

MOTING TOPICS

WALLS HAS WHO DRIVE A CAR.

Lessons of Lastity in Learning Driving Lessons.

SECURITY OF A TEST.

By Major F. A. C. Fothering.
LAST, FIGURE!
 I read in a London paper, some little time ago, that a driving license had been given to a blind

man. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

As I thought, it would appear to be an exception. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

As I thought, it would appear to be an exception. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

As I thought, it would appear to be an exception. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

As I thought, it would appear to be an exception. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

NOT EXPERTS ONLY.
 I do not refer to "experts" in the sense of those who are supposed to be experts in the art of driving. I refer to those who are supposed to be experts in the art of driving.

As I thought, it would appear to be an exception. I was surprised to find that the man in question was a blind man. I was surprised to find that the man in question was a blind man.

The NEW McCormick-Deering Narrow Tread Tractor

Built and Equipped for Ploughing and Cultivating between Coffee and Sisal Rows.

ABSOLUTELY the last found narrow cultivating tractor construction. Its main features are identical with those found in regular McCormick-Deering tractors. Years of grueling work in power cultivation have proved every feature. Such proved dependability, plus the new narrow tread, makes this new tractor extremely desirable.

Every possible provision has been made for the protection of working parts from dust, dirt, and sand. Disc wheels, flush with the outer rim, prevent damage and injury to branches or leaves as the tractor passes between the rows. Air cleaner, Bosch magnets, removable cylinder liners, unit main frame, throttle governor, adjustable drawbar, and brakes are regular McCormick-Deering features.

Gillilan & Company, Ltd.,
DISTRIBUTORS
NAIROBI.

Ask any of the following dealers about this new Narrow-Tread Tractor:

 P. Usher-Bombay—Mombasa

10/20 Tractor	£285
14/20 Tractor	£320
10/20 Narrow Tread Tractor	£250

- (1) Small engine.
- (2) A close fitting, and well adjusted, and of freedom from spring.
- (3) Fuel of standard quality of kerosene, naphtha, or oil.
- (4) A full oil tank on the rear end under the seat without extra cost.
- (5) Freedom from heat.

Disk Sales.

REMARKABLE VOLUME OF BUSINESS.

It is generally known that for the past eight years the volume of Disk Sales has exceeded that of any other manufacturer of tractors. From the latest figures available Disk is increasing its world leadership at a tremendous rate. The large sales of Disk in the motor world during the past year is partly the result of the remarkable performance of the new models.

A list of our sales companies and authorized dealers of New York, New York, has just been received. The sales of the eleven leading cars for the year up to April 14, last, are as follows:

	New York	York	Total
Ford (Fours)	1180	4186	5366
Dodge (Sixes)	1107	3043	4150
Chevrolet (Fours)	954	2752	3706
Dodge (Fours)	638	2051	2689
Nash (Sixes)	537	2270	2813
Chrysler (Fours and Sixes)	503	1744	2247
Studebaker (Sixes)	405	1885	2290
Kaiser (Sixes)	338	1137	1475
Overland (Fours and Sixes)	280	759	1039
Hudson (Sixes)	227	1053	1280
Cadillac (Eights)	192	771	963

It will be seen that the volume of Disk sales is increasing. It is considered that the price of the Disk car is several times that of most of the other cars. The week ending April 14 showed the following sales results for New York and Neighbouring countries:

Ford	583
Dodge	204
Chevrolet	192
Nash	139
Studebaker	97
Chrysler	211
Hudson	200
Hudson	174
Overland	139
Packard	127

The New Six Is Truly Hupmobile

PROVE it has always existed in any that they drive a Hupmobile. It is the only car that they can drive with a sense of security, with a sense of ease, with a sense of freedom, with a sense of joy.

There are only two things that you can do with a Hupmobile. You can drive it, or you can sell it. The Hupmobile is the only car that you can drive with a sense of security, with a sense of ease, with a sense of freedom, with a sense of joy.

"STANDARD" FEATURE PAGE
THE GREAT PYRAMID OF EGYPT.

The Largest Building in the World.
HISTORY AND PROGRESS.

General Description of the Pyramid.
(Special to "The Standard").
(By A. H. Newman, London.)

