# The TOURING

OLDSMOBILE SIX  
£312

**OLDSMOBILE** presents with pride a new and attractive Touring car. The very utmost in comfort, beauty and convenience has been embodied in this latest Oldsmobile success. Yet, the price is surprisingly low due to the enormous resources of the great General Motors Corporation and the most efficient processes of manufacture which are followed. The new Oldsmobile has everything that six-cylinder performance can provide: power, smoothness, speed and flexibility. The Touring car is beautiful and graceful from all angles. Its body is hung close to the ground without sacrificing clearance.

The body has long, sweeping lines which are made still more attractive by the straight-line moulding and two-tone colors of beautiful Russian brown and moccasin grey Decca. The seats are upholstered in genuine grey Spanish leather, box plated on deep coil springs. There is plenty of room in the

Touring car to accommodate five passengers comfortably. The top is tailored smoothly over strong bows and is of a clear Vision type. Curtains open with all doors. Balloon tyres on steel wheels, and extra long, responsive springs give remarkable riding ease. A solid platform type track is provided at the rear for convenience in touring.

Women especially like driving the Oldsmobile Six. A slight pressure on the clutch pedal is sufficient to allow the changing of gears, which are near at hand, and slide smoothly into position. The steering, especially designed for balloon tyres is easy acting and very responsive to every wish of the driver. The large brakes operate with the very lightest of pedal pressure. Its powerful forty-horsepower motor contribute to the ability to ride down in a slow walk in high gear or to speed away quietly smoothly at fifty-five and more miles an hour.

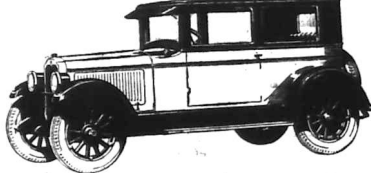

Here is performance that makes the Oldsmobile the champion. To create such a car was in itself a most difficult task. Yet, to create it at a price within the reach of hundreds of thousands is a feat that none other than Oldsmobile has achieved. The prices of both the Touring and the Coach are so low that you can see it in the sunlight and your pocket-book to investigate the Oldsmobile first-hand before you consider the purchase of any other motor car. Ask for a ride and take the wheel yourself. Then you will enjoy a thrill and a pleasure that no other motor car can give.

## The COACH

OLDSMOBILE SIX  
£308

### The Coach

The handsome colorful lower body and black upper body in lasting and lustrous Duro with vinyl striping give the Coach an individuality has been made longer and lower than previous models. The all-metal sheetmetal body has given extra strength at vital points by steel corner braces. The body has long, low and graceful lines and is given youthful contour by double moulding and the two-tone colors. Genuine Russian brown and moccasin grey Decca. The Coach has a genuine plate glass and the patented Fisher V.V. windshield provide maximum vision and ventilation. All windows operate by quick acting handles. The two doors are 36 1/2 inches wide and have invisible door checks and locks. Front seats are of the Pullman chair type, double hinged to fold forward under the dash. Seats and seat backs are spring cushioned. Upholstery is genuine cord plush of a pleasing neutral tone. The Coach has an automatic windshield wiper, dome light, foot rest, heavy rug in the rear compartment and rubber mat in the front compartment.

### Our Service

Ask an Oldsmobile or Buick owner about our service. From him you will learn of the thorough and painstaking attention given to every detail of repair and adjustment. Before new cars are delivered they are assembled with the greatest care by experienced men. After tuning up, they must pass rigid tests before they are handed over to the purchaser. Every car serviced by us must pass the same rigid tests and close examination as new cars. All inspection, repair work and adjustments are carried out by highly skilled technical men of long and successful experience. Our Service Station personnel you will find alert and obliging. Their expert advice and service is available to every Oldsmobile, Buick and International tractor owner. They are highly paid, loyal men, working under ideal conditions in a building specially designed for the climate and the work. Their efforts are guided by one ideal—to give the finest service humanly possible. The combination of these factors is responsible for the particularly high grade of work and craftsmanship for which they are rapidly and deservedly becoming famous.

