In the Quiet OF Your Home. THE NEW STANLEY HOTEL. THE DINING ROOM FOR BREAK FASTS, LUNCHEONS, and DINNERS.

Not in the low bidding, amazing array of every kind of merchandise which meets your eye as you enter the BIG STORE, in the quiet of your own home you can go through Whiteaway's New Catalogue and make up your shopping list. Every one of the 14 Departments has contributed to this new issue just published, the first since the commencement of our New Financial Year.

Following on a most successful year's trading we are glad to announce that many price reductions have been made possible, larger business always means lower prices at Whiteaway's. The New List is yours for the asking, and special attention is directed to the coloured pages describing the most famous W.L. Standard Values.

THE BRAND. Only goods that are worthy, goods that are the absolute limit of good value, are selected for inclusion in the W.L. Brand of Standard Values. Our London Buyers are adding continually to this deservedly popular series, buying in bulk for 60% Eastern Branches, and getting the bottom price for the huge quantities required.

We are able this year to offer many of the Standard Values at lower prices, as the sales grow larger so the prices come down. At all Whiteaway's Branches in Kenya you can buy "Standard Values" at the same prices. America's War Debtors. Washington, April 28. The Senate by 84 votes to 71 has approved the Cashier's Act...

PROBLEM No. 814.
"G" is the Competition.
Black to move. King, R1, K1, Q1, g7, f6.

White to move. King, Qd1, Kc1, R1, R2, B1, Kc4, Pa1, B2, B3, K2, B3, K1, Q1, g7, f6.

PROBLEM No. 815.
"H" is the Competition.
Black to move. King, R1, K1, Q1, g7, f6, Pa1, B2, B3, K2, B3, K1, Q1, g7, f6.

White to move. King, Qd1, Bc1, R1, R2, B1, Kc4, Pa1, B2, B3, K2, B3, K1, Q1, g7, f6.

Solutions to "G" and "H" must reach us by the 15th of May.

CHALLENGE-INDUCEMENT.
"H" is the Competition. We have an invincible game which will win its opponents' hearts and minds. If you are interested in this game, kindly send your name for our private information.

It will be kept a dark secret until the end of the Competition and only published then if you win a prize.

A. YOUNG, Member. There is nothing in the rules to stop you to expect no checks or excuses for key moves. This is a competition for solvers, not composers. Our object is to catch unwary solvers in tricky traps, rather than to share artistic spoils with beautiful chess players. But we hope to do both. "H" for example, is one of the finest bits of Bohemian modern artistry, yet it cannot be beat 4 couplings, including yours!!!

D. D. PERSE, Westport. Co. Down, Thank for the interesting game from the English-Irish correspondence which will be for the "Humourous" which "I" found in the competition and really (17th August, 1921) is one of its various settings.

THE COMPETITION.

Our advertising gives every indication of being a great success. There are 23 entries from all parts of Kenya from 100 competitors, including 50 new competitors who have not taken part in previous contests, and a high average of solving is a pretty omen. The Chess Editor's problem of solving them all out for the various prizes before we reach the end of the contest is probably more difficult than any problem the success will have to face.

The donations to the Prize Fund are, unusually good, showing the great interest that is being taken, and the business of the competitors and others.

SOLUTIONS.
RECAPITULATE THE FIRST TWO CORRESPONDENCE PROBLEMS.
Five solutions in the first week. **PROBLEM No. 808, "A"—Key-moves, 1. Q-c6.** This was Black P's at e6, when B moves to mate at d6 in reply to 1... P-c6. If this provides a new mate by the Q at e6 in reply to 1... P-c6, which is B's best move, 1. B-c6, when 1. B-c6... was good. "H" for they meet this nasty square of Black's but are defeated by 1... P-c4.

The problem is "written by the Chess Editor of an old position of Sta. Louis, which had a good "A" in the "cook's" chess column. The "cook" has eliminated it, but the original setting was square up, and adding a K1 in B's camp, "H" which I, who claimed it, was impossible.