The Great Pyramid is a mass of colossal masonry upon the Giza plain of Egypt, built with the memory of the pharaonic structure and its meaning. As a result of recent discoveries of ancient literature the purpose of the Pyramid has been brought to light, and Mr. Newman points out the meaning and its work upon the human eye to-day.

No. 1.
The Great Pyramid is by far the largest building on earth. Its base covers 13 acres, with a circumference of nearly two-thirds of a mile in 490 feet high, and it contains 100 million cubic feet of masonry. Each of its steps is about 24 inches wide and originally covered with marble very highly polished.

The face of the building consists of three of 22 acres of optically worked reflecting surface, and, according to the latest calculations, it reflected the sun's rays in four immense beams that swept right across the whole of the ancient land of Egypt as they swept across it during the day. These reflections had a highly scientific and spiritual purpose, as well as the practical one which they served as a general national and seasonal indicator.

Almost all these beautiful white marble casing stones have been stripped off and used to build magnificent palaces in Cairo, but 19 of them were discovered in May, 1909, untouched in the centre of the north side, buried under the sand. They show that the greatest care had been used in selecting the whitest limestone on the soil, which was fine-crained, workable and not subject to weathering. It is difficult to see how the blocks themselves are so truly square that one cannot distinguish the joints of the masonry.

South African Railways and Harbours

TROUT FISHING IN SOUTH AFRICA

In the past few years Trout catches have made considerable headway in South Africa. Many mountain streams, hitherto almost free of the higher class of followers of the "gray's" fish.

The open season extends from October to April. Railway fares in South Africa is inexpensive and facilities are of high standard. Accommodation is good.

ASPIRING TO A NEW AND BETTER AFRICA.

Work of International Mission Conference in Belgium.

COOPERATION THE KEYNOTE.

A Helpful Exchange of Views and Experiences.

HEARD AID FROM AMERICA.

The International Conference on the African Mission in the West Indies during September was attended by 17 Protestant ministers but by occasional reports, other denominations.

The discussion covered a big field and dealt with many of the most important problems which are absolutely basic to the work of the church in Africa. The conference was held in the city of Brussels, Belgium, and was the first of its kind in the West Indies.

Mr. J. H. Thompson, Secretary of the American Board of Christian Missions, presided over the conference. He stressed the need for cooperation between the various churches in Africa.

The conference was held in the city of Brussels, Belgium, and was the first of its kind in the West Indies.

THE HUPP SIX

The New Six—
Is Truly Hupmobile

PEOPLE have always wanted to say that they drive a Hupmobile. It means that they were possessed of refined taste of distinction, with a sound business faculty for recognizing sound value. But many also wanted to drive a Six.

There was only one thing to do—Hupmobile has done it. The New Hupmobile Six equals all the former Hupmobile advantages in a more powerful combination than ever before. This New Hupmobile six-cylinder construction requires remarkably little servicing. You may now drive a six-cylinder motor car with the satisfaction of knowing that "keep expenses will be minimum." The New Hupmobile Six is Hupmobile through and through a guarantee that your last week has been fulfilled.

STANDARD FEATURE PAGE

THE THREE ONE'S CHAIR

By P. H. H. Bishop (The South African Dept. Commissioner)

A great deal has been said and written about the cricket season here lately, but it has not occurred to me that I have a woman friend's "opening" of the game.

It certainly has become a fact of life here. Hope's his girls, more than the men, are the original grass players taking up the new position of attack instead of being out of the rattle from the benches.

It is due to this, I am certain, that so much more interest is taken today in ladies' singles and doubles.

SUZANNE

As this game became a fact of life here, I have played against her a few times and I must confess that I was as good as her. We have as good as a woman here, but she just yielded as easily as any first-class man player.

and the women's side has the best of it... The girls have been playing for some time now, but I am not sure that they are really any better than the boys.

INGLAND'S HERM HOPE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

"THE BAKER"

Miss Odette has been playing for some time now, but I am not sure that she is really any better than the boys.