# VALUE FOR MONEY

It isn't only the initial cost you've got to think of when buying a car—maintenance expenses must be taken into consideration. A car that is continuously in the garage for small adjustments and repairs is far more expensive in the long run.

The **Studebaker** is built throughout to give no-trouble Service. Moreover the Duplex body, an exclusive **Studebaker** feature gives you the equivalent of 2 cars in one. That's economy again.

## The Studebaker Duplex Meets All Weather Conditions

THE Studebaker Duplex Phaeton combines all the desirable features of an open car with the protection given by an enclosed car.

With the Duplex, you can enjoy the "rush of fresh air" if you will, or in 30 seconds or less, convert it into a snug and comfortable closed car.

Compare Studebaker cars, point by point, with any car! They offer the greatest value.

STUDEBAKER, South Africa, Ltd., P. O. Box 148 NAIROBI.

# The TOURING

OLDSMOBILE SIX  
£312

**O**LDSMOBILE presents with pride a new and attractive Touring car. The very utmost in comfort, beauty and convenience has been embodied in this latest Oldsmobile success. Yet the price is surprisingly low due to the enormous resources of the great General Motors Corporation and the most efficient processes of manufacture which are followed. The new Oldsmobile has everything that six-cylinder performance can provide: power, smoothness, speed and flexibility. The Touring car is beautiful and graceful from all angles. Its body is hung close to the ground without sacrificing clearance.

The body has long, sweeping lines which are made still more attractive by the straight-line moulding and two-tone colors of beautiful Russian brown and molekin grey Duco. The seats are upholstered in genuine grey Spanish leather, box plated on deep springs. There is plenty of room in the

Touring car to accommodate five passengers comfortably. The top is tailored smoothly over four strong bows and is of a clear vision type. Curtains open with all doors. Balloon tyres on steel disc wheels, and extra-long, responsive springs give remarkable riding ease. A solid platform type trunk rack is provided at the rear for convenience in touring.

Women especially like driving the Oldsmobile Six. A slight pressure on the clutch pedal is sufficient to allow the changing of gears, which are near at hand, and slide smoothly into position. The steering gear, especially designed for balloon tyres is easy acting and promptly responsive to every wish of the driver. The large brakes operate with the very highest of pedal pressure. Its powerful forty horse-power motor contribute to the ability to slide down the slow walk in high gear or to speed away quietly and smoothly at fifty-five and more miles an hour.

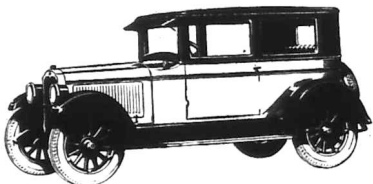

There is no performance that makes the thoroughbred and limited car as easy to handle as the Oldsmobile Six. Yet to create it at a price within the reach of the average motorist is a feat that some other than Oldsmobile has never achieved. The price of both the Touring and the Coach are so low that you can afford to own and drive them. The Oldsmobile Six is the first car that you can afford to own and drive. The Oldsmobile Six is the first car that you can afford to own and drive. The Oldsmobile Six is the first car that you can afford to own and drive.

## The COACH

OLDSMOBILE SIX  
£368

**The Coach** The handsome colorful lower body and black upper body in lasting and tasteful tones with a full set of stripes give the Coach an individual and smartness. The body in this latest Oldsmobile Six has been made longer and lower than previous models. The all metal sheathed Fisher body is given extra strength at vital points by steel reinforcement. The body has long and graceful lines and is given youthful contour by double moulding, and the two-tone colours. Generous windows of genuine plate glass and the patented Fisher V. V. windshield provide maximum vision and ventilation. All windows operate by quick acting handles. The two doors are 36 1/2 inches wide and have invisible door checks and locks. Front seats are of the Pullman chair type, double hinged to fold forward under the dash. Seats and front back are spring cushioned. Upholsters is genuine cord plush of a pleasing neutral tone. The Coach has a rest, heavy rug in the rear compartment and cushion mat in the front compartment.