CONFIDENCE

The Owner of a 1926 FORD Car has every reason for the confidence he places in it.
The performance of FORD Cars on muddy roads and tracks is proverbial and with the new, lower-slung body, ease of control is greatly enhanced.
Redesigned storm curtains opening with all doors, ensure adequate protection against inclemency of weather.
It is, undoubtedly, the car for bad as well as good conditions.

entire. We were very much struck by the effort now being made in Uganda to train native women for this purpose." The services to be rendered to the community in the interests of the children of the country has always been recognized but there has been a tendency to regard it as the task of the Government and special inspiration was required before the non-official members of such committees realized that their latent interest was capable of creating a helpful force and influence. The inspiration has been forthcoming and with it the genesis of a plan and although there is still a vast amount of work to be done before the scheme becomes a fact there is encouraging evidence that public interest has been awakened. Once understood, the work cannot be allowed to lapse and if it is established on a sound financial basis, it ought to spread with ease and usefulness and importance. We are very gratified to see that improvement cannot fail to have a beneficial influence upon the minds of those officers who watch the progress of our civilization with an anxious and willing to provide the energy, the direction and the co-operation necessary for guiding and supervising the work. It is our earnest hope and prayer that the improvement cannot fail to have a beneficial influence upon the minds of those officers who watch the progress of our civilization with an anxious interest. We are fortunate in being able to turn to a sister territory for guidance and experience and we hope to see, from these beginnings, the birth of a movement which will help to cheer for the better the social health conditions throughout the whole of Eastern Africa. If we, in Kenya, can give a lead in the pressure frame of white settlement and western ideas, in furtherance of which it has been undertaken by missionary bodies in Uganda, we shall only be performing one of the duties and recognizing some of the responsibility.

reasoning upon it because of our presence in Africa. That sense of moral responsibility ought to spur us on in putting our hands to the task and the creation of centres in each community developed and supported by the private resources of the section during the period will give encouragement and strength to the growth of the public work so necessary if the colonization of East Africa is to possess the quality of permanence.

A Cleric Paid.
A successful piece of detective work was described by the Resident Magistrate's Court yesterday when a native applicant, Captain Hatten, was charged with stealing business and professional papers belonging to a Mr. Hatten. Captain Hatten had in a box of his shirts, noticed that two business licenses and passports were missing. He went to the shops and to the telephone wires, but without success. He called his maid and instructed her to search the house. She found the papers in a box of his shirts. He called his maid and instructed her to search the house. A LETTER FROM LONDON

Easter in Every Part of a Record. COLOUR AND LIFE. Is For-Hunting a Cruel Sport?

FROM LONDON CORRESPONDENT. It must be a long time since you have had such a letter from the North of the country as had for the whole period of the last year.

Consequently everybody who could find London, all the roads were beaten this Easter. The number of passengers increased under the burden by the underground and its allied undertakings.

Friday 1,000,000. Saturday 2,000,000. Sunday 4,000,000. Bank Holiday 1,000,000. Of this total the three railway systems, the United Kingdom Metropolitan and the South Metropolitan carried 2,000,000 people.

On the roads the services were looking on favourably to the road. It was one great prospecting for 20 odd miles of cycle, motor-cyclist, and about 12 million motor-cyclists.

Every year since the war has been a record for the motor car. It is the most important thing that has happened since the war.

as it offers the case later on in the summer. In all, 100 people were killed and 100 injured.

Of course all the seaside resorts were crowded. The behaviour of the crowds was ideal.

 "I hardly like to tell you, you might fancy I was pulling your leg."
 The Potatoes are just simply wonderful, you never saw such growth, even through this drought. I have grown potatoes all my life and in many places, but never have I seen anything like this lot and further it is not a question of fancy seed because I purchased the seed at the store from a Kikuyu who is a well known grower of potatoes in the district.

Do You Know This?

1. Factory sales of repair parts on Studebaker cars for several years have averaged only forty shillings per car per year. Why part with money for parts? Studebaker cars require minimum repairs. Money put in at the factory for better materials and careful workmanship means less money put out by the owner for repairs.
2. Spark control on Studebaker cars is automatic. The automatic control never forgets to retard the spark—it is governed by engine speed. That means plenty of pep for getaway and hill climbing and added miles of perfect service from your motor.
3. All Studebakers are built for real solid comfort. If it's a five passenger—that means five grown ups, with ample leg room—seat room—elbow room. Roominess! Your comfort depends on it—so Studebakers have it—abundantly! Just try sitting in a Studebaker—front or rear.

CARPET BARGAIN

AT **SAVING** (LIMITED) NAIROBI.