POINTS ABOUT THE VOLLEY

The main object of the volley is to get the net and as quickly as possible. The nearer the ball, the better the volley.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

Miss Nettle's drive will play her part in the success of the team. Her famous drive is good and her practice with the club will be of much value.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

It is certain here when you hear the remark when a player is being dismissed that he is only a one-armed player. He will never become a world leader to do that; you never see a member of every district and I believe, the greatest World's Champion, is an one-armed player even so he is still a cricketer in a good reliable hand.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

ALICE

Miss Nettle is going to be a first class player. Her famous drive is good and her practice with the club will be of much value.

South African Railways and Harbours

TROUT FISHING IN SOUTH AFRICA

In the last ten years Trout culture has made considerable headway in South Africa.

Many mountain streams, ideally situated, offer sport of the highest class to followers of the "greenie" art.

The open season extends from October to April. Railway travel to South Africa is inexpensive and facilities are of high standard.

MOTING TOPICS

WIRE ACCIDENTS.

Causes and Means of Occurrence.

AMERICAN STATISTICS.

Under what conditions and in what places do automobile accidents occur? As a guide to motorists it is of course of great value to know the causes of accidents, and the means by which they can be avoided. The following statistics, which have been compiled with great care by an

American Bureau of Motor Vehicle Statistics, are of great value to all motorists. They show that the most common cause of accidents is the failure of the driver to stop at a red light or sign. This is followed by the failure to stop at a stop sign, and the failure to stop at a yield sign. Other common causes are the failure to stop at a stop sign, and the failure to stop at a yield sign.

In a motoring report the following statement is made: "It is worth noting that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets."

It is interesting to note that in most cases the driver is at fault. This is due to the fact that the driver is the one who is in control of the vehicle, and is therefore responsible for its actions. It is also interesting to note that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets.

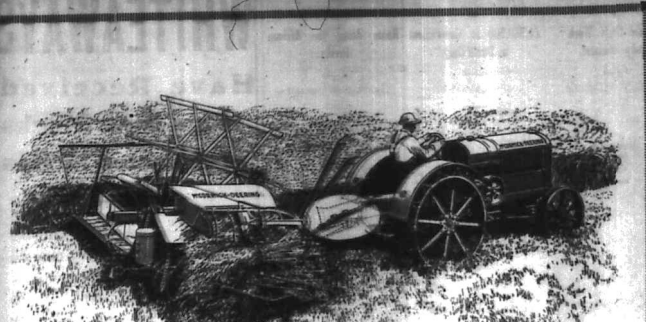

When and where. Statistics show that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets. This is due to the fact that the city streets are the most densely populated areas, and are therefore the most likely to be the scene of accidents.

It is also interesting to note that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets. This is due to the fact that the city streets are the most densely populated areas, and are therefore the most likely to be the scene of accidents.

When and where. Statistics show that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets. This is due to the fact that the city streets are the most densely populated areas, and are therefore the most likely to be the scene of accidents.

It is also interesting to note that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets. This is due to the fact that the city streets are the most densely populated areas, and are therefore the most likely to be the scene of accidents.

When and where. Statistics show that the majority of accidents occur in the city streets, and that the majority of accidents occur in the city streets. This is due to the fact that the city streets are the most densely populated areas, and are therefore the most likely to be the scene of accidents.

A binder is shown here, its mechanism being operated by the power take-off of the McCormick-Deering Tractor.

Do You Know About the McCormick-Deering Power Take-Off?

Besides the belt and drawbar McCormick-Deering Tractors have a third power source—the power take-off, for running the mechanism of binders, mize-pickers, harvester-threshers, etc., direct from the tractor engine. This handy properly located, properly protected, power take-off always runs at the same speed whether the tractor is in high or low. It can be operated when the tractor is standing still, so a pulled machine can be cleared if clogged. It is gear driven. It runs at a uniform speed. The McCormick-Deering is the original triple-power tractor.

McCormick-Deering tractors are specially designed to operate by means of their power take-off the following equipment:

- 10-20 tractor £500
- 15-20 tractor £550
- 10-20 Harrow, Road tractor, for ploughing and cultivating between rows of Cobs and Maize £600

- McCormick Deering Mower.
- McCormick Deering Mower-Plough.
- McCormick Deering Mower-Plough.

