Muthaiga Estates

We can offer one of the best residential sites on the Estate, situated at the highest point on the Estate, with wonderful views over the Plains and into the Kilimanjaro country.

The land is essentially the best type of gardening soil, with a large area suitable for vegetables, and for an orchard, the whole being bounded by a permanent river.

Water mains, Light and Power Lines pass the boundary of the property.

A reasonable purchase price upon very attractive terms, for payment.

You are invited to inspect our new stock of Silver wares, Leather goods, etc., etc.

THE WHOLE STORY

But the flying man themselves give the picture in the most convincing manner... the night-flying observer... the night-flying observer... the night-flying observer...

ZANZIBAR NOTES.

Anti-Mosquito War.

The following news items appear in the "Official Gazette" dated August 29:

The Hon. the Minister to the Yambou has addressed the Yambou on the subject of malaria. He has said that malaria is a disease which has been spreading in the island of Zanzibar since the beginning of the century. It is a disease which is very dangerous and which has caused the death of many of our best men.

The standard of education maintained throughout the island is maintained as a school of education. It has been maintained in the island of Zanzibar since the beginning of the century. It is a standard which is very high and which has caused the death of many of our best men.

When the boys commence school in the first quarter about 12 miles from the coast, and on the other side of the island, the buildings are of a standard which is very high and which has caused the death of many of our best men.

The buildings are of a standard which is very high and which has caused the death of many of our best men. The buildings are of a standard which is very high and which has caused the death of many of our best men.

Racing Experience.

Racing experience has proved that Whiteford CASTROL oils are depended upon to stand up to the tremendous demands of the modern high-speed engine.

That's why many early well-known racing men made on CASTROL. At the Cannon Motor Meet the British competitive using Whiteford CASTROL. In the 500 cc. race, Whiteford CASTROL was also selected almost every achievement of speed or endurance by our motorists, as happens in thousands of the world's famous events.

That's why many early well-known racing men made on CASTROL. At the Cannon Motor Meet the British competitive using Whiteford CASTROL. In the 500 cc. race, Whiteford CASTROL was also selected almost every achievement of speed or endurance by our motorists, as happens in thousands of the world's famous events.

Give your engine a chance to show what it can do, give it—

CAR CAUSERIE.

(Continued on page 19.)

mentioned must be undertaken. Any inherent deficiencies to be corrected in a new car should be done before it has been driven for more than a few miles. The motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles. The motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

Although it would be a simple thing to check the oil level in the sump, there are several simple tests which require special attention. The first of these is the "water test," which is a test for water in the oil. The second is the "acid test," which is a test for acid in the oil. The third is the "water test," which is a test for water in the oil.

Priming the Pump.

It is most important to make sure that the lubricant in the pump is properly after the crankshaft has been refilled. In the modern pump is so placed that it requires priming before it will circulate the oil, and, if such an engine were run full out without taking this precaution the bearings would soon become dry and would be liable to wear.

It is a good plan to disconnect the pump on the delivery side of the pump, and to disconnect the pump on the delivery side of the pump, and to disconnect the pump on the delivery side of the pump.

As regards the lack of an oil filter, it should be noted that the oil filter is a very important part of the engine, and it should be noted that the oil filter is a very important part of the engine.

Starting Adjustments.

Perhaps it would be well to mention in this connection the fact that the motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

A Hint.

It is difficult still to experiment, and it is difficult still to experiment, and it is difficult still to experiment.

Loss and Fouling.

Unfortunately there appears in the Home papers every week a list of the things that are lost. The things that are lost are the things that are lost.

Other Types.

Where the woman-and-childer is fitted, the motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

The adjustment for wear in the motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

When putting the car in motion, the motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

RIGHTS OF THE ROAD.

Address by an Insurance Expert.

INSURERS' MISTAKES.

In his presidential address at the Insurance Institute of the current year, the speaker pointed out the fact that the motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

INSURERS' BADMITS.

"In my long experience," Mr. Bales says, "I have seen many a motorist who has been misled by the fact that the car has run smoothly for a few miles.

The Steering Hand.

The steering gear has become a more important part of the car, and it is most important to make sure that the steering gear is properly adjusted.

Bad Habits.

"The reading of high speeds," Mr. Bales says, "is a very bad habit, and it is most important to make sure that the motorist does not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

Another danger is the fact that the motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

RAILWAY CROSSINGS.

The motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

A Creaky Performance.

REMARKABLE SUCCESS AT BROOKLANDS

In 1924 this car was seen in the hands of a motorist who was driving at a speed of 100 m.p.h. and who was driving at a speed of 100 m.p.h.

Ford Steering Gear.

NEW PINION WITH 18 TEETH

The gear ratio in the steering gear of new motor-cars is 18 to 1, and it is most important to make sure that the motorist does not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

Another valuable motor car.

Another valuable motor car is the one that is most important to make sure that the motorist does not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

A LICENSE HOLDER.

The motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

MOTOR VEHICLES.

In reference to motor vehicles, the motorist should not allow himself to be lulled into a false sense of security by the fact that the car has run smoothly for a few miles.

Across the hot sands

from Beirut to Bagdad

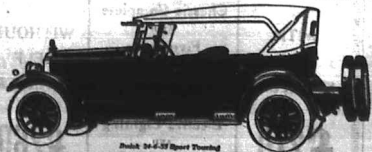

The Nairn Transport Co. a large British Enterprise, operates the longest motor transport service in the world.

The route runs from Beirut to Bagdad—over high mountain ranges across the trackless Syrian Desert where the compass guides the car drivers.

With all the cars in the world to choose from Buicks were selected by the company's consulting engineer, Mr. Lovell, as the most suitable for this arduous service.

In a paper read before the members of the Central Asian Society of England, Major D. McCallum, states:

"I must confess that after four years first hand experience with what these cars are capable of doing I should always choose them again under the same circumstances. The Buick cars are sufficiently high-powered to carry the enormous weights that must be carried over the two ranges of mountains and the desert without overheating. They are built with ample clearance—and will maintain a high speed for hours and hours on end."

For maximum Power on every make of car FIT LOGGE SPARKING PLUG

This Logge Plug is obtained from the best materials and is a positive proof of its superiority. It gives maximum power on every make of car.

Car Wars as Never Before!

Without any qualification whatever, it can be stated definitely (because it is PROVED in demonstration) that the Hupmobile is to-day the best car of its class in the world. On the one hand consider the car itself (looking all round into it, and testing its strength, its performance on the road, and on the other consider the price. Remember Hupmobile's reputation for long service free of trouble and you will then know how to decide.