### Our Service

Ask an Oldsmobile of Buick owners about our service. From him you will learn of the thorough and painstaking attention given to every detail of repair and adjustment. Before new cars are delivered they are assembled with the greatest care by experienced men. After tuning up they are passed rigid tests before they are handed over to the purchaser. Every car serviced by us must pass the same rigid tests and close examination as new cars. All inspection, repair work and adjustments are carried out by highly skilled technical men of long and successful experience. Our Service Station personnel you will find alert and obliging. Their expert advice and service is available to every Oldsmobile, Buick and International tractor owner. They are highly paid, loyal men, working under ideal conditions in a building specially designed for the climate and the work. Their efforts are guided by one ideal—to give the finest service humanly possible. The combination of these factors is responsible for the particularly high grade of work and craftsmanship for which they are rightly and deservedly becoming famous.

## THE EAST

### AFRICAN STANDARD

Mombasa Times, March 2, 1926

### EAST AFRICAN RAILWAYS.

So far as is known to the general public, the principal subject of the agenda of the recent conference of directors upon which there was some marked divergence of opinion was the policy which will govern the future railway and port development in East Africa. The Conference adopted the course of publishing in full the arguments advanced by Sir Donald Cameron, Sir Edward Grigg, High Commissioner for Transport, Kenya and Uganda Railways, and Sir Donald Cameron, Director of Transport, Kenya and Uganda Railways, and Sir Edward Grigg, High Commissioner for Transport, Kenya and Uganda Railways, as a result of their deliberations. The resolution agreed upon the principle that "in the interests of the East African territories generally it is desirable to take all possible measures to avoid competition in railway and port developments and to railway rates and port extension, including not only main lines but branch railways and sidings and in any measure of immediate and extension towards the greatest measure of willingness had hitherto been manifested by Sir Donald Cameron whose programme is only now beginning. The Government of Tanganyika, however, was to some extent committed to the

completion of the branch line to Mwanza from Tabora, which is intended to open up and serve a potentially rich and already well populated area of his territory not only rapidly of considerable agricultural activity but also possessing promising mineral deposits. It will be recalled that Sir Donald Cameron was keenly aware of the handicap imposed upon the proper development of the Lake States by the triple usurper and responsibility for its transport and development resting jointly on the Government of Kenya, Uganda and Tanganyika and it has been entirely disadvantageous that the control of development of the branch and fertile areas controlled in the Government of East Africa is not centralized in a representative body should be at least directed towards securing the maximum service and return with the least outlay. Two main courses are open for consideration in the statements made by the Governor of Kenya and the Governor of Tanganyika, both vital and sound. Sir Edward Grigg has emphasized the importance of the fact that the success of East Africa is now essentially in character, domination and in his opinion it follows from the realization of that condition that it would be quite impossible to advance the case of funds provided very largely by the British taxpayer to develop a portion of the East African territory which would be competitive in character and would tend eventually to limit the security to the investor in England. On the other hand, Sir Donald Cameron has based his case on his general belief that transportation services, where provided, must give the cheapest possible facilities and would be quite wrong in all the circumstances, to place upon the people of Mwanza an unnecessary handicap in trade and production because the railway authorities in

Kenya and Uganda have certain financial commitments likely to be affected by construction of a branch line from Tabora to the lake and it would be equally unwise to take money to improve the port of Tanga if the Kenya and Uganda Railway and the port of Mombasa provide the cheapest facilities already in existence. The value of the agreement which has been reached on main principles lies not in its immediate application but in a guiding factor in future programmes and policies. It was inevitable that as Sir Donald Cameron, prior to his arrival in Nairobi, made definite arrangements with the Colonial Office in regard to the completion of the Tabora-Mwanza railway, his opinions expressed at the Conference must, to a great extent, be guided by his prior declarations but there can be no question of the soundness of the opinion expressed or of the fact that Sir Donald Cameron's proposal that occupation in development and in rates would be dependent on the amount of the output and production in East Africa and, in an even greater measure, that the future progress of co-ordinated effort on a unified policy of development. The time has now come when the interests of the whole of the East African railways can be considered but it is right to prove that the present stage in the history of the countries, the possibilities of the future should not be discouraged by act or intention of the moment but might make a large and more beneficial policy difficult and expensive of accomplishment later.