If you are farming in maize or wheat the McCormick-Deering tractor is indispensable to you.

Giffilan & Company, Ltd.

Will your shirt face the laundry?

If it is a Consulate Shirt, the question does not arise; it is anticipated by the most binding guarantee that has ever been given—that can ever be given about shirts in the world. Its pattern will stay the same; its colour will stay the same; its length, length to cut, its texture—they will all stay the same. As it starts, so will it stay. If it doesn't—well, you will replace it. Ask your dealer to show you the Consulate guarantee.

FORD QUALITY

The twenty-one years Ford quality has been constant. The first Ford was a quality car. The Ford of to-day embody the original traditional quality together with improvements and refinements developed through these years.

Only this constant quality has made possible the constantly increasing production that has distinguished the Ford among cars. The Tourer enjoys an illustrious record of useful service. Smart looking, easy and economical it provides excellent personal transportation for the individual and the family. Selection of three body colours in durable lacquer—Molekin, gray and green.

HIGH-SPEED RELIABILITY TEST PROVES THE SUPERIORITY OF SHELL OIL AND SHELL PETROL.

For the first time, a London-Cairo flight has been accomplished in 50 hours (elapsed time).

The pilot, Colonel Minchin, C.B.E., D.S.O., M.C., Juggler air-cooled engine, set up this new air record on flying a Bristol Bloodhound Biplane with Bristol 30/31.

The distance of this air route is 2,000 miles, of which 400 are over the sea. It was an arduous task for any engine. Shell Oil was used exclusively and gave excellent, unflinching lubrication throughout the flight.

Shell Aviation Spirit was also used exclusively. This excellent aviation fuel, used on that (invaluable combination Shell Oil and Shell Petrol)

THE CASE FOR AFRICAN A & STANDARD

Monday Times & Uganda Argus
MONDAY, OCT. 18, 1938

Budget Considerations.

The Legislative Council meeting will be resumed this morning, when, according to the Order of the Day, no time will be lost in beginning consideration of the Draft Estimates for 1937.

The financial position is that the Colony is likely to have a considerable surplus at the end of the year in view of the fact that the balance at the end of June amounted to £200,000, which is not an insignificant sum. It is not, however, as if the Government were to be able to do as it pleased with this money. The Government are bound to maintain a credit, then, after the end of the year. It is not, however, as if the Government were to be able to do as they pleased with this money. The Government are bound to maintain a credit, then, after the end of the year.

legitimate that revenue. It is argued therefore that no annual surplus is fast but on the draft estimates; that it should not be so treated upon for current needs; that it should approximate £200,000; that the Widows and Orphans Pension Fund balance should be set aside in future; that the revenue from land sales should be spent on permanent public works; and that there is no possibility of reducing the proposed expenditure of £2,000,000 by a sum sufficient to maintain a credit, then, after the end of the year.

It is not, however, as if the Government were to be able to do as they pleased with this money. The Government are bound to maintain a credit, then, after the end of the year.

It is not, however, as if the Government were to be able to do as they pleased with this money. The Government are bound to maintain a credit, then, after the end of the year.

4 Roomed House, Upper Hill. FOR SALE.

Building Plot 1 acre 2nd Avenue Parklands. Coffee Farm 8y pation 4y miles Nairobi 502 acres. 10 acres full bearing another 60 acres planted, 6 rounded (honey, Graham, plants, Tanks, machinery, etc., etc. talk over on a running concern.

Apply to—**DENOVAN & DIEBEL, City House.**

Consider one day's Production By Dodge Brothers, Inc.

Did you ever see 1500 automobiles at one time?

Produced in one place they cover more than 2,657,100 square feet.

Driven in a line, five feet apart, they make a parade more than 2 1/2 miles long.

Packed for shipment they fill more than 225 freight cars.

And yet this is simply one average day's output at the Great Detroit plant of Dodge Brothers, Inc.

Production on this vast and ever-increasing scale permits economizing in the purchase of equipment and materials which faithfully reflect themselves in the low prices you pay for Dodge Brothers Motor Cars.

S. FISHER & SIMMONS (S.A.) LTD., VICTORIA STREET, NAIROBI.