From Monday May 12 To Saturday May 18 Six Days On

Nothing gives so much character to a room as a carpet. The easy maintenance of a bedroom, the quiet of a sitting room, the friendly invitation of a hall are due in no small degree to the carpet.

People in this eastern country buy their carpets by auction only (only paid Shs. 100/- for this carpet for the carpet) and they wonder why it does not have the new surroundings, why it never looks new.

You do not buy your clothes at auction unless you clean your rooms with the cast-offs from other people's closets.

The choice of a carpet depends on the utmost proper selection simply repeats it.

We have now in stock the finest range of Carpets, Runners, etc., that have ever been shown in East Africa. Linoleums and Axminsters, strictly English for the nursery or bedroom, luxurious Art Deco, Persian carpets in all almost infinite variety of design and sizes. A new carpet inspection has been organized and you can see and inspect these things.

Whether you are a buyer or not you will like to see beyond the inherent attraction of the carpets and the prices at which they are being offered, the opportunity to buy. If you are interested we will gladly show you the many ways to enable you to judge and choose.

During the Week
OUR ENIRE STOCK
WILL BE OFFERED

GLOOMY INDUSTRIAL OUTLOOK
IN ENGLAND.

All Trades Unions Stand with the Miners.
Mighty Urgency Conferences with the Premier.

FOUR THOUSAND LONDON ENGINEERS WILL STRIKE FOR WAGE INCREASE.

Although the industrial outlook in Britain is at the gloomiest, hope is not lost. Confessions between the miners and the federated Trades Unions have resulted in unanimous promises of support to the miners, but the line of that support is not yet indicated. Other continuous conferences between the Premier, the miners, and cottonweavers, extending for the night, at the hour of latest news, have produced no result. The careful day will be May Day, concerning which no tidings have yet been received. The Premier, Mr. H. Thomas, has been in London, expressing the belief that industrial war is at hand; the Premier, on the contrary, believes his efforts will be successful. Meanwhile, the long-pending rebellion of the engineers against their wage rates has culminated in a threatened strike of 40,000 Londoners for £1 weekly increase.

expressing the opinion that it was a mistake to have been invited to the question of the French debt on a basis of £3 years agreement. On a payment of 50,000,000 dollars each two years, gradually increasing to 25,000,000 dollars annually for the next two years, gradually decreasing to a maximum of 12,500,000 dollars in the fifth year. It is estimated that the payments will aggregate 6,647,000,000 dollars within interest. For the first five years and thereafter the rate of interest will gradually increase from one per cent. For the first 10 years to 4½ per cent, for the last twenty years.

There is no such no safety clause. **Home Bye-Election.**

LADY LABOURITE RETURNS TO THE HOUSE.

The following is the result of the by-election for East Ham North, the vacancy having resulted by the death of Mr. E. L. Thomas, who was returned as a Conservative in 1922, re-elected in 1923, and returned again in 1924. Mr. G. W. S. Jarvis (Cons.) 9,171; Mr. H. L. Burge (Lab.) 6,609.

Miss Susan Lawrence is a well-known figure in London politics. She has been a member of the L.C.C. for many years and is an Alderman of Lambeth. She was at one time a prominent Conservative, but in 1922 joined the Labour Party. She subsequently contested Chislehurst in 1923 against the Conservative, and in 1922 contested East Ham against the late Mr. Gresham. She was returned for the constituency, but the following year was unsuccessful. Mr. Jarvis, who is an architect and an energetic and educational worker, contested Maidenhead in 1918 as a Coalition Nationalist Party candidate. He then joined the National Labour Party and was returned in 1922 for Dartford. Kent, being unopposed. He was again elected in 1924, but was defeated in 1925. Calcutta, April 28.—The situation in the northern districts of the city is quieter, though isolated outbreaks continue in which one has been killed and two wounded. The situation, however, is quiet. The Governor of Bengal has arrived from Durgam and was received by the leading representatives of the city. The Indian contingent to the conference of Bengal has been organized. It is expected that a large number of arms have been captured.