It is impending solution of the East African case which the Government is not to be the right of such territory to vote in the programme of the co-ordinated effort in the future. The Government should be permitted to express the hope that the system of conference

**A GOOD NAME**

Whoever the two well-known **DODGE BROTHERS**—are seen, they stand as a symbol of exceptional motor-car value. No, to be exact, a particular kind of motor-car workmanship which people have come to associate with **DODGE BROTHERS**. The name has come to signify integrity—in the way of the manufacturing and the business methods of the **DODGE BROTHERS** are better than in that part. They realize that the possession of their business cars, they realize that such a name is a perpetual premium which must be perpetually inflated by a fair and just product. As long as their name is attached to their motor-car **DODGE BROTHERS** may be dignified, good to depend on, and as long as they build motor-cars they will be the best motor-cars **DODGE BROTHERS** can build.

**Gillette Cold Cream SHAVING SOAP**

**KEEP TWO STICKS IN USE — saves money**  
 Why? The Shaving Stick absorbs a certain amount of moisture from the air. By keeping two **GILLETTE Cold Cream Shaving Soaps** and using them on alternate days, the 48 hours rest allows the moisture to evaporate, so that the shaving stick is kept in use. Each week longer and gives many more shaves to the stick. The Cold Cream blended into **GILLETTE** is so essential that it softens and smooths the most sensitive skin, and gives all the delight of a Cold Cream Massage.  
**FRUITLISE WITH EPHOS**  
 The following testimonials speak for itself:  
 "You notice no more the unpleasantness which 'Ephos' worried out. I really like it to tell you, you might fancy I was pulling you in."  
 "The 'Ephos' are just simply wonderful, you never saw such good work, even though this thought I have grown used to you for the last 10 years, I have found nothing like this lot and further it is now a question of fancy if I purchased one at the door in the 'Kiloby' job."  
 The use of the above treatment is best on applicants to:

THE COFFEE MEALY BUG. Result of Continuous Research.

RECOMMENDATIONS FOR CONTROL MEASURES.

Over Thirty Different Species of Indigenous Insects Feed on Mealy Bug.

It is generally assumed that the Mealy Bug is a pest of coffee. In fact, it is a pest of many other plants, and its control is a matter of some importance. The following are the results of a series of experiments conducted by the author, which have shown that the Mealy Bug is a pest of many other plants, and its control is a matter of some importance.

The following are the results of a series of experiments conducted by the author, which have shown that the Mealy Bug is a pest of many other plants, and its control is a matter of some importance.

THE RELATION OF ANTI-FIBREUS PUNCTILATA TO THE COFFEE MEALY BUG.

They have been shown to be the same species, but they differ in the structure of the antennae. The following are the results of a series of experiments conducted by the author, which have shown that the Mealy Bug is a pest of many other plants, and its control is a matter of some importance.

EXPERIMENTS ON THE MEALY BUG.

The object of the present investigation was to determine the relation of the Mealy Bug to the coffee plant. The following are the results of a series of experiments conducted by the author, which have shown that the Mealy Bug is a pest of many other plants, and its control is a matter of some importance.

THE MEALY BUG PROPAGATED.

The Mealy Bug is a pest of many other plants, and its control is a matter of some importance. The following are the results of a series of experiments conducted by the author, which have shown that the Mealy Bug is a pest of many other plants, and its control is a matter of some importance.

DISADVANTAGE OF SPRAYING TO CONTROL THE MEALY BUG.

With the foregoing information it is clear that spraying is a very expensive method of controlling the Mealy Bug. The following are the results of a series of experiments conducted by the author, which have shown that the Mealy Bug is a pest of many other plants, and its control is a matter of some importance.

VALUE FOR MONEY

It isn't only the initial cost you've got to think of when buying a car—maintenance expenses must be taken into consideration. A car that is continuously in the garage for small adjustments and repairs is far more expensive in the long run.

The Studebaker is built throughout to give no-trouble Service. Moreover the Duplex body, an exclusive Studebaker feature gives you the equivalent of 2 cars in one. That's economy again.

The Studebaker Duplex Meets All Weather Conditions

The Studebaker Duplex/Phantom combines all the desirable features of an open car with the protection given by an enclosed car.

