Work is Done at the Right Time on Fordson Farms

TIME AND LABOUR MEAN MONEY FOR THE FARMER AND FORDSON SAVES—BOTH

Throughout the world of agriculture the tireless energy of the Fordson is being increasingly used to eliminate labour worries from farm life and make it more pleasant and remunerative.

From the day of breaking the ground until the harvest is safely marketed, there is scarcely a day when the Fordson cannot be profitably employed.

If the Fordson's use ended at harvest time it would still be a paying investment. But the fact is that it may be usefully employed all through the year for feed grinding, sawing wood, pumping water and for a score of jobs which are often neglected. This makes it a valuable asset all the year round.

One of the fundamental advantages of the Fordson is that it makes possible the doing of the farm work at just the time when it should be done.

LAND

We have been instructed to sell two excellent blocks of undeveloped prime land situated in the District recognised as the centre of maize production.

We are authorised to offer a highly developed maize property, the revenue from which shows a handsome return upon the purchase price.

We can offer a genuine opportunity to those anxious to secure first class farming land direct from Government, and a real opening for building up a substantial and valuable holding.

GIROURD CUP FINAL.

Mombasa wins the "Blue Riband" of Kenya Football.

CALEDONIANS DEFEATED BY THE BETTER SIDE.

Second Half of an Excellent Match Spilt by a Deluge of Rain.

The final for the Girourd Cup, the "blue riband" of football in Kenya is always a hot attraction and has invariably provided one of the most interesting events of the season.

The match on Saturday on Railway ground, when the visiting team from Mombasa met Caledonians for the trophy, was no exception to the rule.

In spite of the threatening weather conditions—ominous dark clouds hovered from the early afternoon over the plain, heralding a storm—there was a gratifying number of spectators gathered around the ground to witness the contest between the two strong teams.

The following were the teams: Mombasa: Woods, Holland, Brashway, Whitmore, Thompson, Brown, H. J. G. Orr, and the Mayor of Nairobi. Caledonians: Allan, Patterson and Gregson; O'Neill, Nierum, Brown and Hiddell.

At 4 was taking the first half as a diversion, the most successful supporter of Caledonians can be said that the local side was withstood by the department of the game by the men from the City.

Both teams were revelation, but in different reports. Mombasa played a remarkably free game and there was not a weak link anywhere. Hiddell in the center half, but it is doubtful if he could have done any better than Thompson, who occupied that position. If any player could be said to have been the star of the game, where Whitmore, McEneaney, and Brown were the mainstays. This, however, did not mean that the game was not up to the remainder of the side, all or whom were in first class form.

In respect to Caledonians, while the side played like a great game in defense, and seldom had a moment's rest, it was not until Allen, Patterson, McEneaney and the three halves worked hard to defeat the first half of the game that they were well prepared to meet the pressure of the second half. The Mombasa team were finding the game very hot, and should have scored readily but for the Caledonians who were not to be deceived at those and regarded to be observed, and the goalkeeper was a real one to reckon with. Gregson was the best goalkeeper in the side and was useful in every way, and was useful in every way, and was useful in every way.

The forward, however, were very weak. A full back, even on the ground, they have been in front of goal, their punting was not to be feared. The goalkeeper was a real one to reckon with. Gregson was the best goalkeeper in the side and was useful in every way, and was useful in every way.

on the defense. Caledonians missed themselves after a while and forced the visitors to the left wing. Long punting by Hiddell was not to be feared by the other end, where a marked by Hiddell and Whitmore, and Hiddell was the star of the match.

Caledonians got on the move occasionally, but their usual exhibition of positive work was missing and only a goal was scored in the first half. As the half drew near, it was only the starting play by the Caledonians halves and backs that kept Mombasa from scoring again.

At the second half opened, a terrific gale of wind started to blow across the field accompanied by huge clouds of dust, necessitating the suspension of play for a minute or two. During the half Caledonians got to work, and a good passing team by the forwards resulted in a corner.

Then the gale started again, hurrying a heavy shower of rain, and the game was abandoned. The Mombasa team were away from the touch line and quickly made a flying field goal a slippery game.

From that point onwards the ball was at a discount, most of the players expressing the greatest difficulty in keeping their feet. Both footballs in the game were used, and the Mombasa defense was very loose indeed. In fact a different story might have been told but for the excellent work of Wood and Whitmore, particularly on one occasion when a quick succession including a slipkick was followed by a goal which a slippery ball.

At the end of the match, the Mombasa team were the victors, and the trophy was presented to them by the Mayor of Nairobi.

If any player could be said to have been the star of the game, where Whitmore, McEneaney, and Brown were the mainstays. This, however, did not mean that the game was not up to the remainder of the side, all or whom were in first class form.

In respect to Caledonians, while the side played like a great game in defense, and seldom had a moment's rest, it was not until Allen, Patterson, McEneaney and the three halves worked hard to defeat the first half of the game that they were well prepared to meet the pressure of the second half.

Time was not even after bringing an excellent game, as far as the first half was concerned, by a Mombasa team which was the winner of the match led by Hiddell and Whitmore, and Hiddell was the star of the match.

Caledonians got on the move occasionally, but their usual exhibition of positive work was missing and only a goal was scored in the first half.

At the second half opened, a terrific gale of wind started to blow across the field accompanied by huge clouds of dust, necessitating the suspension of play for a minute or two.

From that point onwards the ball was at a discount, most of the players expressing the greatest difficulty in keeping their feet. Both footballs in the game were used, and the Mombasa defense was very loose indeed.

In fact a different story might have been told but for the excellent work of Wood and Whitmore, particularly on one occasion when a quick succession including a slipkick was followed by a goal which a slippery ball.

WAIT. THE NEW CHRYSLER HAS ARRIVED AT THE COAST.

REMEMBER that ten years ago Walter P. Chrysler designed the Chrysler Six. Remember that ten years ago Walter P. Chrysler promised change to help the world change the whole level of motor design, engineering, manufacture, and equipment.

To-day, what others produce Chrysler Six features of ten years ago. Chrysler industry justified its leadership by new results of quality, of performance results, of economy.

The New Chrysler is as far ahead to-day as it was ten years ago. A trial run will prove it and make you eager to see it. It was regularly lengthening waiting list.