A native in the employ of Lord Delamere and who was fashionably attired in a Fair Isle pullover and white flannel trousers, found himself in the dock of the Magistrate's Court on Saturday. He was charged with being in possession of a fully loaded revolver. The accused having pleaded guilty a following conversation took place between Mr. Gable and the accused: The Magistrate: Is it yours? He: Yes, it is mine. What did you get it from? I bought it. From a European during the war. Didn't you know it was against the law for you to have firearms?—I did not know. What did you want a revolver for?—I didn't want a revolver for—I just kept it—I didn't know.

In the Quiet
OF
Your Home.

Not in the bewildering, amazing array of every kind of merchandise which meets your eye as you enter the BIG STORE, in the quiet of your own home you can go through Whiteway's New Catalogue and make up your shopping list. Every one of the 14 Departments has contributed to this new issue just published, the first since the commencement of our New Financial Year.

Following on a most successful year of trading we are glad to announce that many price reductions have been made possible, larger business always means lower prices at Whiteway's.

The New List is yours for the asking, and special attention is directed to the coloured pages describing the new famous W.L. Standard Values.

THE
W.L. STANDARD VALUES
BRAND

Only goods that are worthy, goods that are the absolute limit of good value, are selected for inclusion in the W.L. Brand of Standard Values. Our London Buyers are adding continually to this deservedly popular series, buying in bulk for our 50+ Eastern Branches, and getting the bottom price for the huge quantities required.

We are able this year to offer many of the Standard Values at lower prices, as the sales grow larger so the prices come down.

At all Whiteway's Branches in Kenya you can buy "Standard Values" at the same prices.

VEGETABLE GROWING.

Salad vegetables. Various for salad such as cress, radish, etc. have already been briefly mentioned. We come now to the all important lettuce and say at the same time that early sowing will take good care to have plants of lettuce during most of the year. I have often been told that lettuce cannot be raised in Kenya for if transplanted into the soil it will not flourish, but according to my experience it can be raised in Kenya.

Cauliflower are closely related to vegetable marrow and need the same treatment. They grow and it is not best during the hot weather and it is best to plant them in the shade and to keep them well watered. They will do well in the soil and will not be so subject to rot as cauliflower. Some growers plant them in the shade and some in the sun. It is best to plant them in the shade and to keep them well watered.

Flowering varieties of Cucumber. The most popular is the one known as the "Garden" cucumber. It is a very good variety and is well adapted for the climate of Kenya. Side shoots may also be stopped when you see three fruits have formed. Cucumbers grown especially for exhibition purposes are raised in crystalline glass tubes under a lamp to keep them nice and straight and symmetric. One variety is the "Garden" cucumber. An enquiry was opened yesterday into the death of a native, in the employ of Mrs. Davis, of Parklands, who died as the result of a gunshot wound on the 25th inst.

The Hunter said he held a post-mortem on the body of the deceased. He was a well-developed Kikuyu. He had gunshot wounds on the neck which had driven the bone into the brain. The cause of death was a gunshot wound which could have been self-inflicted. There was outward signs of mental derangement.

For fun, the threatened to shoot women, and the latter said he would not play with her gun. Just for fun.

FERTILISE WITH EPHOS

The following testimonial speaks for itself:
"You asked me how the experiment with 'Ephos' turned out. Well, I hardly like to tell you, you might fancy I was pulling your leg."
"The 'Ephos' are just simply wonderful, you never saw such growth, even through the drought. I have grown 4 potatoes all my life and in many clays, but never have I seen anything like this, and further it is not a question of fancy soil, because I purchased the seed at the door from a Kikuyu man."

The essential of the above testimonial can be seen on application to

ANOTHER TRIP ACROSS AFRICA.

Mr. Frank Gray on a Jowett Car.

LAGOS TO NAIROBI.

A telegram has been received by the agent in Nairobi for Jowett cycles from Mr. Frank Gray, who is attempting to cross Africa from Lagos to Nairobi on a Jowett cycle. The message contains a list of the various difficulties which he has encountered since he started on his journey.

The car, however, has proved to be a most remarkable asset and the party, equipped with the trip, after a most successful journey, they have started on the last stage to Kisumu.

Do You Know This?