With the Duplex, you can enjoy the fresh air of your open car in 30 seconds or less, convert it into a snug, comfortable closed car. Simply lower the roller enclosure or simply stoppage or getting out.

Into the Duplex, and every one-professional Studebaker, go only the finest materials

# The TOURING

OLDSMOBILE SIX  
£312

OLDSMOBILE presents with pride a new and attractive Touring car. The very utmost in comfort, beauty and convenience has been embodied in this latest Oldsmobile success. Yet the price is surprisingly low due to the enormous resources of the great General Motors Corporation and the most efficient processes of manufacture which are followed. The new Oldsmobile has everything that six-cylinder performance can provide: power, smoothness, speed and flexibility. The Touring car is beautiful and graceful from all angles. Its body is hung close to the ground without sacrificing clearance.

The body has long, sweeping lines which are made still more attractive by the straight-line moulding and two-tone colors of beautiful Russian brown and moleskin grey Duco. The seats are upholstered in genuine grey Spanish leather box plaited on deep coil springs. There is plenty of room in the

Here is performance that makes by thoroughness and dependability make the difference. Yet to create it at a price within the reach of hundreds of thousands is a feat that none other than Oldsmobile has achieved. The price of the Touring and the Coach are so low that you owe it to yourself and your pocket-book to investigate the Oldsmobile first-hand before you consider the purchase of any other motor car. Ask for a ride and take the wheel yourself. Then you will enjoy a thrill and a pleasure that none would expect.

Touring car to accommodate five passengers comfortably. The top is tailed smoothly over four strong bows and is of a clear vision type. Curtains open with all doors. Balloon tyres on steel disc wheels, and extra long responsive springs give remarkable riding ease. A solid platform type trunk rack is provided at the rear for convenience in touring.

Women especially like driving the Oldsmobile Six. A slight pressure on the clutch pedal is sufficient to allow the changing of gears, which are near at hand, and slide smoothly into position. The steering gear, especially designed for balloon tyres is easy acting and promptly responsive to every wish of the driver. The large brakes operate with the very lightest of pedal pressure. Its powerful forty horse-power motor contribute to the ability to idle down -- slow walk in high gear or to speed away quietly and smoothly at fifty-five and more miles an hour.

# OLDSMOBILE SIX

DISTRIBUTORS

The  
**COACH**  
OLDSMOBILE SIX  
£368

The Coach The handsome contour lower body and black upper body in lustrous and attractive finish in the Coach give the Coach an individual smartness. The body in the latest Oldsmobile Six has been made longer and lower than previous models. The all metal, streamlined, Fisher body is given extra strength at vital points by steel corner braces. The body has long, low and graceful lines and is given youthful contour by double moulding and the two-tone colours. Generous windows of sun-bulb provide maximum vision and ventilation. All windows operate by quick acting handles. The two doors are 36 inches wide and have invisible door checks and locks. Front seats are of the Pullman chair type double hinged to fold forward under the dash. Seats and seat backs are spring cushioned. Upholstery is genuine cord plush of a pleasing neutral tone. The Coach has an automatic windshield wiper, dome light, foot rest, handgrip in the rear compartment and rubber mat in the front compartment.

## Our Service

Ask an Oldsmobile or Buick owner about our service. From him you will learn of the thorough and painstaking attention given to every detail of repair and adjustments. Before new cars are delivered they are assembled with the greatest care by experienced men. After tuning up, they must pass rigid tests before they are handed over to the purchaser. Every car serviced by us must pass the same rigid tests and close examination as new cars. All inspection, repair work and adjustments are carried out by highly skilled technical men of long and successful experience. Our Service station personnel you will find alert and obliging. Their expert advice and service is available to every Oldsmobile, Buick and International tractor owner. They are highly paid, loyal men, working under ideal conditions in a building specially designed for the climate and the work. Their efforts are guided by one ideal—to give the finest service humanly possible. The combination of these factors is responsible for the particularly high grade of work and craftsmanship for which they are rapidly and deservedly becoming famous.

