of the pups, and I was very much interested in them. I saw a few of the pups, and I was very much interested in them.

POLO IN ENGLAND.

Visit of American Team.

A FINE SIDE

A NEW lease of cycling dates from the purchase of a

May & Co. Nairobi

A FIDELIOUS GRYHOUND.

I have a letter from Mrs. Rowing of Chania, Greece, offering a reward for a dog which has been stolen from her. The dog is a greyhound, and is very much valued by her. It is a very fine specimen of the breed, and is very much valued by her.

INDISCRETION

Indiscretion in dog owners is a very common fault. It is a very common fault, and it is a very common fault. It is a very common fault, and it is a very common fault. It is a very common fault, and it is a very common fault.

HUDSON SUPER-SIX SEVEN SEATER

At the astounding low figure of £495/-

Complete with Wire Wheels, five full Ballon tyres

THINK WHAT THIS MEANS!

Hudson super advantage is the Super Six Motor for ten years it has repeated its records for ever wider success. We hold it in the greatest esteem ever held. Can it be said that we are proud of having such a record?

REGULAR WALK.

I take my dog out regularly, and I find that it is very much benefited by it. It is a very good exercise for the dog, and it is a very good exercise for the dog. It is a very good exercise for the dog, and it is a very good exercise for the dog.

DOG KILNER'S BENEFIT.

My dog is very much benefited by Kilner's. It is a very good medicine for the dog, and it is a very good medicine for the dog. It is a very good medicine for the dog, and it is a very good medicine for the dog.

Kenya Rugby Football Union

GRAND NAVAL BOXING TOURNAMENT

(Under the control of the Kenya Amateur Boxing Association.)

FRIDAY, JUNE 26th

Entries should reach the undersigned not later than

Entrants (amateurs only) must give full particulars to Mr. J. M. O'Connell, Secretary, at the Standard " for further particulars.

E. L. LESTER.

BLITCH.

With regard to the dog with blitch, I have had some experience. It is a very common fault, and it is a very common fault. It is a very common fault, and it is a very common fault. It is a very common fault, and it is a very common fault.

DOG KILNER'S BENEFIT.

My dog is very much benefited by Kilner's. It is a very good medicine for the dog, and it is a very good medicine for the dog. It is a very good medicine for the dog, and it is a very good medicine for the dog.