1. Factory sales of repair parts on Studebaker cars for several years have averaged only shillings per car per year. Why part with money for parts? Studebaker cars require minimum repairs. Money put in at the factory for better materials and careful workmanship means less money put out by the owner for repairs.
2. Spark control on Studebaker cars is automatic. The automatic control never forgets to retard the spark—it is governed by engine speed. That means plenty of pep for getaway and hill climbing and added miles of perfect service from your motor.
3. All Studebakers are built for real solid comfort. If it's a five passenger—that means five grown ups, with leg room—seat room—elbow room. Roominess? Your comfort depends on it—so Studebakers have it abundantly! Just try sitting in a Studebaker—front or rear.

THE DEVELOPMENT OF MOTORING.

Comfort Was Slow in Being Developed.

THE PAST AND PRESENT

Strange as it may seem some of the features of the motor car which manufacturers were made slow in developing are, those pertaining to the comfort of passengers. This was due, partially to the makers' intense desire to improve power plant and transmission and partially to the fact that our forefathers were not interested in descending near comfort. In defence of the latter remark it would be remembered that when automobiles first began to appear they were "high-tops" which were made in them expected more or less. However, just as our forefathers who appear to hunt and chase a lion or a tiger in the open air in the Arctic. Indeed, they were, in form of motor car, a very crude affair, and the most efficient method of transportation. Riding in an automobile was not considered a very desirable mode of transportation. The old motor cars were not only uncomfortable, but were liable to hold, and were often precipitated through trees due to the lack of a sound padded interior, our forefathers would not have been so much interested in the motor car. Some of the late motor cars were, for the most part, made of wood and the seats were not only uncomfortable, but were often made of wood. These were not only uncomfortable, but were often made of wood. These were not only uncomfortable, but were often made of wood.

Twenty Minutes a Mile.

TEST ON A CAR BY ENGLAND

From time to time one hears of various tests being arranged to demonstrate the durability or the running of particular makes of motor cars in some form. An old favourite was the running of a duration test on road and would a single such test prove itself in the long run.

That was the case in the test recently described by a Which motor of a 110-hp Armstrong-Siddley. The car was driven for a total of 100 miles on a road which was 100 miles long. The car was driven for a total of 100 miles on a road which was 100 miles long.

SPEED RACING ON EASTER MONDAY

From Our Own Correspondent

London, April 30. A record crowd of 30,000 on Brooklands track, Westbury, to witness the motor race organized by the Brooklands Automobile "Flying Club". During the seventh race a disaster was narrowly averted. 400 Bikes for the test of the banking and then proceeded, turning round completely. He was in the immediate path of several other competitors and he moved Captain Harrold to make the latter's turning of over 100 miles an hour.

The highest speed of the day was 100 m.p.h. attained by Captain Wood Harrold in winning the sixth race.

CONFIDENCE

The Owner of a 1926 FORD Car has every reason for the confidence he places in it. The performance of FORD Cars on muddy roads and tracks is proverbial and with the new, lower-slung body, ease of control is greatly enhanced. Redesigned storm curtains opening with all doors, ensure adequate protection against inclemency of weather. It is, undoubtedly, the car for bad as well as good conditions.

THE LABOUR COMMITTEE.

The committee under the Labour problem which is being subjected to the fact that the Government, with the consent of the local business community and the House of Members of the Legislative Council, has decided to make a new wage and price control scheme. The Labour Committee, which is a representative body of employers and employees, has been set up to investigate the situation and to propose a scheme of control. The committee has been working for some time and has held several public hearings. It has received many suggestions from employers and employees alike. The committee has also held discussions with the Government and the House of Members. It is expected that the committee will submit a report to the Government in the near future.

greatly affected by a continued depression unless labour which is unproductive of results. The method of frank examination of the various aspects of the problem, which was a very important one, will be the result of a very great deal of work. The First Patent Holder was Gibbs

British and Still the Best

The COLD-CREAM lather of GIBBS Shaving Soap works up in next to no time. As rich and plentiful with cold water as with hot. A blessing on hot days. It acts as a toilet soap, the face, leaving it soft and well conditioned as if newly massaged with Cold Cream.

SULHAN'S SERVICE.

The following is from the News Sheet of Zanzibar dated April 17: Official Gazette April 17: ID-16-1218 1344.

Despite a superstitious to the contrary, the late Sultan, Zanzibar, died on Tuesday and was not buried. It was understood that till the present day, the Sultan's body was preserved in a watery solution, and the smell of the water, the smell of the water, the smell of the water...

We sincerely hope that the Sultan's Majesty's body will be preserved for many years.