NAIROBI HOUSE

Suits available on second floor, for lease. Efficient Lift.

KINANGOP PLATEAU

Farms varying areas from 10 to 200 acres, and prices from Two pounds to Three pounds Ten Shillings per acre.

The land is of the very best type for dairying and tree growing, and is offered at prices very well below the rate at which properties have changed hands in this district.

A remarkably ideal about 10 miles from town, with its way reach of a Creamery. Fruit grows in a proved industry in this district.

For further particulars apply to H. F. Ward & Co. NAIROBI HOUSE.

A Profit From Every Season

Farm income can be increased on almost every farm by careful organization and efficient management. On the feed grinder, wood saw, hay baler or other belt machines as well as for transport the Fordson's ready power can add much to the year's output. The Fordson's low cost makes the investment light. Operation costs are low. On days when it is not working its operative costs are nothing.

**WAR MEMORIALS IN EAST AFRICA**  
 Work of Imperial Graves Commission.

**A LABOR FOR KUMING**

The Imperial War Graves Commission has been notified by the Chinese Government that it is now possible to start work on the graves of British and other Commonwealth troops who fell in China during the late 1914-1918 period. The Commission is now in a position to accept offers of land for the burial of these troops. It is therefore invited to receive offers of land for the burial of these troops. It is therefore invited to receive offers of land for the burial of these troops.

**LANGA FARMING**  
 A large tract of land has been discovered in Langa, South-West Africa, which is well adapted for agricultural purposes. The land is fertile and well watered, and is situated in a healthy and fertile district. It is therefore a most desirable investment for any person desiring to acquire land in South-West Africa. The land is now being offered for sale by the Government, and is being sold at a very low price. It is therefore a most desirable investment for any person desiring to acquire land in South-West Africa.

The goods are all of the highest quality and are sold at very low prices. It is therefore a most desirable investment for any person desiring to acquire land in South-West Africa.

**A GOOD NAME**  
 Whenever the word "DODGE BROTHERS" is used they stand as a symbol of superior motor car value. They sell you a picture of a particular kind of motor car. Or to be exact, a particular kind of motor car—mechanically, which people have come to associate with the DODGE BROTHERS name.

The same has come to suggest high reliability in the motor car, and in the manufacturing and business methods of the DODGE BROTHERS are evenly alive to that need.

They realize that the persistence of their business rests upon the continuance of that good name.

They realize that such a name is a perpetual process which must be continuously fed by a clear and fine product. As long as their name is attached to their motor cars, DODGE BROTHERS may be depended upon to safeguard and protect it.

As long as they build motor cars they will be more so. DODGE BROTHERS can build Side Agents for the Eastern African Territories.

**FERTILISE WITH EPHOS**  
 The following testimonials speak for themselves. You make the most of the experience which Ephos turned out. Heavy 1 bushel to 2 and 2 1/2 tons more than any other fertilizer. The fertilizer was just applied to my corn. It was such a great success through the drought. I have never obtained so much and in such a short time. But never have I seen anything like this one and number of it is a question of money only. I have found the need of it the more the Kilimanjaro. The owner of the station contacted me to see an application to I. G. ARONSON, P.O. Box 681, Nairobi.

**AMMUNITION OVERSEAS MAILS.**

Writing to the high price of Ammunition. You want a Rifle not only to be accurate but to have killing power. The NEW INVENTION of Mauser and the NEW SHOOTING RIFLE with the EXTRA LONG BARREL 20" EXTRA LONG BARREL 20" extra naturally and only one necessary striking form and more powerful than any other. The Mauser and Mauser's Schmeisser rifles have proved an inferior unknown success.

All rifles available Cal. 8.5 mm. max. 8 mm. 8.5 mm. 8.5 mm. 10.75 mm. from 200 to 3000.

**ONLY OBTAINABLE FROM THE SOLE AGENTS FOR THE ORIGINAL MAUSER AND SCHMEISSER SCHEMATA RIFLES**

We guarantee accuracy, striking force and quality.

THE COFFEE MEALY BUG.

Result of Continuous Research.

RECOMMENDATIONS FOR CONTROL MEASURES

Over Thirty Different Species of Indigenous Insects Feed on Mealy Bug.

By W. KENNEDY, M.A., Director of Entomology, Agricultural Research Station, Nairobi.
The mealy bug, a pest of coffee, has been found to be fed upon by over thirty different species of indigenous insects. This discovery is significant because it suggests that the mealy bug is not a primary pest but rather a secondary pest that is attracted to the sugary excretions of the mealy bug. The insects found feeding on the mealy bug include various species of ants, beetles, and flies. This finding has important implications for the control of mealy bug infestations on coffee plants, as it suggests that the mealy bug should be treated as a pest of other pests rather than as a primary pest itself.

of 500 4300 a gallon... (Text continues with details of the mealy bug and its control measures.)

ESTIMATED COST FOR FULL-SIZED COFFEE TREE... (Text discusses the economic impact of mealy bug infestations on coffee production.)

VALUE FOR MONEY

Isn't only the initial cost you've got to think of when buying a car—maintenance expenses must be taken into consideration. A car that is continuously in the garage for small adjustments and repairs is far more expensive in the long run.

The Studebaker is built throughout to give no-trouble Service. Moreover the Duplex body, an exclusive Studebaker feature gives you the equivalent of 2 cars in one. That's economy again.

The Studebaker Duplex Meets All Weather Conditions

THE Studebaker Duplex-Platoon combines all the desirable features of an open car with the protection given by an enclosed car. With one Duplex, you can enjoy the rush of fresh air or you will, or in 30 seconds or less, convert it into a snug and comfortable closed car. Simply lower the outer enclosure—without stopping or getting out.

Into the Duplex, and every one-profit Studebaker, go only the finest materials and workmanship. Unlike other American automobile manufacturers, Studebaker and Ford build cars complete in their own great plants. Only these two make all bodies, engines, chassis, gear, axles, gear boxes, differentials, steering parts, springs, drive shafts and drop fenders made by one company.

Compare Studebaker cars, point by point, with any car. They offer the greatest value. STUDEBAKER, 800 West End, U.S.A. £445 F. O. R. Nairobi.

**B**ACK of all the activities of Gilfillan & Company, Limited is the sincere and sober realization of the obligation the company feels toward the public who have purchased and who use its products. It is the aim of this organization to render a service so outstanding and efficient so widely useful and practical, that it will represent a significant contribution to the automotive development of Agriculture and Transportation in East Africa.

It is this thought that has been the stimulus and inspiration in developing our present service organization. In accomplishing its aims the very finest service personal has been secured. All work on Buick, Oldsmobile cars and McCormick Deering tractors is carried out by skilled technical men of long and successful experience. Here repairs and adjustments become a science. Here the most rigid standards of inspection are maintained before any work is passed. The service station staff consisting of highly paid, loyal men work under ideal conditions in a building designed with special regard for the climate and the requirements of the business. Special tools, machines and labour saving equipment assist in increasing efficiency and lowering costs. No factor or element has been overlooked which might lead to the improvement in our programme of service.

The company views its situation to-day with pride in the achievement of these men whose high standards of work and **craftmanship** are becoming more widely known and appreciated day by day.

With the steady growth of the company's business, the organization is looking beyond immediate demands and is anticipating and preparing for the developments of the years to come.

**RESIDENTIAL AREA FOR ASIATICS.**

**T**own Council Pressure upon Government.  
 A DELEGATION  
 The Town Council, Nairobi, Kenya Colony, East Africa, has formed a delegation to present a petition to the Government regarding the residential area for Asiatics. The petition is based on the fact that the current regulations are not sufficient to meet the needs of the Asiatic population in Nairobi. The delegation will be led by the Mayor of Nairobi and will consist of representatives of the Council and the Asiatic community. The petition will be presented to the Government in the near future.

**THE OXYGEN FURN.**

**R**esponse to the Appeal.  
 In response to the appeal which was published in the "East African Standard" on the 27th inst., the following gentlemen in the Oxygen Furn. have been contacted:  
 Oxygeneum Ltd., Nairobi, Kenya Colony, East Africa.  
 The Oxygen Furn. is a portable and efficient apparatus for the production of oxygen. It is suitable for use in hospitals, laboratories, and other institutions where a supply of oxygen is required. The apparatus is simple to operate and requires no special skills. It is a valuable piece of equipment for any institution where oxygen is used.

GENERAL MANAGERS

NAIROBI HOUSE NAIROBI-KENYA COLONY RESIDENTIAL:

Two plots situated off Kilberg Road for sale. 1182 and 1190 acres, at £150 and £162 respectively.

NAIROBI HOUSE Situated adjacent on second floor, for lease. Efficient Lift. Fireproof building. Modern sanitary. Gas, water and sink.

KINANGOP PLATEAU Farms varying acreage from 110 acres to 450 acres, and in price from Two pounds to Three pounds Ten

The land is of the best type for dairying and fruit growing and is situated at prices very much below the rate at which properties have changed hands in this district.

It is residentially ideal, about 18 miles from rail, with easy reach of a Creamery. Fruit growing is a proved industry in this district.

For further particulars apply to

H. F. Ward & Co., NAIROBI HOUSE.

A Profit From Every Season

Farm income can be increased on almost every farm by careful organization and efficient management.

On the feed grinder, wood saw, hay baler or other belt machines as well as for transport the Fordson's ready power can add much to the year's profits. The Fordson's low cost makes the investment light. Operating costs are low. On days out, it is not working the operative costs are nothing.

OUR WOMEN'S PAGE

A Letter from Paris

One of the graceful new sleeve styles for evening gowns, designed by our Paris correspondent. It is of silver blue.

A Forecast of Spring Materials

It is hardly likely that the spring fashions will be as revolutionary as those of the autumn. The general feeling is that the new season will be a continuation of the present one, with a few changes in detail.

For all the latest in dress for the day, the modern girl will find the materials of the new season in the list below.

Individual Styles

With spring comes a new spirit, and with it a new style. The fashion of the day is one of individuality and grace. The new styles are designed to suit the individual tastes and requirements of each woman.

Spring Materials

Materials of silk and wool are still the popular choice for the spring season. These materials are valued for their softness and durability, and they provide a wide range of options for the fashion-conscious woman.

Several Effects

There are some fascinating effects in the new spring materials. These effects include subtle patterns and textures that add depth and interest to the garments.

A Paris model of an afternoon frock, fashioned in large crepe de chine and embroidered in gold.

Light-colored materials are still popular for the spring season. These materials are valued for their softness and durability, and they provide a wide range of options for the fashion-conscious woman.

Tomorrow is a Foreboding

The market for the new season is expected to be strong. This is due to the popularity of the new styles and materials, and the overall economic conditions of the country.

THE RAINS ARE COMING
But when they do what sort of motoring comfort are you going to enjoy?
Is your car one of the old fashioned type with side curtains which take half an hour to fix and then are not rain or wind proof? Do you have to disturb your passengers and then stand out in the rain while you wrestle with refractory press buttons and fasteners which never fit properly?
The Studebaker DUPLEX BODY does away with all this. It is convertible into a closed rain proof car in 30 seconds without getting out or even moving from the driving seat. It takes an even shorter time to convert it into an open car again. This exclusive STUDEBAKER feature combined with sound chassis design and an engine with great power reserve makes THE STUDEBAKER for the best value for money on the market.
1-2-3
and the Studebaker Duplex becomes a snug, dry enclosed car
WITHOUT sacrificing the unobstructed speed and grace of the open car—without added weight or additional cost—the new Studebaker Duplex combines the advantages of an open car and an enclosed car.
Converted from one to the other in 30 seconds—the Duplex represents an outstanding development in motor car design. It is an exclusive feature of the New Studebaker cars. See it before you buy!

Wales Defeat England in London. Effect of the Dominions on the Game. A Car with Comfortable Seating.

NEW RULES ADOPTED. MORRIS-COWLEY'S IMPRESSIONS. Testing Chevrolet.

There have been several signs lately that the international football game is being brought back to its original form. The Football Association's decision to accept the new rules is a sign of this.

It is a sad state of affairs that the English side in the football game is being played in a way that is not to the credit of the English side.
